

True Colors

XEROX[®]

Technology | Document Management | Consulting Services

Quality measured in tolerances that approach perfection. Adaptability that consistently beats our competitors to the marketplace with new offerings. A passion for innovation and creativity that allows our customers to be even better than they thought they could be. A steadfast and demonstrable commitment to diversity and social responsibility.

These are the True Colors of Xerox.

In everything that we do, our True Colors inspire us to succeed and allow our customers to reveal theirs. They keep us at the forefront of technological innovation, timely product delivery and end-to-end services that spur profitable growth. They keep us financially strong and intently focused on increasing value to our shareholders. The True Colors of Xerox guide us every day and will continue to propel us in the future.

Diluted Earnings Per Share	0.94	0.86

Anne M. Mulcahy
Chairman and Chief Executive Officer

Fellow shareholders:

I am pleased to report another solid year of progress for Xerox. Our company is in excellent financial health. Our balance sheet is strong and getting stronger. Our new business model is doing what we intended: whatever the challenges of our business, we are able to adjust quickly and produce earnings growth. In fact, we have met or exceeded our earnings expectations in 13 of the last 14 quarters.

Our global operations are producing significant cash flow. At the same time, we have virtually eliminated debt except for the debt that supports our customer financing activities.

As a result of our performance as well as confidence that it will continue, the Xerox Board of Directors has authorized the company to repurchase \$1 billion in Xerox common shares. It's a tangible way to deliver shareholder value and to assure you that we take very seriously the trust you have placed in us.

Our progress in 2005 provided more evidence that we are on track and continuing to build momentum:

- Net income of \$978 million or 94 cents per share, an increase of 9 percent from full-year 2004.
- Gross margins of 41.2 percent – in line with our expectations.
- Selling, general and administrative (SAG) expenses of 26.2 percent of revenue – down one-half point from the previous year.
- Debt balance of \$7.3 billion, a reduction of \$2.8 billion from year-end 2004 – and virtually all of what remains is in support of our customer financing activities.
- Operating cash flow of \$1.4 billion.
- Year-end cash and short-term investments balance of \$1.6 billion.

Xerox is at a pivotal point. We get a lot of credit these days for turning Xerox around. We're pleased by that, but hardly satisfied. All of our hard work these past five years has been done with a single-minded purpose – to return Xerox to growth, thereby providing value to our shareholders.

We made progress in 2005, but not enough. We accelerated the pace of install activity for Xerox digital systems such as color printers, digital presses and multifunction devices that print, copy, fax and scan. In fact, activity increased by double-digit rates in our key markets. At the same time, we aggressively ramped our services business, winning more global consulting contracts for Xerox's document management expertise.

All of this bodes well for our long-term success: increased equipment installs drives more pages printed on Xerox systems. More pages fuel growth for Xerox supplies and service. This translates into "post-sale" revenue, which represents about 70 percent of Xerox's total revenue. More multi-year contracts for Xerox's document management services also flows through to support our annuity stream.

Our post-sale revenue turned positive in the second half of 2005 – an important sign that our annuity-based business model is working. However, total revenue was flat, slightly below our expectations. We know we can do better and are confident we will. And that's what I'd like to take this opportunity to discuss with you – how we will grow Xerox over the next few years.

We do business in a very attractive – and therefore very competitive – market that currently affords us a \$112 billion opportunity. Parts of that market are stable, parts are growing rapidly, and parts are being created. In each, we have a clear, consistent and credible strategy. Simply put, it's this:

- **Compete** aggressively and effectively in the relatively stable \$58 billion digital black-and-white printing market.
- **Drive** the rapidly growing \$17 billion digital color printing market, where the breadth and depth of our technology gives us a commanding competitive advantage.
- **Create** a new \$17 billion market by harnessing digital technology to the world of offset printing with applications such as print-on-demand, personalized communications and one-to-one marketing. We call it the New Business of Printing®.
- **Lead** the burgeoning document services market by working with our customers to reduce document costs, streamline processes and enable the free flow of documents down the hall, cross-town and around the world.

That's the opportunity we're attacking. It's a blend of markets where we have traditionally competed and natural extensions of those markets – extensions that are enabled by new technology and inspired by the evolving needs of our customers. A question I'm often asked by investors is how Xerox believes it will win in this \$112 billion market. It's a fair question. When I reflect on it, I believe there are six tangible – and one intangible – reasons why Xerox will succeed.

First, our **technology** – a past, present and future strong suit for Xerox. We routinely invest 6 percent of our revenues in research, development and engineering. Our research investments are closely aligned with our growth strategy; this way we're always outrunning our competitors. For example, Xerox and our partner Fuji Xerox are jointly investing about two-thirds of our combined research and development budget on color. Over the last decade, this investment has resulted in more than 2,700 color-related patents.

During 2005, we brought 49 new products to market – products that won more than 260 industry awards. In fact, fully two-thirds of our equipment sales last year came from products introduced in the past two years.

It's fair to say that no other company has a broader or better set of offerings than Xerox. Perhaps more importantly, we remain committed to our ongoing investment in research and technology – investment that is yielding great returns.

During 2005, the Xerox scientific community was awarded 643 patents, placing the patent portfolio in the top 25 of American companies. And, in 2005, we filed 60 percent more patent applications than in the previous year. This relentless focus on innovation assures us that we will be able to bring added value to our customers far into the future.

Second, **color**. The demand for color in today's world is great. Our response is straightforward – make it affordable and make it easy to use. That strategy has made us the revenue leader in a market that is expected to double by 2009.

Color has rapidly become a business-critical tool for our customers. More and more businesses are shifting to digital color systems to produce personalized, colorful materials such as marketing collaterals, financial statements, catalogs and user guides on Xerox digital devices. The number of pages printed on Xerox color devices has doubled in the past two years. In fact, color now represents approximately 30 percent of our total revenue.

The potential for color technology is as enormous as it is profitable. Two facts stand out: around 7 percent of the pages printed or copied on Xerox devices today are color, and color pages are five times more profitable than black-and-white. The combination presents us with a world of opportunity. We intend to capture it.

“The potential for color technology is as enormous as it is profitable.”

Third, our **superior knowledge of documents** and the way people work with them. Ever since creating the plain-paper copier industry 50 years ago, documents have been part of the DNA of Xerox. We have research teams around the world that study the flow of documents in a workplace and develop smarter software and services that simplify this workflow. Our customers in industries such as health care, legal and manufacturing rely solely on Xerox to manage the huge volume of paper and digital documents that keep their businesses running. As we like to say, we know more about the document, care more about the document and can do more with the document than anyone in our industry. Period.

That's an enormous advantage as the document becomes more digital, more dynamic and more critical to the conduct of business. Heretofore, the substantial cost of documents flew under the radar screen of most Chief Information Officers and Chief Financial Officers. Everyone used documents, but no one was accountable for their management. That is rapidly changing and it plays to our expertise. We can save our customers up to 30 percent of their document costs. And we are.

An increasing number of customers are turning to us to simplify their document-intensive work processes; manage their document-related assets; develop systems to easily store, search and retrieve digital files; and provide other services that add value.

Fourth, our broadening portfolio of **distribution channels**. It includes 8,000 sales professionals, 7,000 agents and concessionaires, 10,000 resellers, a world-class teleweb operation, strong OEM relationships, IT and consulting partners – all backed up by industry experts and business analysts. It's a critical mass of people and expertise that no one else can match.

Those distribution and consulting resources span the world and give us a presence that global customers covet. Digital documents and business enterprises don't stop at geographic boundaries. Neither does our ability to help our customers.

A growing list of global companies are turning to Xerox for help in managing their worldwide document needs. The Dow Chemical Company is a good example. They've signed a \$66 million deal with us to consolidate all of their document assets – printers, copiers, fax machines and scanners – in 54 countries. Dow will get more technology at less cost, seamless integration around the world and the value of working with a global partner. We believe arrangements such as this are the wave of the future. You can read more about our relationship with Dow on page 10 in this report.

Fifth, the **customer-centric culture** we have built and continue to strengthen. Our people recognize that the customer is our priority among priorities – the reason we exist. Some 12,000 of our people – that's one in five – literally work every day on customer sites. We work with our customers, offering not just our products, but also providing solutions to the most pressing problems of our customers.

The vast majority of our leadership team – including people such as our Chief Accounting Officer and General Counsel – have personal responsibility for the relationship with one of our major customers. Whenever I call on a customer – and that's every chance I get – they tell me that the most important reason they do business with us is the caliber and commitment of our people. It's a priceless asset.

Sixth, the **strength of our brand**. We nurture it. We invest in it. And we know that it opens doors, gives us permission to compete for business and positions us as an attractive and trusted partner.

One recent brand-building achievement is worthy of special mention. J.D. Power and Associates named Xerox the first document management company to receive its certification for excellence in customer service and support. J.D. Power evaluated the breadth of our on-site, phone and online customer service. In addition, auditors conducted several comprehensive visits to our call centers and surveyed hundreds of our customers. It's quite an honor and one that will motivate us to strive for even higher levels of performance.

So there you have it – a half-dozen reasons that give us a competitive advantage in the marketplace and should serve to give you confidence that you have invested your money wisely.

As I write this letter, I am gathered with the senior leadership team of Xerox – some 300 individuals whom I am proud to call my colleagues. They and the people they lead are the intangible reason I am confident we will continue to be successful.

Most of the leadership team has been with the company through our most challenging times. Others were recruited to Xerox to fill gaps in our capabilities and provide leadership in key areas. All chose to be part of our turnaround, to be with us during the most difficult, yet most rewarding period in our history.

We're proud of our accomplishments, but not satisfied. We're confident in our strategy, but not complacent. We're bullish on our future, but take nothing for granted. Because our opportunities are large, our competition is formidable. As we get better, so do they. As we deliver value to our customers, they expect more. As you invest in us, you anticipate greater returns.

We do not shrink from those expectations; we embrace them. They are an opportunity to continue to show our True Colors. This is a management team that has been tested by adversity and sharpened by challenge.

We're going after a \$112 billion opportunity. We're competitively advantaged to attack it aggressively. Our financial health enables continued investments to keep us on the leading edge of our markets. Our business

“We're going after a \$112 billion opportunity. We're competitively advantaged to attack it aggressively.”

They inherited a company that lost \$273 million dollars in 2000, but had a noble history. And they brought it back to a company that made \$978 million last year, adding another inspiring chapter to a storied past. They refused to let Xerox fail, exhibiting what I've come to call steely optimism in the face of enormous adversity. While others predicted failure, they said not on our watch. Xerox cannot and will not fail. They showed their True Colors.

Now they are focused with an intensity that's hard to describe, but easy to feel. They are writing another chapter in our history – the story of our return to growth. As I met and talked with the leadership team this week, I was galvanized by their dissatisfaction with the status quo. To them, good is not good enough. They are on a mission to put Xerox back on a growth trajectory and give you a solid return on the trust you place in us. As one of them put it: “We've been playing defense. Now it's time to play offense.”

model is tested and flexible. We adapt to changes in the marketplace, holding steady on our gross margins and increasing earnings for our shareholders. Our leadership team and our people are aligned around a common set of objectives aimed at delivering shareholder value. You should expect no less. We aim to deliver no less. Because of our people, I believe our best days are ahead of us – just ahead.

for Xerox iGen3

“Our True Colors come through in our people. That’s more than 14,000 variations.”

“I love this business. Whether it’s wedding invitations, greeting cards, customized newsletters or targeted mailings, what’s more important than bringing people together than the right communication, at the right time? Even in the most ‘paperless’ society, there will always be the printed word.

“At the same time, the True Colors of the success we’ve enjoyed at Taylor Corporation could apply to any business, in any industry. Passion and enthusiasm, hard work, intelligence, common sense and, above all, people.

“The right people don’t just happen. They get that way by being nurtured, challenged, empowered and given the space to succeed.

“We encourage our people through ‘opportunity and security.’ Some might look at these as distinct concepts. To the Taylor team, they’re one and the same. Seizing opportunity is security. In fact, it’s the only security this world has to offer.

POLICYHOLD

SPRING 2005

LOOK WHAT'S INSIDE

Is your graduate properly insured?
Protect yourself against flood damage
Make sure you protect your possessions
Look to us for your borrowing needs

“That philosophy is embedded in our culture. Which is why we’ve grown to 85 Taylor companies. I like to think of them as entrepreneurial ventures that are continually evolving.

“When we touch customers, what are they really getting? People. Human interaction. The desire, responsiveness and expertise that they know can improve their business, and their lives.

“I know it sounds corny, but I really like people. I am continually refreshed by the human spirit. Any success we have at Taylor is that spirit multiplied by 14,000.”

TO TALK ABOUT
INSURANCE?

“Taylor’s people exemplify the New Business of Printing.”

All 85 Taylor companies are driven by a passion to improve the entire range of printed communication. So are we. That makes Taylor and Xerox natural partners.

Together, we understand that the “New Business of Printing” is not really just about printing. It’s about increasing value to client companies. That means, for example, communicating with prospective customers one-to-one while retaining the impact of full color. Which can lower the overall cost of acquiring those customers. Or presenting existing customers with personalized offers based on past buying behavior. Which boosts per-customer revenue and builds loyalty.

That's where the Xerox iGen3® Digital Production Press is changing the landscape. It allows Taylor to provide variable and on-demand color printing solutions that are economically feasible, at quantities from one to tens of thousands. And we don't mean just changing names and addresses. We mean changing 100% of the content and four-color photographs. So there's more variation, shorter runs, less waste and less warehousing.

In short, Taylor's iGen3 presses produce much more than striking, made-to-order printed materials. They produce cost-effective results – and satisfied customers.

That's important work. And we're privileged to be a part of it.

TC, Denise, Steve, Kim

Brad Schreier

CEO | Taylor Corporation

“We strive, every day, to improve what is essential to human progress.”

“We enable collaboration and consistency around the world by engaging best-in-class technology and work-process systems. The result is that we’re truly global. Walk into an operation in Argentina and you’ll see the same approach to our business as in Osaka. Which means our quality remains uniformly excellent and our productivity is always improving.

“Making continuous improvements to our operations energizes me. As our founder, Herbert Dow, observed, ‘If you can’t do it better, why do it?’ It’s gratifying to know that the Dow culture can seize on a better idea and implement it across the globe. Not for the sake of change itself, but because what we’re doing is so important. Our mission is to improve what is essential to human progress – including crops, drinking water, pharmaceuticals, building materials and consumer goods.

“We make those improvements through science and technology, but at the core of our 110 years of success is integrity. That’s what you might expect to hear from any well-meaning executive, but at Dow, it’s part of the DNA. It means living by our word. It means doing the right thing without being asked. It means leaving things better than we found them. We take integrity very seriously.

“Combine integrity with the ability to implement globally and you have an organization that is capable of making the world a better place, every day. By creating solutions for society. By protecting the health and safety of our people and our communities around the world. By viewing every customer relationship as a partnership in which we create value for one another. These really are the True Colors of Dow. And the reasons I’ve invested my entire career here.”

“350 locations, 54 countries, one solution.”

Think global, execute local. That became our charge when Dow tapped Xerox to streamline its copy, print, scan and fax capabilities at all of its locations worldwide. We learned pretty quickly that Dow does nothing by halves. When it makes improvements, it does so globally.

The direction seemed straightforward enough: Make sure that uniform, cost-effective document-management functionality is a defined distance from the users who need it. And make sure they're fully satisfied!

Thank goodness Xerox, like Dow, lives by Lean Six Sigma, a data-driven method for removing costs and improving processes. It resulted in the exact number of correct assets in every location at the lowest possible cost.

Xerox team
from left to right:

Kent Purvis
Katherine Agbe
Tom Marler
Susan Loberg

Now documents of any length, size, color or complexity can be sent halfway around the world as easily as to the building next door. That means huge savings in time and cost, as Dow's documents will no longer have to be shipped and caught up in transportation delays before they're delivered.

It might sound easy, but the implementation has been, well, significantly more complicated than a domestic initiative. There are 54 countries we're working with and that's where Xerox's global leadership shines through. We've devised processes that work in any culture, and we've trained and set up help desks in over ten languages. Even though the solution is global, Dow is measuring success one local user at a time.

Kent, Katherine, Tom, Susan

Mack Murrell

Senior Director
Enterprise IT Operations & Office Facilities
The Dow Chemical Company

“Our True Colors
are helping people
discover theirs.”

“We founded The ConferenceWorks! as a company dedicated to the evolution of personal consciousness. Through natural self-healing, alternative medicine, essential life wisdom and other enriching topics, our seminars showcase today’s most relevant presenters, who seek to bring to our attendees learning, wisdom and new perspectives.

“There’s an accumulating body of evidence that raising consciousness one person at a time has a beneficial effect on other people who may not seem to be otherwise connected. Thoughts truly do make a difference in creating what we call Aha! opportunities.

“So I guess you could say that the True Colors of The ConferenceWorks! are to promote deeper learning, new ideas and real tools our clients can use to support conscious evolution in their lives, their works and their relationship with the world in which they live.

“I’m continually encouraged and gratified at the number of insights and positive experiences that our clients have many weeks, even months, after attending our seminars.

“My job is particularly enriching since more than anyone, I’m responsible for getting people to our seminars in the first place. We need to convince them that spending a weekend with us for something that, at first, they only vaguely understand is worth their effort, time and money.

“Challenging to be sure, but gratifying. As close to 100% customer satisfaction as I’ve ever seen. It’s a great feeling to promote a product that I believe in so strongly and that actually changes the world for the better.”

“Our routine inquiry became a transformational experience.”

Our work started when we were following up on an historical agreement report. These tell us when a client is coming off lease and may be interested in renewal or an upgrade.

Enter Indiana Business Equipment, one of Xerox's 1,100 authorized sales agencies that sell the complete line of Xerox office systems to small and medium-sized businesses.

What our sales agents found went way beyond the analog copiers and printers that they were using for everyday office management. It turns out The ConferenceWorks! was outsourcing the printing of almost all of its marketing material. That meant long lead times, excessively large print runs and, ultimately, more time and money than were necessary.

Xerox team
from left to right:

Kyle Smelser
Andrea Hall
Ryan Gerber

Our solution started with listening and exploring the possibilities, which, as you might expect, is something The ConferenceWorks! encourages. They let us examine their entire marketing approach from the time they solicit a potential client to when that prospect becomes a bona fide customer.

What we discovered led us to the Xerox WorkCentre® Pro C3545 and its ability to bring high-quality, affordable color to an office environment. Talk about an Aha! opportunity. As the result of our analysis and solution, The ConferenceWorks! now produces color documents every bit as vibrant as those from an offset press. And no matter what the quantity, they can customize the message. All for about a third less than they were spending on outsourcing. And in a fraction of the time.

Any time we can make a client better at what they do, it's a great feeling. When we can do it for a client that's transforming lives, that's even better.

Sharon Krieg

Operations Manager | The ConferenceWorks!

Kyle, Andrea, Ryan

Our Commitment to Good Citizenship is Unwavering

Of the True Colors of Xerox, none is brighter and more enduring than our commitment to corporate citizenship, a core value since the company's founding. Here are some examples:

- The Xerox Foundation invested \$13.2 million in 2005, which included 42 grants to university science programs, more than 190 grants for college scholarships and support, and 550 grants to nonprofits.
- Xerox provided \$2 million for Southeast Asia earthquake and tsunami relief and \$2 million in financial and technical assistance for victims of Hurricane Katrina.
- Through its supplier diversity program, Xerox placed \$400 million worth of orders with minority-, women- and veteran-owned businesses in 2005.
- *Black Enterprise*, *DiversityInc*, the Human Rights Campaign, *Computerworld*, *Hispanic Business* and several other entities recognize Xerox's workplace as being among the best.
- Following Xerox's mission to make "waste-free products in waste-free factories to help customers attain waste-free workplaces," the company diverts more than 140 million pounds of waste from landfills. Nearly all eligible new products launched in 2005 met the international ENERGY STAR® and Canada's Environmental Choice standards.
- Xerox pledged to drive its worldwide greenhouse gas emissions 10% lower than 2002 levels, by 2012.
- Xerox became a charter partner in the Business Roundtable's new "S.E.E. Change" initiative, which calls for corporations to strengthen business strategies that

support sustainable growth. Among Xerox's efforts: the Palo Alto Research Center's work on "clean technologies" and renewable energy.

- Xerox solid ink color printers – based on the company's proprietary technology – generate about 95% less waste than laser printers. Xerox is extending this technology to more products, like the WorkCentre C2424, launched in 2005 as the industry's first solid ink multifunction system.
- Xerox paper comes from suppliers that meet the company's stringent environmental requirements, which are designed to ensure that all Xerox paper is sourced from sustainably managed forests.

“Xerox is one of our nation's pillars, advancing important social and economic goals for communities across the country.”

– U.S. Chamber of Commerce upon awarding Xerox a 2005 Corporate Citizenship Award.

- Xerox encourages employees to volunteer in their communities through programs like Social Service Leave, which offers paid sabbaticals for community service; the Community Involvement Program, which provides seed money for Xerox teams to fund volunteers projects; and the Science Consultant Program, through which employees bring real-life science experiments into the classroom.
- Xerox's Board of Directors is more than 90 percent independent with Xerox Chairman and CEO Anne Mulcahy serving as the only employee director.
- Fortune Magazine's 2006 "U.S. Most Admired Companies" survey ranked Xerox No. 1 in its industry for "social responsibility."

DESCRIPTION OF BUSINESS

Global Overview

Xerox is a
\$15.7 billion
technology and services
enterprise and a leader in
the global document market.

We develop, manufacture, market, service and finance a complete range of document equipment, software, solutions and services.

Revenues by Geography

We operate in over

160
countries worldwide.

Globally we have **55,200**
direct employees.

We have over 8,000 Sales Professionals, over 12,000 Managed Service Employees at customer sites and 13,000 Technical Service Employees. In addition, we have over 7,000 Agents and Concessionaires and over 10,000 Resellers.

Overview

References herein to “we,” “us,” “our,” the “Company” and “Xerox” refer to Xerox Corporation and its subsidiaries unless the context specifically states or implies otherwise.

Xerox is a \$15.7 billion technology and services enterprise and a leader in the global document market. We develop, manufacture, market, service and finance a complete range of document equipment, software, solutions and services. Our international operations represented approximately one-half of our total revenues in 2005. Our largest subsidiary outside the United States is Xerox Limited, which operates predominantly in Europe. We conduct our Latin American operations through subsidiaries or distributors in over 38 countries. Fuji Xerox, an unconsolidated entity of which we own 25%, develops, manufactures and distributes document processing products in Japan, China, Hong Kong and other areas of the Pacific Rim, Australia and New Zealand.

The document industry is transitioning from older technology light-lens devices to digital systems, from black and white to color and from paper documents to an increased reliance on electronic documents. More and more people are creating and storing documents digitally and using the Internet to easily exchange electronic documents. We believe these trends play to the strengths of our product and service offerings and represent opportunities for future growth within the \$112 billion market we serve. In our core markets of Production and Office, we believe we are well placed to capture core growth opportunities by leading the transition to color and by reaching new customers with our broadened offerings and expanded distribution channels. We are expanding our core markets with Document Services and we are creating new market opportunities with digital printing as a complement to traditional offset printing, which we refer to as the “Eligible Offset” market. Our Document Services are organized around three offerings: Xerox Office Services, where we help our customers reduce costs and maximize productivity by optimizing their print infrastructure; Document Outsourcing and Communication Services, which focuses on optimizing the production environment; and Business Process Services, where

Markets

We serve a **\$112***
billion market.

*The document industry is transitioning from the older technology of light-lens devices to the new digital systems, from black and white to color, and from paper documents to electronic documents. More and more people are creating and storing documents digitally, and using the Internet allows the easy exchange of electronic documents. We believe these trends play to the strengths of our product and service offerings and represent opportunities for future growth within the \$112 billion market we serve.

This estimate, and the market estimates which follow, is calculated by leveraging third-party forecasts from firms such as International Data Corporation and InfoSource in conjunction with our assumptions about our markets.

we show our customers how to improve their processes by using digital workflow. Within the Eligible Offset market we offer leading digital technology, led by our market-making Xerox iGen3® technology and accompanied by the industry's broadest migration path to digital, which meets the increasing demand for short-run, customized and quick-turnaround offset quality printing.

Our products include high-end printing and publishing systems, digital multifunctional devices ("MFDs") (which can print, copy, scan and fax), digital copiers, laser and solid ink printers, fax machines, document-management software, and supplies such as toner, paper and ink. We provide software and workflow solutions that can help businesses easily and affordably print books, create personalized documents for their customers and scan and route digital information. In addition, we provide a range of comprehensive document management services, such as operating in-house production centers, developing online document repositories and analyzing how customers can most efficiently create and share documents in the office.

Our business model is an annuity model, based on increasing equipment sales and installations in order to increase the number of machines in the field ("MIF") that will produce pages and generate post sale and financing revenue streams. We sell the majority of our equipment through sales-type leases that are recorded as equipment sale revenue. Equipment sales represented 29% of our 2005 total revenue. Post sale and financing revenue includes equipment maintenance and consumable supplies, among other elements. We expect this large, recurring revenue stream to approximate three times the equipment sale revenue over the life of a lease. Thus, the number of equipment installations is a key indicator of post sale and financing revenue trends. The mix of color pages is another significant indicator of post sale revenue trends because color pages use more consumables per page than black and white. Thus, color pages generate approximately five times the revenue and profit per page as compared to black and white. In addition, market development, particularly within the Eligible Offset market, is key to increasing pages and we have leading tools and resources to develop this large market opportunity.

DESCRIPTION OF BUSINESS

Segment Information

Our reportable segments are Production, Office, Developing Markets Operations (“DMO”) and Other. Operating segment financial information is presented in Note 2 to the Consolidated Financial Statements, which is incorporated by reference. We have a very broad and diverse base of customers, both

geographically and demographically, ranging from small and medium businesses to graphic communications companies, governmental entities, educational institutions and large (Fortune 1000) corporate accounts. None of our business segments depends upon a single customer, or a few customers, the loss of which would have a material adverse effect on our business.

Reviews by Business Segment

XEROX®

Production

Production
\$4,540
 million

We provide high-end digital monochrome and color systems designed for customers in the graphic communications industry and for large enterprises.

Office

Office
\$7,618
 million

Our Office segment serves global, national and small to medium-size commercial customers as well as government, education and other public sector customers.

DMO

DMO
\$1,812
 million

DMO includes marketing, direct sales, distributors and service operations for Xerox products, supplies and services in Latin America, the Middle East, India, Eurasia, Central-Eastern Europe and Africa.

Other

Other
\$1,731
 million

The Other segment primarily includes revenue from paper sales, wide-format systems and value-added services.

Production

We provide high-end digital monochrome and color systems designed for customers in the graphic communications industry and for large enterprises. These high-end devices enable digital on-demand printing, digital full-color printing and enterprise printing. We are the only manufacturer in the market that offers a complete family of monochrome production systems from 65 to 180 impressions per minute and color production systems from 40 to 110 pages per minute (“ppm”). In addition, we offer a variety of pre-press and post-press options and the industry's broadest set of workflow software.

The Xerox Freeflow™ digital workflow collection improves our customers' work processes from content creation and management to production and fulfillment. Our digital technology, combined with total document solutions and services that enable personalization and printing on demand, delivers value that improves our customers' business results.

Our 2005 Goals

Our goals in the Production segment in 2005 were to strengthen our leadership position in monochrome and color and leverage the power of digital printing in the Eligible Offset market. Our “New Business of Printing” strategy complements the traditional offset press market with digital printing capabilities, which includes introducing innovative production systems and solutions to expand our leadership position and focus on the higher-growth digital color opportunities. To reach our 2005 goals, we:

Our 2005 Accomplishments

- Increased our presence in the monochrome digital light production market and scaled the new monochrome publishing platform (Xerox Nuvera™).
 - **Xerox 4110:** In February 2005, we launched the Xerox 4110, a 110 ppm copier/printer. We first entered the light production space in 2003 with the introduction of the Xerox 2101. We took market share in 2004 and continued to maintain a strong position in 2005 with the success of the 4110.
 - **Xerox Nuvera 100/120:** We launched the Xerox Nuvera 100/120 full-production systems in Europe in the fourth quarter of 2004 and in North America in the first quarter of 2005.
 - **Xerox Nuvera 144:** In September 2005, we announced the Xerox Nuvera 144 Digital Production System, which prints at 144 ppm (a 20% increase over the previous Nuvera production system) and features a more powerful print controller and finishing options. We will continue to add features and functionality to Nuvera platform products into 2006.

- Expanded our leading product line of color systems and increased our presence in the graphic communications environment.
 - **Xerox iGen3:** During 2005, we continued to increase installations of our flagship Xerox iGen3 Digital Production Press (“Xerox iGen3”). In March 2005, we announced the Xerox iGen3 110, a 110 ppm full-color production system, which represents a 10% increase in speed from the previous system. At an operating cost of approximately 5 cents per image, the Xerox iGen3 uses next-generation color technology which we expect will expand the digital color print on-demand market as its speed, image quality, personalization and cost advantages enable the device to capture valuable pages in the color offset printing market.
 - **DocuColor™ 7000:** In May 2005, we launched the DocuColor 7000 Digital Press, a 70 ppm production system, which provides a new digital full-color entry point for our graphic communications and central reproduction center customers.
 - **DocuColor 240 and 250:** In September 2005, we announced the production version of the DocuColor 240/250, a 40 and 50 ppm digital color MFD with three external controllers designed for the production environment. We now offer our customers the broadest migration path to digital with digital color devices offered at 40, 50, 52, 60, 70, 80 and 110 ppm.
- Leveraged the power of digital printing in the offset printing market.
 - **Workflow and Market Development:** We continue to expand and improve our leading workflow collection. In September 2005, we introduced several enhancements to the FreeFlow Digital Workflow collection, expanded the remote services offering, PrinterAct, to include the DocuColor 7000 and 8000 (previously available for Xerox iGen3 and Xerox Nuvera systems), and ramped up our ProfitAccelerator™ program, which helps customers maximize digital technology investments. All products are interoperable, consisting of open architecture that links and controls print shop activities with digital and offset printing equipment. They help print providers streamline job ordering and management, reduce manual steps and automate error-prone parts of the printing process. These new workflow products make it easy to integrate digital printing into JDF (job definition format)-based workflows, enabling a common set of software instructions to direct a print job from creation to completion, in a consistent, uniform manner.

DESCRIPTION OF BUSINESS

Office

Our Office segment serves global, national and small to medium-size commercial customers as well as government, education and other public sector customers. Office systems and services, which include monochrome devices at speeds up to 90 ppm and color devices up to 40 ppm, as well as 50 ppm color devices with an embedded controller, include our family of CopyCentre®, WorkCentre® and WorkCentre® Pro digital multifunction systems; DocuColor printer/copiers; color laser, LED (light emitting diode), solid ink and monochrome laser desktop printers; digital copiers; light-lens copiers and facsimile products. We are leading the transition to digital by mapping our feature-rich, innovative laser and solid ink MFDs to powerful scanning technology in the enterprise environment, which enables our customers to maximize their document workflow. We provide further value to our customers by offering a range of solutions including the Office Document Assessment (“ODA”), in which we analyze a business’ workflow and document needs, and then we identify the most efficient, productive mix of office equipment and software for that business, thereby helping to reduce the customer’s document-related costs.

Our 2005 Goals

Our goals in the Office segment in 2005 were to digitize the office by leading in MFDs, drive the transition to color and reach more customers with a broadened product line and expanded distribution channels. To reach our 2005 goals, we announced a significant refresh of our Office systems, including most of our black and white MFDs, and introduced new solid ink and laser color printers and MFDs. To reach our 2005 goals, we:

Our 2005 Accomplishments

- Announced new products, including:
 - **The first solid ink MFD, the C2424:** The March 2005 introduction of three new solid ink devices including the first solid ink MFD, the C2424, which runs at 24 ppm – in color or black and white, and offers copy, print and scan functions.
 - **The Phaser 8500 and 8550:** The June 2005 introduction of two new solid ink office printers including the Phaser 8500 and Phaser 8550, with speeds of 24 ppm and 30 ppm, respectively.
 - **WorkCentre Pro 232, 238, 245, 255, 265 and 275:** The WorkCentre Pro 232, 238, 245, 255, 265 and 275 – advanced black and white digital MFDs that combine high-performance printing, copying, scanning and faxing in one easy-to-use office system. These products are also available as WorkCentre, offering copy/print capabilities and optional fax and CopyCentre standalone digital copiers.

- **The Phaser 6300 and 6350:** The Phaser 6300 and 6350 laser printers at speeds of 26 ppm color and 36 ppm black and white. These new laser printers have the fastest print speeds and fastest first-page-out speeds in their class.
- **The DocuColor 240 and 250:** The DocuColor 240 and 250 “light production” color MFDs with speeds of 40 ppm and 50 ppm color, respectively. These devices include an embedded controller and smaller footprint, which are geared toward the larger office. Further, these devices provided significant growth opportunity in the Office and Production segments (see “Production”), depending upon configuration.
- **Desktop management software:** An expanded line of desktop management software and solutions including security features and remote services.
- **The Phaser 7400 and 6120 and the WorkCentre Pro 133 and WorkCentre PE 220:** The October 2005 launch of two new laser printers including the Phaser 7400 and Phaser 6120, as well as the WorkCentre Pro 133 advanced MFD (also available in WorkCentre and CopyCentre) and the WorkCentre PE 220.

- Continued to drive the transition to color by making color more affordable, easier to use, faster and more reliable.
 - Our color-capable devices provide an attractive entry point into color by offering black and white pages at the same cost as black and white systems. Our patented solid ink technology offers unmatched ease of use, vibrant color image quality, and economic color run cost that support color transition leadership.
- Expanded distribution channels.
 - Expanded distribution channels through increased use of our indirect distribution model in Europe and greater use of Teleweb (a combination of telephone and Internet selling) and OEM partnerships in the U.S.

DMO

DMO includes marketing, direct sales, distributors and service operations for Xerox products, supplies and services in Latin America, the Middle East, India, Eurasia and Central-Eastern Europe and Africa. Brazil, Eurasia and Central-Eastern Europe represented approximately 12% of total revenues in 2005. In countries with developing economies, DMO manages the Xerox business through operating companies, subsidiaries, joint ventures, product distributors, affiliates, concessionaires, resellers and dealers. Two-tiered distribution has proven very successful in the high-growth geographies of Russia and Central-Eastern Europe and we are currently implementing it throughout Latin America. We manage our DMO operations separately as a segment because of the political and economic volatility and unique nature of its markets. Our 2005 DMO goals included revenue stabilization and improvement, a continued focus on cost structure to improve margins, and increased profitability for growth.

Other

The Other segment primarily includes revenue from paper sales, wide-format systems and value-added services.

We sell cut-sheet paper to our customers for use in their document processing products. The market for cut-sheet paper is highly competitive and revenues are significantly affected by pricing. Our strategy is to charge a premium over mill wholesale prices, which is adequate to cover our costs and the value we add as a distributor.

We offer document processing products and devices in our wide-format systems business designed to reproduce large engineering and architectural drawings up to three feet by four feet in size.

An increasingly important part of our offering is value-added services, which leverage our document industry knowledge and experience. Xerox value-added services deliver solutions, which not only optimize enterprise output spend and infrastructure, but also streamline, simplify and digitize our customers' document-intensive business processes. Often the value-added services solutions lead to larger Xerox managed services contracts, which include Xerox equipment, supplies, service and labor. The revenue from these contracts is reported within the Production, Office or DMO segments. In 2005, value-added services and managed services revenue, including equipment, totaled \$3.3 billion.

Twenty-nine percent of our revenue comes from Equipment sales, primarily from either lease arrangements that qualify as sales for accounting purposes or outright cash sales. The remaining 71% of our revenue, "Post sale and finance income," includes annuity-based revenue from maintenance, service, supplies and financing as well as revenue from rentals or operating lease arrangements. We sell most of our products and services under bundled lease arrangements, in which our customers pay a monthly amount for the related equipment, maintenance, services, supplies and financing elements over the course of the lease agreement. These arrangements are beneficial to our customers and us since, in addition to customers receiving a bundled offering, the arrangement allows us to maintain the customer relationship for subsequent sales of equipment and services.

We are required for accounting purposes to analyze these arrangements to determine whether the equipment component meets certain accounting requirements such that the equipment should be recorded as a sale at lease inception (i.e., sales-type lease). Sales-type leases require allocation of a portion of the monthly payment attributable to the fair value of the equipment which we report as "equipment sales." The remaining portion of the monthly payment is allocated to the various remaining elements based on fair value – service, maintenance, supplies and financing – which are generally recognized over the term of the lease agreement and reported as "post sale and other revenue" and "finance income" revenue. In those arrangements that do not qualify as sales-type leases, which has been starting to occur more frequently as a result of our services-led strategy, the entire monthly payment will be recognized over the term of the lease agreement (i.e., rental or operating lease) and is reported in "post sale and other revenue." Our accounting policies related to revenue recognition for leases and bundled arrangements are included in Note 1 to the Consolidated Financial Statements in our 2005 Annual Report.

Revenue

Revenue Stream

DESCRIPTION OF BUSINESS

Research and Development

Investment in R&D is critical to drive future growth and we have aligned our investments with our strategic planks: Office, Production and Services. Our goal is to continue to create innovative technologies that will expand current and future markets. Our R&D investments employ three key themes: 1) continue to reinvent our machines to deliver better quality, more functionality and improved productivity, 2) rethink how people work, including the use of variable information printing to customize documents and 3) redefine the document through new inventions. Our research scientists regularly meet with customers and have dialogues with our business groups to ensure they understand customer requirements and develop products and solutions that can be commercialized.

In 2005, R&D expense was \$755 million, compared with \$760 million in 2004. 2005 R&D spending focused primarily on the development of high-end business applications to drive the "New Business of Printing," on extending our color capabilities, and on lower-cost platforms and customer productivity enablers to drive digitization of the office. The Xerox iGen3, an advanced next-generation digital printing press launched in October 2002 that uses our patented imaging technology to produce photographic-quality prints indistinguishable from offset, is an example of the type of breakthrough technology we developed and that we expect will drive future growth. In addition, sustaining engineering expenses reported within R,D&E, were \$188 million in 2005 and \$154 million in 2004.

Xerox Research, Development and Engineering Expenses

Our R&D is strategically coordinated with that of Fuji Xerox, which invested \$720 million in R&D in 2005 and \$704 million in 2004.

Patents, Trademarks and Licenses

We are a technology company. With our PARC subsidiary, we were awarded nearly 450 U.S. utility patents in 2005, ranking us 35th on the list of companies that had been awarded the most U.S. patents during the year. With our research partner, Fuji Xerox, we were awarded nearly 650 U.S. utility patents in 2005. Our patent portfolio evolves as new patents are awarded to us and as older patents expire. As of December 31, 2005, we held approximately 8,100 design and utility U.S. patents. These patents expire at various dates up to 20 years or more from their original filing dates. While we believe that our portfolio of patents and applications has value, in general no single patent is essential to our business or any individual segment. In addition, any of our proprietary rights could be challenged, invalidated or circumvented, or may not provide significant competitive advantages.

In the U.S., we are party to numerous patent licensing agreements, and in a majority of them, we are a licensee. Most of the patent licenses expire concurrently with the expiration of the last patent identified in the license. In 2005, with our PARC subsidiary, we added approximately 15 agreements to our portfolio of patent licensing agreements, and either we or our PARC subsidiary was a licensor in 13 of the agreements. Xerox's licensing efforts include a number of cross-licensing agreements with companies with substantial patent portfolios. Those agreements vary in subject matter, scope, compensation, significance and time. Among the more recent licenses are agreements with Canon, Microsoft, IBM and Hewlett-Packard.

In the U.S., we own approximately 560 trademarks (either registered or applied for). These trademarks have a perpetual life, subject to renewal every ten years. We vigorously enforce and protect our trademarks. We hold a perpetual trademark license for "DocuColor."

Competition

Although we encounter aggressive competition in all areas of our business, we are the leader, or among the leaders, in each of our principal business segments. Our competitors range from large international companies to relatively small firms. We compete primarily on the basis of technology, performance, price, quality, reliability, brand, distribution, and customer service and support. To remain competitive, we invest in and develop new products and services and continually enhance our existing offerings. Our key competitors include Canon, Ricoh, IKON, Hewlett-Packard and, in certain areas of the business, Pitney Bowes, Kodak, Océ, Konica-Minolta and Lexmark.

We believe that our brand recognition, reputation for document knowledge and expertise, innovative technology, breadth of product offerings, global distribution channels and our customer relationships and large customer base are important competitive advantages. We and our competitors continue to develop and market new and innovative products at competitive prices and, at any given time, we may set new market standards for quality, speed and function.

Marketing and Distribution

We manage our business based on the principal business segments described above. The marketing and selling of our products and solutions, however, are organized according to geography and channel types. Our products and solutions are sold directly to customers by our worldwide sales force of approximately 8,000 employees and through a network of independent agents, dealers, value-added resellers and systems integrators. Increasingly, we are utilizing our direct sales force to address our customers' more advanced technology, solutions and services requirements, while expanding our use of cost-effective indirect distribution channels, such as Teleweb, for basic product offerings.

We market our Phaser line of color and monochrome laser-class and solid ink printers through office information technology industry resellers, who typically access our products through distributors. In 2005, we increased the product offerings available through a two-tiered distribution model in Europe and DMO. Through a multi-phased roll-out, we will continue to increase offerings through this lower-cost distribution channel for our Office portfolio. Additionally, we expanded our distribution channels in North America in 2005.

In Europe, Africa, the Middle East, India and parts of Asia, we distribute our products through Xerox Limited, a company established under the laws of England, and related non-U.S. companies (collectively "Xerox Limited"). Xerox Limited enters into distribution agreements with unaffiliated third parties covering distribution of our products in certain countries located in these regions, including Iran, Sudan and Syria. Iran, Sudan and Syria, among others, have been designated as state sponsors of terrorism by the U.S. Department of State and are subject to U.S. economic sanctions. We maintain an export and sanctions compliance program and believe that we have been and are in compliance with applicable U.S. laws and government regulations related to these countries. In addition, we had no assets, liabilities or operations in these countries other than liabilities under the distribution agreements. As a result of the termination of these agreements, we anticipate that our revenues attributable to these countries will decline over time. Xerox Limited is terminating its distribution agreements related to these countries and expects that, by the end of 2006, it will have only legacy obligations such as providing spare parts and supplies to these third parties. In 2005, we had total revenues of \$15.7 billion, of which less than \$10 million was attributable to Iran, Sudan and Syria.

DESCRIPTION OF BUSINESS

In January 2006, Xerox Limited entered into a five-year distribution agreement with an unaffiliated third party covering distribution of our products in Libya. Libya is also designated as a state sponsor of terrorism by the U.S. Department of State. The decision to enter into this distribution agreement was made in light of recent U.S. federal government actions that have lifted the country-wide embargo previously imposed on Libya. Our sales in Libya through this distribution agreement will be subject to our export and sanctions compliance program and will be in accordance with applicable U.S. laws and government regulations as they relate to Libya.

We are increasing our use of partners to improve our market coverage. Through alliances with Premier Partners and Fuji Ennovation, we expanded coverage to market our DocuColor series to commercial printers. Our alliance with Electronic Data Systems ("EDS") is designed to integrate EDS' information technology ("IT") services with our document management systems and services to provide customers with full IT infrastructure support.

Our brand is a valuable resource and continues to be recognized in the top ten percent of all U.S. brands.

Service

As of December 31, 2005, we had a worldwide service force of approximately 13,000 employees and an extensive network of independent service agents. We are expanding our use of cost-effective remote service technology for basic product offerings while utilizing our direct service force and a variable contract service force to address customers' more advanced technology requirements. The increasing use of a variable contract service force is consistent with our strategy to reduce service costs while maintaining high-quality levels of service. We believe that our service force represents a significant competitive advantage in that the service force is continually trained on our products and their diagnostic equipment is state-of-the-art. Twenty-four-hours-a-day, seven-days-a-week service is available in major metropolitan areas around the world. As a result, we are able to provide a consistent and superior level of service worldwide.

Manufacturing Outsourcing

In the fourth quarter of 2001, we outsourced certain manufacturing activities for the Office segment to Flextronics, a global electronics manufacturing services company. Our inventory purchases from Flextronics currently represent approximately 25% of our overall worldwide inventory procurement. The initial term of the Flextronics supply agreement is five years through November 2006, and is subject to our right to extend for two years. Thereafter, it will automatically be renewed for one-year periods, unless either party elects to terminate the agreement. We have agreed to purchase from Flextronics most of our requirements for certain products in specified product families. Flextronics must acquire inventory in anticipation of meeting our forecasted requirements and must maintain sufficient manufacturing capacity to satisfy such forecasted requirements. Under certain circumstances, we may become obligated to repurchase inventory that remains unused for more than 180 days, becomes obsolete or upon termination of the supply agreement.

In addition, Xerox sources certain other Office products from various third parties, to maximize breadth of its product portfolio and to meet channel requirements. Xerox also has arrangements with Fuji Xerox whereby it purchases products from and sells products to Fuji Xerox. Certain of these purchases and sales are the result of mutual research and development arrangements. Our remaining manufacturing operations are primarily located in Rochester, New York, and Dundalk, Ireland, for our high-end production products and consumables and Wilsonville, Oregon, for solid ink products, consumable supplies and components for our Office segment products.

Fuji Xerox

Fuji Xerox Co., Limited is an unconsolidated entity in which we currently own 25% and Fuji Photo Film Co., Ltd. ("FujiFilm") owns 75%. Fuji Xerox develops, manufactures and distributes document processing products in Japan, China, Hong Kong and other areas of the Pacific Rim, Australia and New Zealand. We retain significant rights as a minority shareholder. Our technology licensing agreements with Fuji Xerox ensure that the two companies retain uninterrupted access to each other's portfolio of patents, technology and products.

International Operations

Certain financial measures by geographical area for 2005, 2004 and 2003, included in Note 2 to the Consolidated Financial Statements in our 2005 Annual Report, are hereby incorporated by reference.

Backlog

We believe that backlog, or the value of unfilled orders, is not a meaningful indicator of future business prospects due to the significant proportion of our revenue that follows equipment installation, the large volume of products delivered from shelf inventories and the shortening of product life cycles.

Seasonality

Our revenues are affected by such factors as the introduction of new products, the length of the sales cycles and the seasonality of technology purchases. As a result, our operating results are difficult to predict. These factors have historically resulted in lower revenue in the first quarter than in the immediately preceding fourth quarter.

Other Information

Xerox is a New York corporation and our principal executive offices are located at 800 Long Ridge Road, P. O. Box 1600, Stamford, Connecticut 06904-1600. Our telephone number is (203) 968-3000.

Through the Investor Information section of our Internet website, our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and all related amendments are available, free of charge, as soon as reasonably practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission. Our Internet address is <http://www.xerox.com>.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

The following Management's Discussion and Analysis ("MD&A") is intended to help the reader understand the results of operations and financial condition of Xerox Corporation. MD&A is provided as a supplement to, and should be read in conjunction with, our consolidated financial statements and the accompanying notes.

Throughout this document, references to "we," "our," the "Company" and "Xerox" refer to Xerox Corporation and its subsidiaries. References to "Xerox Corporation" refer to the stand-alone parent company and do not include its subsidiaries.

Executive Overview

We are a technology and services enterprise and a leader in the global document market, developing, manufacturing, marketing, servicing and financing the industry's broadest portfolio of document equipment, solutions and services. Our industry is undergoing a series of transformations from older technology light-lens devices to digital systems, from black and white to color, and from paper documents to an increased reliance on electronic documents. We believe we are well positioned as these transformations play to our strengths and represent opportunities for future growth, since our research and development investments have been focused on digital and color offerings.

We operate in competitive markets and our customers demand improved solutions, such as the ability to print offset-quality color documents on demand; improved product functionality, such as the ability to print, copy, fax and scan from a single device; and lower prices for the same functionality. Customers are also increasingly demanding document services such as consulting and assessments, managed services, imaging and hosting, and document-intensive business process improvements.

We deliver advanced technology through focused investment in research and development and offset lower prices through continuous improvement of our cost base. The majority of our revenue is recurring revenue (supplies, service, paper, outsourcing and rentals), which we collectively refer to as post sale revenue. Post sale revenue is heavily dependent on the amount of equipment installed at customer locations and the utilization of those devices. As such, our critical success factors include hardware installations, which stabilize and grow our installed base of equipment at customer locations, page volume growth and higher revenue per page. Connected multifunction devices, new services and solutions are key drivers to increase equipment usage. The transition to color is the primary driver to improve revenue per page, as color documents typically require significantly more toner coverage per page than traditional black and white printing. Revenue per color page is approximately five times higher than revenue per black and white page.

Financial Overview

In 2005, we expanded earnings and made significant progress in positioning ourselves for revenue growth while significantly improving our overall financial condition and liquidity. Our continued focus on investment in the growing areas of digital production and office systems, particularly with respect to color products, contributed to equipment sales growth, as the majority of our equipment sales were generated from products launched in the last two years. Total revenue was comparable to the prior year, as modest equipment sales growth was offset by declines in finance income. Post sale and other was comparable to the prior year. Color revenue was up 19% over the prior year, reflecting our investments in this market.

We maintained our focus on cost management throughout 2005. While 2005 gross margins were slightly below 2004, we continued to more than offset lower prices with productivity improvements. Gross margins were impacted by a change in overall product mix reflecting a higher proportion of sales of products with lower gross margins. We reduced selling, administrative and general ("SAG") expenses as administrative and general expense efficiencies, and reductions in bad debt expense more than offset increased selling expenses. We continued to invest in research and development, prioritizing our investments in the faster-growing areas of the market. In addition, we reduced interest expense by decreasing debt by over \$2.8 billion during the year.

To understand the trends in the business, we believe that it is helpful to analyze the impact of changes in the translation of foreign currencies into U.S. dollars on revenue and expense growth. We refer to this analysis as "currency impact" or "the impact from currency." Revenues and expenses from our Developing Markets Operations are analyzed at actual exchange rates for all periods presented, since these countries generally have volatile currency and inflationary environments, and our operations in these countries have historically implemented pricing actions to recover the impact of inflation and devaluation. We do not hedge the translation effect of revenues or expenses denominated in currencies where the local currency is the functional currency.

A substantial portion of our consolidated revenue is derived from operations outside of the United States where the U.S. dollar is not the functional currency. When compared with the average of the major European currencies on a revenue-weighted basis, the U.S. dollar was largely unchanged in 2005, 10% weaker in 2004 and 17% weaker in 2003. As a result, the foreign currency translation impact on revenue was negligible in 2005. For 2004 and 2003, foreign currency translation had a 3-percentage point and 5-percentage point favorable impact, respectively.

Our 2005 balance sheet strategy focused on reducing our total debt, optimizing operating cash flows and matching our remaining debt portfolio to support our customer financing operations. The successful implementation of this strategy in 2005 enabled us to significantly improve our liquidity and finish the year with a cash, cash equivalents and short-term investments balance of \$1.6 billion. Our prospective balance sheet strategy includes: returning

our credit rating to investment grade; optimizing operating cash flows; achieving an optimal cost of capital; rebalancing secured and unsecured debt; and effectively deploying cash to deliver and maximize long-term shareholder value. In addition, our strategy includes maintaining our current leverage of financing assets (finance receivables and equipment on operating leases) and maintenance of a minimal level of non-financing debt.

Revenues for the three years ended December 31, 2005 were as follows:

<i>(in millions)</i>	Year Ended December 31,			Percent Change	
	2005	2004	2003	2005	2004
Equipment sales	\$ 4,519	\$ 4,480	\$ 4,250	1%	5%
Post sale and other revenue	10,307	10,308	10,454	–	(1)%
Finance income	875	934	997	(6)%	(6)%
Total Revenues	\$15,701	\$15,722	\$15,701	–	–
Total Color revenue included in total revenues	\$ 4,634	\$ 3,903	\$ 3,267	19%	19%

The following presentation reconciles the above information to the revenue classifications included in our Consolidated Statements of Income:

<i>(in millions)</i>	Year Ended December 31,		
	2005	2004	2003
Sales	\$ 7,400	\$ 7,259	\$ 6,970
Less: Supplies, paper and other sales	(2,881)	(2,779)	(2,720)
Equipment Sales	\$ 4,519	\$ 4,480	\$ 4,250
Service, outsourcing and rentals	\$ 7,426	\$ 7,529	\$ 7,734
Add: Supplies, paper and other sales	2,881	2,779	2,720
Post sale and other revenue	\$10,307	\$10,308	\$10,454

Total 2005 revenues of \$15.7 billion were comparable to the prior-year period. Currency impacts on total revenues were negligible for the year. Total 2005 revenues included the following:

- 1% growth in Equipment sales, including a negligible impact from currency, primarily reflecting revenue growth from color in Office and Production, low-end black and white office products as well as growth in DMO. These growth areas were partially offset by revenue declines in higher-end office black and white products, and black and white production products.

- Comparable Post sale and other revenues, including a negligible impact from currency, primarily reflecting revenue growth from digital products and in DMO, which were partially offset by declines in light lens.
- 6% decline in Finance income including benefits from currency of 1-percentage point, which reflects lower finance receivables.

Total 2004 revenues of \$15.7 billion increased modestly as compared to 2003 including a 3-percentage point benefit from currency. Total 2004 revenues included the following:

- 5% growth in Equipment sales, reflecting the success of our color and digital light production products and a 3-percentage point benefit from currency.
- 1% decline in Post sale and other revenues due to declines in older light-lens technology products and Developing Market Operations (“DMO”), driven by Latin America, were partially offset by growth in digital office and production color, as well as a 3-percentage point benefit from currency. The light-lens and DMO declines reflect a reduction of equipment at customer locations and related page volume declines. As our equipment sales continue to increase, we expect the effects of post sale declines will moderate and ultimately reverse over time.
- 6% decline in Finance income, including a 4-percentage point benefit from currency, which reflects a decrease in equipment lease originations over the past several years.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Net income and diluted earnings per share for the three years ended December 31, 2005 were as follows:

(in millions, except share amounts)

Year Ended December 31,	2005	2004	2003
Net income	\$ 978	\$ 859	\$ 360
Preferred stock dividends	(58)	(73)	(71)
Income available to common shareholders	\$ 920	\$ 786	\$ 289
Diluted earnings per share	\$0.94	\$0.86	\$0.36

2005 Net income of \$978 million, or 94 cents per diluted share, included the following:

- \$343 million after-tax benefit related to the finalization of the 1996-1998 IRS audit.
- \$84 million after-tax (\$115 million pre-tax) charge for litigation matters relating to the MPI arbitration panel decision and probable losses for other legal matters.
- \$58 million after-tax (\$93 million pre-tax) gain related to the sale of our entire equity interest in Integic Corporation ("Integic").
- \$247 million after-tax (\$366 million pre-tax) restructuring charges.

2004 Net income of \$859 million, or 86 cents per diluted share, included the following:

- \$83 million after-tax (\$109 million pre-tax) gain related to the sale of substantially all of our investment in ContentGuard Holdings, Inc. ("ContentGuard").
- \$38 million after-tax pension settlement benefit from Fuji Xerox.
- \$30 million after-tax (\$38 million pre-tax) gain from the sale of our investment in ScanSoft, Inc. ("ScanSoft").
- \$57 million after-tax (\$86 million pre-tax) restructuring charges.

2003 Net income of \$360 million, or 36 cents per diluted share, included the following:

- \$146 million after-tax (\$239 million pre-tax) charge related to the court-approved settlement of the Berger v. RIGP litigation.
- \$111 million after-tax (\$176 million pre-tax) restructuring charges.
- \$45 million after-tax (\$73 million pre-tax) loss on early extinguishment of debt and income tax benefits of \$35 million from the reversal of deferred tax asset valuation allowances.

Application of Critical Accounting Policies

In preparing our Consolidated Financial Statements and accounting for the underlying transactions and balances, we apply various accounting policies. We consider the policies discussed below as critical to understanding our Consolidated Financial Statements, as their application places the most significant demands on management's judgment, since financial reporting results rely on estimates of the effects of matters that are inherently uncertain. Specific risks associated with these critical accounting policies are discussed throughout this MD&A where such policies affect our reported and expected financial results. For a detailed discussion of the application of these and other accounting policies, refer to Note 1 to the Consolidated Financial Statements.

Senior management has discussed the development and selection of the critical accounting policies, estimates and related disclosures, included herein, with the Audit Committee of the Board of Directors. Preparation of this annual report requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, as well as disclosure of contingent assets and liabilities. These estimates and assumptions also impact revenues and expenses during the reporting period. Although actual results may differ from those estimates, we believe the estimates are reasonable and appropriate. In instances where different estimates could reasonably have been used in the current period, we have disclosed the impact on our operations of these different estimates. In certain instances, such as with respect to revenue recognition for leases, because the accounting rules are prescriptive, it would not have been possible to have reasonably used different estimates in the current period. In these instances, use of sensitivity information would not be appropriate. Changes in assumptions and estimates are reflected in the period in which they occur. The impact of such changes could be material to our results of operations and financial condition in any quarterly or annual period.

Revenue Recognition Under Bundled Arrangements: We sell most of our products and services under bundled lease arrangements, which typically include equipment, service, supplies and financing components for which the customer pays a single negotiated monthly fixed price for all elements over the contractual lease term. These arrangements typically also include an incremental, variable component for page volumes in excess of contractual page volume minimums, which are often expressed in terms of price per page. Revenues under these arrangements are allocated considering the relative fair values of the lease and non-lease deliverables included in the bundled arrangement based upon the estimated relative fair values of each element. Lease deliverables include maintenance and executory costs, equipment and financing, while non-lease deliverables generally consist of the supplies and non-maintenance services. Our revenue allocation for the lease deliverables begins by allocating revenues to the maintenance and executory costs plus profit thereon.

The remaining amounts are allocated to the equipment and financing elements. We perform extensive analyses of available verifiable objective evidence of equipment fair value based on cash selling prices during the applicable period. The cash selling prices are compared to the range of values included in our lease accounting systems. The range of cash selling prices must be reasonably consistent with the lease selling prices, taking into account residual values that accrue to our benefit, in order for us to determine that such lease prices are indicative of fair value. Our pricing interest rates, which are used in determining customer payments, are developed based upon a variety of factors including local prevailing rates in the marketplace and the customer's credit history, industry and credit class. Effective in 2004, our pricing rates are reassessed quarterly based on changes in local prevailing rates in the marketplace and are adjusted to the extent such rates vary by twenty-five basis points or more, cumulatively, from the last rate in effect. The pricing interest rates generally equal the implicit rates within the leases, as corroborated by our comparisons of cash to lease selling prices.

Revenue Recognition for Leases: Our accounting for leases involves specific determinations under applicable lease accounting standards, which often involve complex and prescriptive provisions. These provisions affect the timing of revenue recognition for our equipment. If the leases qualify as sales-type capital leases, equipment revenue is recognized upon delivery or installation of the equipment as sale revenue as opposed to ratably over the lease term. The critical elements that we consider with respect to our lease accounting are the determination of the economic life and the fair value of equipment, including the residual value. For purposes of determining the economic life, we consider the most objective measure to be the original contract term, since most equipment is returned by lessees at or near the end of the contracted term. The economic life of most of our products is five years, since this represents the most frequent contractual lease term for our principal products and only a small percentage of our leases are for original terms longer than five years. There is no significant after-market for our used equipment. We believe five years is representative of the period during which the equipment is expected to be economically usable, with normal service, for the purpose for which it is intended. Residual values are established at lease inception using estimates of fair value at the end of the lease term and are established with due consideration to forecasted supply and demand for our various products, product retirement and future product launch plans, end-of-lease customer behavior, remanufacturing strategies, competition and technological changes.

Accounts and Finance Receivables Allowance for Doubtful Accounts and Credit Losses: We perform ongoing credit evaluations of our customers and adjust credit limits based upon customer payment history and current creditworthiness. We continuously monitor collections and payments from our customers and maintain a provision for estimated credit losses based upon our historical experience and any specific customer collection issues that have been identified. While such credit losses have historically been within our expectations and the provisions established, we cannot guarantee that we will continue to experience credit loss rates similar to those we have experienced in the past. Measurement of such losses requires consideration of historical loss experience, including the need to adjust for current conditions, and judgments about the probable effects of relevant observable data, including present economic conditions such as delinquency rates and financial health of specific customers. We recorded bad debt provisions of \$72 million, \$110 million and \$224 million in selling, administrative and general expenses in our Consolidated Statements of Income for the years ended December 31, 2005, 2004 and 2003, respectively. The declining trend in our provision for doubtful accounts is primarily due to improvements in customer administration, receivables aging, write-off trends, collection practices and credit approval policies.

As discussed above, in preparing our Consolidated Financial Statements for the three years ended December 31, 2005, we estimated our provision for doubtful accounts based on historical experience and customer-specific collection issues. This methodology has been consistently applied for all periods presented. During the five-year period ended December 31, 2005, our allowance for doubtful accounts ranged from 3.6% to 5.5% of gross receivables. Holding all other assumptions constant, a 1-percentage point increase or decrease in the allowance from the December 31, 2005 rate of 3.6% would change the 2005 provision by approximately \$100 million.

Historically, about half of the provision for doubtful accounts relates to our finance receivables portfolio. This provision is inherently more difficult to estimate than the provision for trade accounts receivable because the underlying lease portfolio has an average maturity, at any time, of approximately two to three years and contains past due billed amounts, as well as unbilled amounts. The estimated credit quality of any given customer and class of customer or geographic location can significantly change during the life of the portfolio. We consider all available information in our quarterly assessments of the adequacy of the provision for doubtful accounts.

Pension and Post-retirement Benefit Plan Assumptions: We sponsor pension plans in various forms in several countries covering substantially all employees who meet eligibility requirements. Post-retirement benefit plans cover primarily U.S. employees for retirement medical costs. Several statistical and other factors that attempt to anticipate future events are used in calculating

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

the expense, liability and asset values related to our pension and post-retirement benefit plans. These factors include assumptions we make about the discount rate, expected return on plan assets, rate of increase in healthcare costs, the rate of future compensation increases and mortality, among others. For purposes of determining the expected return on plan assets, we utilize a calculated value approach in determining the value of the pension plan assets, as opposed to a fair market value approach. The primary difference between the two methods relates to a systematic recognition of changes in fair value over time (generally two years) versus immediate recognition of changes in fair value. Our expected rate of return on plan assets is then applied to the calculated asset value to determine the amount of the expected return on plan assets to be used in the determination of the net periodic pension cost. The calculated value approach reduces the volatility in net periodic pension cost that results from using the fair market value approach. The difference between the actual return on plan assets and the expected return on plan assets is added to, or subtracted from, any cumulative differences that arose in prior years. This amount is a component of the unrecognized net actuarial (gain) loss and is subject to amortization to net periodic pension cost over the average remaining service lives of the employees participating in the pension plan.

As a result of cumulative historical asset returns being lower than expected asset returns, as well as declining interest rates, 2006 net periodic pension cost will increase. The total unrecognized actuarial loss as of December 31, 2005 was \$1.9 billion, as compared to \$2.0 billion at December 31, 2004. The change from December 31, 2004 relates to improved asset returns as compared to expected returns, partially offset by a decline in the discount rate. The total unrecognized actuarial loss will be amortized in the future, subject to offsetting gains or losses that will change the future amortization amount. We have recently utilized a weighted average expected rate of return on plan assets of 8.0% for 2005 expense, 8.1% for 2004 expense and 8.3% for 2003 expense, on a worldwide basis. In estimating this rate, we considered the historical returns earned by the plan assets, the rates of return expected in the future and our investment strategy and asset mix with respect to the plans' funds. The weighted average expected rate of return on plan assets we will utilize to calculate our 2006 expense will be 7.8%.

Another significant assumption affecting our pension and post-retirement benefit obligations and the net periodic pension and other post-retirement benefit cost is the rate that we use to discount our future anticipated benefit obligations. The discount rate reflects the current rate at which the pension liabilities could be effectively settled considering the timing of expected payments for plan participants. In estimating this rate, we consider rates of return on high-quality fixed-income investments included in various published bond indexes, adjusted to eliminate the effects of call provisions and differences in the timing and amounts of cash

outflows related to the bonds. In the U.S. and the U.K., which comprise approximately 81% of our projected benefit obligations, we consider the Moody's Aa Corporate Bond Index and the International Index Company's iBoxx Sterling Corporates AA Cash Bond Index, respectively, in the determination of the appropriate discount rate assumptions. The weighted average rate we will utilize to measure our pension obligation as of December 31, 2005 and calculate our 2006 expense will be 5.2%, which is a decrease from 5.6% used in determining 2005 expense. Primarily as a result of the reduction in the discount rate, our 2006 net periodic pension cost is expected to be \$32 million higher than 2005.

On a consolidated basis, we recognized net periodic pension cost of \$343 million, \$350 million and \$364 million for the years ended December 31, 2005, 2004 and 2003, respectively. Pension cost is included in several income statement components based on the related underlying employee costs. Pension and post-retirement benefit plan assumptions are included in Note 14 to the Consolidated Financial Statements. Holding all other assumptions constant, a 0.25% increase or decrease in the discount rate would change the 2006 projected net periodic pension cost by approximately \$35 million. Likewise, a 0.25% increase or decrease in the expected return on plan assets would change the 2006 projected net periodic pension cost by approximately \$15 million.

Income Taxes and Tax Valuation Allowances: We record the estimated future tax effects of temporary differences between the tax bases of assets and liabilities and amounts reported in our Consolidated Balance Sheets, as well as operating loss and tax credit carryforwards. We follow very specific and detailed guidelines in each tax jurisdiction regarding the recoverability of any tax assets recorded in our Consolidated Balance Sheets and provide necessary valuation allowances as required. We regularly review our deferred tax assets for recoverability considering historical profitability, projected future taxable income, the expected timing of the reversals of existing temporary differences and tax planning strategies. If we continue to operate at a loss in certain jurisdictions or are unable to generate sufficient future taxable income, or if there is a material change in the actual effective tax rates or time period within which the underlying temporary differences become taxable or deductible, we could be required to increase the valuation allowance against all or a significant portion of our deferred tax assets, resulting in a substantial increase in our effective tax rate and a material adverse impact on our operating results. Conversely, if and when our operations in some jurisdictions were to become sufficiently profitable to recover previously reserved deferred tax assets, we would reduce all or a portion of the applicable valuation allowance in the period when such determination is made. This would result in an increase to reported earnings in such period. Adjustments to our valuation allowance, through (credits) charges to income tax expense, were \$(38) million, \$12 million, and \$(16) million for the years ended December 31, 2005, 2004 and 2003, respectively. There were other increases/(decreases) to our valuation

allowance, including the effects of currency, of \$61 million, \$(21) million and \$69 million for the years ended December 31, 2005, 2004 and 2003, respectively, that did not affect income tax expense in total, as there was a corresponding adjustment to deferred tax assets or other comprehensive income. Gross deferred tax assets of \$3.6 billion and \$3.5 billion had valuation allowances of \$590 million and \$567 million at December 31, 2005 and 2004, respectively.

We are subject to ongoing tax examinations and assessments in various jurisdictions. Accordingly, we may incur additional tax expense based upon our assessment of the probable outcomes of such matters. In addition, when applicable, we adjust the previously recorded tax expense to reflect examination results. Our ongoing assessments of the probable outcomes of the examinations and related tax positions require judgment and can materially increase or decrease our effective tax rate as well as impact our operating results.

Legal Contingencies: We are involved in a variety of claims, lawsuits, investigations and proceedings concerning securities law, intellectual property law, environmental law, employment law and ERISA, as discussed in Note 16 to the Consolidated Financial Statements. We determine whether an estimated loss from a contingency should be accrued by assessing whether a loss is deemed probable and can be reasonably estimated. We assess our potential liability by analyzing our litigation and regulatory matters using available information. We develop our views on estimated losses in consultation with outside counsel handling our defense in these matters, which involves an analysis of potential results, assuming a combination of litigation and settlement strategies. Should developments in any of these matters cause a change in our determination as to an unfavorable outcome and result in the need to recognize a material accrual, or should any of these matters result in a final adverse judgment or be settled for significant amounts, they could have a material adverse effect on our results of operations, cash flows and financial position in the period or periods in which such change in determination, judgment or settlement occurs.

Summary of Results

Segment Revenues

As discussed in Note 2 to the Consolidated Financial Statements, operating segment financial information for 2004 and 2003 has been restated to reflect changes in operating segment structure made during 2005. In 2005, we implemented a new financial reporting system, which has enabled greater efficiencies in financial reporting and provides enhanced analytical capabilities

including activity-based cost analysis on shared services and internal cost allocations. As a result of the implementation, we made changes to the allocation of certain segment costs and expenses. These changes included a reallocation of costs associated with corporate and certain shared service functions. These changes did not involve a change in the composition of our reportable segments and did not impact segment revenue. We have reclassified prior-period amounts to conform to the current period's presentation.

Our reportable segments are consistent with how we manage the business and view the markets we serve. Our reportable segments are Production, Office, DMO and Other. Our offerings include hardware, services, solutions and consumable supplies. The Production segment includes black and white products, which operate at speeds over 90 pages per minute ("ppm") and color products which operate at speeds over 40 ppm, excluding 50 ppm products with an embedded controller. Products include the Xerox iGen3[®] digital color production press, Xerox Nuvera[™], DocuTech[®], DocuPrint[®], Xerox 4110[™] and DocuColor[®] families, as well as older technology light-lens products. These products are sold predominantly through direct sales channels in North America and Europe to Fortune 1000, graphic arts, government, education and other public sector customers. The Office segment includes black and white products that operate at speeds up to 90 ppm, and color devices up to 40 ppm, as well as 50 ppm color devices with an embedded controller. Products include the suite of CopyCentre[®], WorkCentre[®] and WorkCentre Pro digital multifunction systems, DocuColor color multifunction products, color laser, solid ink and monochrome laser desktop printers, digital and light-lens copiers and facsimile products. These products are sold through direct and indirect sales channels in North America and Europe to global, national and mid-size commercial customers as well as government, education and other public sector customers. The DMO segment includes our operations in Latin America, Central and Eastern Europe, the Middle East, India, Eurasia, Russia and Africa. This segment includes sales of products that are typical to the aforementioned segments; however, management serves and evaluates these markets on an aggregate geographic basis, rather than on a product basis. The segment classified as Other includes several units, none of which met the thresholds for separate segment reporting. This group primarily includes Xerox Supplies Business Group (predominantly paper), Small Office/Home Office ("SOHO"), Wide Format Systems, Xerox Technology Enterprises and value-added services, royalty and license revenues. Paper sales were approximately 45% of Other segment revenues in 2005. Other segment profit (loss) includes the operating results from these entities, other less significant businesses, our equity income from Fuji Xerox, and certain costs which have not been allocated to the Production, Office and DMO segments, including non-financing interest as well as other items included in Other expenses, net.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Revenues by segment for the years ended 2005, 2004 and 2003 were as follows:

(in millions)	Production	Office	DMO	Other	Total
2005					
Equipment sales	\$ 1,368	\$ 2,436	\$ 558	\$ 157	\$ 4,519
Post sale and other revenue	2,830	4,670	1,245	1,562	10,307
Finance income	342	512	9	12	875
Total Revenue	\$ 4,540	\$ 7,618	\$ 1,812	\$ 1,731	\$ 15,701
2004					
Equipment sales	\$ 1,358	\$ 2,431	\$ 503	\$ 188	\$ 4,480
Post sale and other revenue	2,880	4,644	1,194	1,590	10,308
Finance income	352	552	10	20	934
Total Revenue	\$ 4,590	\$ 7,627	\$ 1,707	\$ 1,798	\$ 15,722
2003					
Equipment sales	\$ 1,188	\$ 2,426	\$ 466	\$ 170	\$ 4,250
Post sale and other revenue	2,943	4,622	1,285	1,604	10,454
Finance income	376	594	12	15	997
Total Revenue	\$ 4,507	\$ 7,642	\$ 1,763	\$ 1,789	\$ 15,701

Equipment Sales

Equipment sales reflect the results of our technology investments and the associated product launches, as approximately two-thirds of 2005 equipment sales were generated from products launched over the past two years. During 2005, we launched 49 new products including 6 products in the fourth quarter.

2005 Equipment sales of \$4.5 billion increased 1% from 2004, reflecting:

- Negligible impact from currency.
- Growth in lower-end office black and white devices, color printers, as well as office and production color systems, which more than offset declines in other monochrome office and monochrome production products.
- Growth in color equipment sales of \$306 million, or 22%, from the prior comparable period. Color equipment sales represented 38% of total equipment sales versus 32% for the prior-year comparable period.

2004 Equipment sales of \$4.5 billion increased 5% from 2003, reflecting:

- 3-percentage point benefit from currency.
- Market acceptance of our color and digital light production products.
- Continued equipment sales growth, reflecting the success of numerous products launched in the past two years, as the majority of 2004 equipment sales was generated from these products.
- Continued color equipment sales growth in 2004 representing approximately one-third of total equipment sales.

Production

2005 Equipment sales increased 1% from 2004, primarily reflecting install growth with a negligible impact from currency, partially offset by price declines of approximately 5% and product mix. Production system install activity for 2005 included the following:

- 30% growth in installs of production color products largely driven by strong iGen3 and DocuColor 240, 250, 7000 and 8000 activity.
- 9% growth in installs of black and white production systems, reflecting the success of the 4110 light production system, as well as growth in production publishing systems.

2004 Equipment sales increased 14% from 2003, as improved product mix, installation growth and favorable currency of 4-percentage points more than offset price declines of approximately 3%. Production system install activity for 2004 included the following:

- Strong 2004 production color equipment install growth of 11% due to increased installations driven by the DocuColor 5252 and Xerox iGen3 digital color production press products.
- 2004 production monochrome equipment install growth of 7% driven by the success of the Xerox 2101 copier/printer and strong demand for the Xerox Nuvera 100 and 120 copier/printers, more than offset declines of 32% in production publishing, printing and older technology light lens products.

Office

2005 Equipment sales were comparable to 2004, including a negligible impact from currency. Strong install growth was offset by price declines of approximately 7% and product mix, which reflected an increased proportion of lower-end equipment sales. Office product install activity for 2005 included the following:

- 22% install growth in black and white digital copiers and multifunction devices driven by strong sales of Segment 1 and 2 devices (11-30 ppm), which more than offset declines of Segment 3 to 5 devices (31-90 ppm).
- 51% install growth in office color multifunction systems driven in part by strong sales of the DocuColor 240/250, which was announced during the second quarter of 2005.
- 111% improvement in install activity for color printers.

2004 Equipment sales were essentially unchanged from 2003, reflecting the following:

- Installation growth of approximately 20% and favorable currency of 3-percentage points were offset by moderating price declines of approximately 6% and the impact of product mix. Product mix reflected an increased proportion of low-end equipment due to very strong growth in office monochrome ("Segments 1 and 2") of 30% as well as monochrome and color printers of 54%.
- Color printer growth of 74% primarily reflects the success of the solid ink Phaser® 8400, the first product launched from our new solid ink platform in January 2004, as well as other color printer introductions.

DMO

Equipment sales in DMO consist primarily of Segment 1 and 2 devices and office printers. Equipment sales in 2005 increased 11% from 2004, primarily reflecting strong growth in Eurasia and Central and Eastern Europe. Equipment sales in 2004 increased 8% from 2003, primarily reflecting growth in Russia and Central and Eastern Europe offset by declines in Latin America, primarily driven by Brazil, and shift in product mix to lower segments.

Other

2005 Equipment sales declined 16% from 2004, driven by declines in value-added services. The decline in value-added services reflects the integration of a portion of our service contracts into our outsourcing business, the revenue from which is included in the Office and Production segments. Other 2004 equipment sales grew 11% from 2003, primarily due to growth in equipment sales associated with our value-added services business and a 2-percentage point currency benefit.

Post Sale and Other Revenue

Post sale revenue is largely a function of the equipment placed at customer locations, the volume of prints and copies that our customers make on that equipment and the mix of color pages, as well as associated services.

2005 Post sale and other revenues of \$10.3 billion were comparable to the prior year period, with our growth areas ("digital office, digital production and value-added services") collectively growing 5% and DMO growing 4%, more than offsetting a 40% decline in analog light-lens products. Color post sale and other revenue grew 16% for 2005, and color sales represented 26% of post sale and other revenue in 2005 versus 22% in 2004. In 2005, approximately 7% of our pages were printed on color devices, which is up from 5% in 2004. Color pages generate around five times more revenue and gross profit dollars than black and white pages.

2004 Post sale and other revenues of \$10.3 billion declined 1% from 2003, including a 4-percentage point benefit from currency. These declines reflect lower equipment populations, as post sale revenue is largely a function of the equipment placed at customer locations, the volume of prints and copies that our customers make on that equipment and the mix of color pages, as well as associated services. 2004 supplies, paper and other sales of \$2.8 billion (included within post sale and other revenue) increased 2% from 2003, primarily reflecting currency benefits which offset declines in supplies. Supplies sales declined due to our exit from the SOHO business in 2001. 2004 service, outsourcing and rental revenue of \$7.5 billion declined 3% from 2003, as declines in rental and facilities management revenues more than offset benefits from currency. Declines in rental revenues primarily reflect reduced equipment populations within DMO and declines in facilities management revenues reflect consolidations by our customers as well as our prioritization of profitable contracts.

Production: 2005 Post sale and other revenue declined 2% from 2004, as declines in older light-lens technology were only partially offset by revenue growth from digital products. Currency impact was negligible for 2005. 2004 Post sale and other revenue declined 2% from 2003, as declines in monochrome products, driven primarily by lower page volumes, offset favorable mix from color page growth of approximately 40% as well as favorable currency.

Office: 2005 Post sale and other revenue increased 1% from 2004, primarily reflecting a 1-percentage point benefit from currency and growth in digital black and white, color printing and color multifunctional products. These positive effects were partially offset by declines in older light-lens technology. 2004 post sale and other revenue improved modestly from 2003 as favorable mix to color pages, digital page growth and favorable currency were partially offset by declines in older technology light lens products.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

DMO: 2005 Post sale and other revenue grew 4% from 2004, reflecting growth in Eurasia and Central and Eastern Europe, more than offsetting declines in Brazil. 2004 Post sale and other revenue declined 7% from 2003, primarily reflecting a decline in Latin America's rental equipment population. In response, we have continued our transition to indirect distribution channels that is intended to increase, over time, the sales of office devices and the associated supplies and service revenue.

Other: 2005 Post sale and other revenue declined 2% from 2004, including a negligible impact from currency, as declines in SOHO and other revenues were partially offset by growth in value-added services. 2004 Post sale and other revenue declined 1% from 2003, as declines in SOHO were essentially offset by currency benefits and growth in value-added services as well as other activity.

2006 Projected Revenues

We expect 2006 Equipment sales will continue to grow, as we anticipate that new platforms and products launched during the past 2 years, and those planned in 2006, will enable us to further strengthen our market position. Excluding currency impacts, compared to 2005, we expect 2006 Post sale and other revenue and financing income will grow following the transition to positive growth during the second half of 2005. Growth in post sale and other revenue and financing income will be driven by our success at increasing the amount of our equipment at customer locations and the volume of pages and mix of color pages generated on that equipment. Excluding currency impacts, we expect 2006 total revenues to increase approximately 3% from 2005 levels.

Segment Operating Profit

Segment operating profit and operating margin for the three years ended December 31, 2005 were as follows:

<i>(in millions)</i>	Production	Office	DMO	Other	Total
2005					
Operating Profit	\$427	\$819	\$ 64	\$ 151	\$1,461
Operating Margin	9.4%	10.8%	3.5%	8.7%	9.3%
2004					
Operating Profit	\$511	\$779	\$ 35	\$ (125)	\$1,200
Operating Margin	11.1%	10.2%	2.1%	(7.0)%	7.6%
2003					
Operating Profit	\$466	\$790	\$172	\$ (440)	\$ 988
Operating Margin	10.3%	10.3%	9.8%	(24.6)%	6.3%

Production: 2005 Operating Profit declined \$84 million and operating margin declined 1.7-percentage points from 2004. The declines primarily reflect reduced gross margins impacted by mix, and higher selling expenses, which were partially offset by improvements in G&A and R,D&E efficiencies. 2004 operating profit increased \$45 million and operating margin increased 0.8-percentage points from 2003. These increases primarily reflect R&D efficiencies and lower bad debt expenses, which were partially offset by lower gross margin.

Office: 2005 Operating Profit increased \$40 million and operating margin improved 0.6-percentage points from 2004. The improvements primarily reflect lower SAG, partially offset by lower gross margins impacted by mix and higher R,D&E. 2004 operating profit decreased \$11 million and operating margin declined 0.1-percentage points from 2003. The declines primarily reflect lower gross margins, partially offset by lower bad debt expense.

DMO: 2005 Operating Profit increased \$29 million from 2004 and operating margin improved 1.4-percentage points from 2004. These improvements primarily reflect increasing revenues and operating margin contributions from Eurasia and Central and Eastern Europe. 2004 operating profit declined \$137 million from 2003, primarily reflecting results in Latin America, where the pace of revenue declines have exceeded cost and expense reductions.

Other: 2005 Operating Profit increased \$276 million as compared to 2004, principally due to:

- Reduced interest expense of \$157 million, primarily due to lower average debt balances.
- Higher interest income of \$63 million, which includes \$57 million associated with the finalization of the 1996-1998 IRS audit.
- An improvement in aggregate currency gains and losses of \$68 million.
- A gain on the sale of Integic of \$93 million.
- These items were partially offset by the absence of the \$38 million pension settlement gain from Fuji Xerox in 2004, as well as the absence of the \$38 million gain from the 2004 sale of our ownership interest in ScanSoft.

2004 operating loss improved by \$315 million as compared to 2003, principally due to:

- Reduced interest expense of \$127 million.
- An increase in equity income from Fuji Xerox of \$93 million.
- Gain on sale of our interest in ScanSoft of \$38 million.

Gross Margins

Gross margins by revenue classification were as follows:

Year Ended December 31,	2005	2004	2003
Total gross margin	41.2%	41.6%	42.6%
Sales	36.6%	37.4%	37.6%
Service, outsourcing and rentals	43.3%	43.0%	44.3%
Finance income	62.7%	63.1%	63.7%

2005 **Gross margin** of 41.2% decreased 0.4-percentage points from 2004, reflecting a decline in product mix of 1.3-percentage points, reflecting a higher proportion of sales in office printer and light production systems. Price declines of 1.5-percentage points were more than offset by cost improvements of 2.3-percentage points.

2004 Gross margin of 41.6% declined 1.0-percentage points from 2003. Approximately 0.8-percentage points of the decline is due to product mix impacts from a greater proportion of lower gross margin products in the Office and Production segments. Approximately 0.6-percentage points of the decline reflects the impact of DMO results. The decline in DMO results relates to Brazil's revenue, which has declined faster than declines in its cost levels and a shift in product mix to lower gross margin products in various DMO geographies. Productivity improvements essentially offset the impact of lower prices.

2005 **Sales gross margin** of 36.6% decreased 0.8-percentage points from 2004, driven by product mix declines of 1.5-percentage points. Price declines of 2.2-percentage points were more than offset by cost improvements of 2.4-percentage points. Product mix reflects a higher proportion of sales of products with lower gross margins, including office printers and light production systems, and a lower proportion of sales of products with higher gross margins such as higher-end office black and white multi-function devices and high-end production black and white systems.

2004 Sales gross margin of 37.4% decreased 0.2-percentage points from 2003. Approximately 0.4-percentage points of the decline results from product mix and DMO results contributed 0.6-percentage points to the decline. Additionally, productivity improvements offset lower prices and other variances.

2005 **Service, outsourcing and rentals gross margin** of 43.3% increased 0.3-percentage points driven by cost improvements of 2.6-percentage points, which more than offset price declines of 1.1-percentage points and product mix declines of 0.9-percentage points.

2004 Service, outsourcing and rentals gross margin of 43.0% declined 1.3-percentage points from 2003. The majority of the decline is attributed to a change in product mix in the Office and Production segments as well as DMO results. Productivity and cost improvements offset lower prices for the year.

2005 **Finance income gross margin** of 62.7% declined 0.4-percentage points due to interest costs specific to equipment financing. Equipment financing interest is determined based on an estimated cost of funds, applied against an estimated level of debt required to support our finance receivables. The estimated cost of funds is primarily based on our secured borrowings rates. The estimated level of debt is based on an assumed 7 to 1 leverage ratio of debt/equity as compared to our average finance receivables. This methodology has been consistently applied for all periods presented.

2004 Finance income gross margin decreased 0.6-percentage points from 2003 due to interest costs specific to equipment financing.

Research, development and engineering ("R,D&E") of \$943 million in 2005 was \$29 million higher than the prior year. We expect 2006 R,D&E spending to approximate 6% of total revenue in 2006.

Research and development ("R&D") of \$755 million in 2005 decreased from the prior year by \$5 million. This period-over-period comparison reflects lower expenditures in the Production segment, which were partially offset by increased spending in the Office segment. The lower spending in the Production segment was a result of recent product launches, and cost efficiencies that we captured from our platform development strategy. We invest in technological development, particularly in color, and believe our R&D spending is sufficient to remain technologically competitive. Our R&D is strategically coordinated with that of Fuji Xerox, which invested \$720 million and \$704 million in R&D in 2005 and 2004, respectively. 2004 R&D expense of \$760 million was \$108 million lower than the prior year, primarily due to improved efficiencies as we captured benefits from our platform development strategy as well as the commercial launch of the Xerox iGen3.

Sustaining engineering costs of \$188 million increased by \$34 million from the prior year, based on increases in year-over-year product launches. Refer to Note 1 – "Basis of Presentation" and Note 19 – Research, Development and Engineering in the Consolidated Financial Statements for additional information. On average, the reclassification of sustaining engineering costs increased gross margins by approximately 1% for the year ended 2005.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

The following table illustrates the effects of our 2005 reclassification of our sustaining engineering costs from cost of sales to R,D&E:

(in millions)	2004					2005				
	Q1	Q2	Q3	Q4	YTD	Q1	Q2	Q3	Q4	YTD
Total Sustaining Engineering ("SE")	\$ 30	\$ 41	\$ 45	\$ 38	\$ 154	\$ 42	\$ 54	\$ 46	\$ 46	\$ 188
Gross Margin %, with SE	39.8%	41.3%	41.3%	40.1%	40.6%	40.7%	39.0%	40.1%	40.3%	40.0%
Gross Margin %, without SE	40.6%	42.4%	42.5%	41.0%	41.6%	41.8%	40.4%	41.3%	41.4%	41.2%
R&D % revenue, without SE	5.0%	4.9%	5.1%	4.4%	4.8%	4.9%	4.8%	5.2%	4.4%	4.8%
R,D&E % revenue, with SE	5.8%	5.9%	6.3%	5.3%	5.8%	6.0%	6.2%	6.4%	5.5%	6.0%

Selling, Administrative and General Expenses ("SAG"): SAG expense information was as follows (in millions):

	Year Ended December 31,			Amount Change	
	2005	2004	2003	2005	2004
Total SAG expenses	\$4,110	\$4,203	\$4,249	\$ (93)	\$ (46)
SAG as a percentage of revenue	26.2%	26.7%	27.1%	(0.5)%	(0.4)%

In 2005, SAG expenses decreased primarily as a result of the following:

- An \$86 million reduction in general and administrative ("G&A") expenses due to continued expense management initiatives.
- A \$38 million decrease in bad debt expense.
- A partially offsetting increase in selling expenses of \$31 million from 2004 due to additional spending for advertising and marketing programs to support product launches and other selling expenses, as well as special compensation payments related to the 2005 merit increase process. These increases in selling expenses were partially offset by the absence of the \$28 million Olympic marketing expense that occurred in 2004.

In 2004, SAG expenses decreased primarily as a result of the following:

- A \$114 million decline in bad debt expense.
- Reductions in G&A due to efficiencies from continued expense management initiatives.
- An offsetting increase in selling expenses of \$52 million from 2003, reflecting increased spending in selling and marketing initiatives, as well as unfavorable currency impacts of \$141 million.

Bad debt expense included in SAG was \$72 million, \$110 million and \$224 million in 2005, 2004 and 2003, respectively. The 2005 reduction reflects improved collections performance, receivables aging and write-off trends. Bad debt expense as a percent of total revenue was 0.5%, 0.7% and 1.4% for 2005, 2004 and 2003, respectively.

For the three years ended December 31, 2005, 2004 and 2003 we recorded **restructuring charges** of \$366 million, \$86 million and \$176 million, respectively, primarily related to the headcount reductions of approximately 3,900, 1,900 and 2,000 employees, respectively, across all geographies and segments. The 2005 restructuring initiatives are focused on implementing a flexible workforce in our service operations, as well as creating cost efficiencies in our manufacturing and back-office support operations. We expect prospective annual savings associated with the 2005 actions to be approximately \$290 million. The remaining restructuring reserve balance as of December 31, 2005 for all programs was \$236 million. In the next 12 months, we expect to spend approximately \$212 million of this reserve.

Worldwide employment of 55,200 as of December 31, 2005 declined approximately 2,900 from December 31, 2004, primarily reflecting reductions attributable to our restructuring programs and other attrition. Worldwide employment was approximately 58,100 and 61,100 at December 31, 2004 and 2003, respectively.

Gain on Affiliate's Sale of Stock: In 2003, we recorded cumulative gains on an affiliate's sale of stock of \$13 million, reflecting our proportionate share of the increase in equity of ScanSoft Inc., an equity investment. The gain resulted from ScanSoft's issuance of stock in connection with its acquisition of Speechworks, Inc. ScanSoft is a developer of digital imaging software that enables users to leverage the power of their scanners, digital cameras and other electronic devices. As discussed in Note 21 to the Consolidated Financial Statements, in April 2004 we completed the sale of our ownership interest in ScanSoft.

Other Expenses, Net: Other expenses, net, for the three years ended December 31, 2005 consisted of the following:

(in millions)	Year Ended December 31,			Amount Change	
	2005	2004	2003	2005	2004
Non-financing interest expense	\$ 231	\$363	\$522	\$(132)	\$(159)
Interest income	(138)	(75)	(65)	(63)	(10)
(Gain) loss on sales of businesses and assets	(97)	(61)	13	(36)	(74)
Currency losses, net	5	73	11	(68)	62
Amortization of intangible assets	38	37	36	1	1
Legal matters	115	9	242	106	(233)
Minorities' interests in earnings of subsidiaries	15	8	6	7	2
All other expenses, net	55	15	111	40	(96)
	\$ 224	\$369	\$876	\$(145)	\$(507)

Non-financing Interest Expense: In 2005, non-financing interest expense decreased due to lower average debt balances as a result of scheduled term debt repayments and medium-term note redemptions, as well as the full-year effect of the December 2004 Capital Trust II liability conversion. 2004 non-financing interest expense was \$159 million lower than in 2003, primarily due to lower average debt balances as a result of the full-year effect of the June 2003 recapitalization and other scheduled term debt repayments.

Interest Income: Interest income is derived primarily from our invested cash and cash equivalent balances and interest resulting from periodic tax settlements. In 2005, interest income increased primarily due to:

- A \$57 million increase associated with the previously disclosed settlement of the 1996-1998 IRS audit (refer to Note 15 – Income and Other Taxes in the Consolidated Financial Statements).
- A \$23 million increase primarily reflecting higher rates of return from our money market funds.
- Partially offset by the absence of \$26 million of interest income related to a 2004 domestic tax refund.

In 2004, interest income increased primarily as a result of \$26 million related to a domestic tax refund claim in 2004, partially offset by the absence of \$13 million of interest income related to Brazilian tax credits in 2003.

(Gain) Loss on Sales of Businesses and Assets: In 2005, gain on sales of businesses and assets primarily relate to the \$93 million gain in the first quarter on the sale of Integic. In 2004, gains on the sale of businesses and assets primarily reflect the \$38 million pre-tax gain from the sale of our ownership interest in ScanSoft, as well as gains totaling \$14 million related to the sale of certain excess land and buildings in Europe and Mexico. The 2003 amount primarily included losses related to the sale of Xerox Engineering Systems subsidiaries in France and Germany, which were partially offset by a gain on the sale of our investment in Xerox South Africa.

Currency Gains and Losses: Currency gains and losses primarily result from the mark-to-market of foreign exchange contracts utilized to hedge foreign currency-denominated assets and liabilities, the re-measurement of foreign currency-denominated assets and liabilities and the mark-to-market impact of hedges of anticipated transactions, primarily future inventory purchases, for which we do not generally apply cash flow hedge accounting treatment.

In 2005, 2004 and 2003, currency losses totaled \$5 million, \$73 million and \$11 million, respectively. The decrease in 2005 from 2004 was primarily due to the strengthening of the U.S. and Canadian Dollars against the Euro and the Yen in 2005, as compared to the weakening U.S. Dollar in 2004, and decreased costs of hedging foreign currency-denominated assets and liabilities due to lower spot/forward premiums in 2005. The increase in currency losses in 2004 from 2003 was primarily due to the weakening U.S. Dollar in 2004 and increased costs of hedging foreign currency-denominated assets and liabilities due to higher spot/forward premiums in 2004.

Legal Matters: In 2005, legal matters costs consisted of the following:

- \$102 million, including \$13 million for interest expense, related to the MPI arbitration panel ruling (refer to Note 16 – Contingencies in the Consolidated Financial Statements).
- \$13 million related to other legal matters, primarily reflecting charges for probable losses on cases that have not yet been resolved.

In 2004, legal matters costs consist of expenses associated with the resolution of legal and regulatory matters, none of which was individually material, partially offset by the adjustment of an estimate associated with a previously recorded litigation accrual.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

In 2003, legal matters costs primarily consisted of a \$239 million provision for litigation relating to the court-approved settlement of the Berger v. Retirement Income Guarantee Plan ("RIGP") litigation. RIGP represents the primary U.S. pension plan for salaried employees. The settlement was paid from RIGP assets and was reflected in our 2004 actuarial valuation. The obligation related to this settlement was included in plan amendments in the change in the benefit obligation.

Refer to Note 16 – Contingencies in the Consolidated Financial Statements for additional information regarding litigation against the Company.

All Other Expenses, Net: In 2005 all other expenses, net, included the following individually significant items:

- \$15 million for losses sustained from Hurricane Katrina related to property damage and impaired receivables. We continue to reassess the estimate of our losses from the effects of Hurricane Katrina. Our current estimate as of December 31, 2005, of total assets at risk in the affected areas, primarily finance receivables from customers, was approximately \$20 million.
- \$26 million charge related to the European Union Waste Directive, including the associated adoption of FASB Staff Position No. 143-1, "Accounting for Electronic Equipment Waste Obligations," which provided guidance on accounting for the European Union (EU) Directive on the disposal of electronic equipment. Refer to Note 1 – Summary of Significant Accounting Policies in the Consolidated Financial Statements.

In 2003, all other expenses, net, included a \$73 million loss on early extinguishment of debt reflecting the write-off of the remaining unamortized fees associated with the 2002 Credit Facility.

Income tax (benefits) expenses were as follows (in millions):

Year Ended December 31,	2005	2004	2003
Pre-tax income	\$ 830	\$ 965	\$ 436
Income tax (benefits) expenses	(5)	340	134
Effective tax rate	(0.6)%	35.2%	30.7%

The 2005 effective tax rate of (0.6)% was lower than the U.S. statutory tax rate primarily due to:

- Tax benefits of \$253 million associated with the finalization of the 1996-1998 IRS audit in the second quarter.
- Tax benefits of \$42 million primarily from the realization of foreign tax credits offset by the geographical mix of income and the related tax rates in those jurisdictions.
- Tax benefits of \$31 million from the reversal of a valuation allowance on deferred tax assets associated with foreign net operating loss carryforwards. This reversal followed a re-evaluation of their future realization resulting from a refinancing of a foreign operation.

- These impacts were partially offset by losses in certain jurisdictions where we are not providing tax benefits and continue to maintain deferred tax valuation allowances.

The 2004 effective tax rate of 35.2% was comparable to the U.S. statutory tax rate, primarily reflecting:

- The impact of nondeductible expenses and \$20 million of unrecognized tax benefits primarily related to recurring losses in certain jurisdictions where we maintained deferred tax asset valuation allowances.
- Partially offset by tax benefits from other foreign adjustments, including earnings taxed at different rates, tax law changes of \$14 million and other items that are individually insignificant.

The 2003 effective tax rate of 30.7% was lower than the U.S. statutory tax rate, primarily reflecting:

- Tax benefits of \$35 million resulting from the reversal of valuation allowances on deferred tax assets following a re-evaluation of their future realization due to improved financial performance, other foreign adjustments, including earnings taxed at different rates, the impact of Series B Convertible Preferred Stock dividends and state tax benefits.
- Partially offset by tax expense for audit and other tax return adjustments, as well as \$19 million of unrecognized tax benefits primarily related to recurring losses in certain jurisdictions where we maintained deferred tax asset valuation allowances.

Our effective tax rate is based on recurring factors including the geographical mix of income before taxes and the related tax rates in those jurisdictions, as well as available foreign tax credits. In addition, our effective tax rate will change based on discrete or other nonrecurring events (such as audit settlements) that may not be predictable. We anticipate that our effective tax rate for 2006 will approximate 34.0%, excluding the effects of any discrete items.

Equity in Net Income of Unconsolidated Affiliates: Equity in net income of unconsolidated affiliates of \$98 million, principally related to our 25% share of Fuji Xerox income, decreased \$53 million in 2005 as compared to 2004, reflecting the following:

- A \$44 million decrease in our 25% share of Fuji Xerox's net income. The lower net income related to the absence of the \$38 million pension settlement gain in 2004. Refer to Note 7 – Investments in Affiliates, at Equity in the Consolidated Financial Statements for condensed financial data of Fuji Xerox.
- The absence of \$7 million of equity income from Integic Corporation. In the first quarter of 2005, we sold our entire equity interest in Integic Corporation.

Equity in net income of unconsolidated affiliates increased \$93 million in 2004 as compared to 2003, reflecting:

- \$38 million related to our share of a pension settlement gain recorded by Fuji Xerox subsequent to a transfer of a portion of their pension obligation to the Japanese government in accordance with the Japan Welfare Pension Insurance Law.
- The remainder of the 2004 increase is primarily due to the improved operational performance of Fuji Xerox.

Income from Discontinued Operations: Income from discontinued operations, net of tax, for the years ended December 31, 2005 and 2004 was as follows (in millions):

	2005	2004	2003
Insurance Group Operations tax benefits	\$53	\$ -	\$ -
Gain on sale of ContentGuard, net of income taxes of \$26	-	83	-
Total	\$53	\$83	\$-

As disclosed in Note 15 – Income and Other Taxes, in June 2005 we received notice that our 1996-1998 Internal Revenue Service (“IRS”) audit was finalized. Of the total tax benefits realized, including the reversal of existing reserves, \$53 million was attributed to our discontinued operations.

In the first quarter 2004, we sold all but 2% of our 75% ownership interest in ContentGuard Inc. (“ContentGuard”) to Microsoft Corporation and Time Warner Inc. for \$66 million in cash. The sale resulted in an after-tax gain of approximately \$83 million (\$109 million pre-tax) and reflects our recognition of cumulative operating losses. The revenues, operating results and net assets of ContentGuard were immaterial for all periods presented. ContentGuard, which was originally created out of research developed at the Xerox Palo Alto Research Center (“PARC”), licenses intellectual property and technologies related to digital rights management. During 2005, we sold our remaining interest in ContentGuard.

Recent Accounting Pronouncements: Refer to Note 1 of the Consolidated Financial Statements for a description of recent accounting pronouncements including the respective dates of adoption and effects on results of operations and financial condition.

Capital Resources and Liquidity

Cash Flow Analysis: The following summarizes our cash flows for each of the three years ended December 31, 2005, as reported in our Consolidated Statements of Cash Flows in the accompanying Consolidated Financial Statements:

(in millions)	2005	2004	2003	2005 Amount Change	2004 Amount Change
Net cash provided by operating activities	\$ 1,420	\$ 1,750	\$ 1,879	\$ (330)	\$ (129)
Net cash (used in) provided by investing activities	(295)	203	49	(498)	154
Net cash used in financing activities	(2,962)	(1,293)	(2,470)	(1,669)	1,177
Effect of exchange rate changes on cash and cash equivalents	(59)	81	132	(140)	(51)
(Decrease) increase in cash and cash equivalents	(1,896)	741	(410)	(2,637)	1,151
Cash and cash equivalents at beginning of period	3,218	2,477	2,887	741	(410)
Cash and cash equivalents at end of period	\$ 1,322	\$ 3,218	\$ 2,477	\$(1,896)	\$ 741

Cash, cash equivalents and short-term investments reported in our Consolidated Financial Statements were as follows:

December 31,	2005	2004
Cash and cash equivalents	\$1,322	\$3,218
Short-term investments	244	-
Total Cash, cash equivalents and Short-term investments	\$1,566	\$3,218

For the year ended December 31, 2005, net cash provided by operating activities decreased \$330 million from 2004, primarily as a result of the following:

- \$258 million decrease due to modest growth in accounts receivable in 2005 compared to a decline in 2004.
- \$83 million decrease due to lower finance receivable run-off.
- \$124 million decrease due to higher inventory growth in 2005 compared to 2004, reflecting an increase in the number of new products.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

- Partially offsetting these items were lower tax payments of \$96 million due to refunds from audit and other tax settlements, as well as the timing of payments associated with restructuring.
- Partially offsetting lower pension contributions of \$21 million.

For the year ended December 31, 2004, net cash provided by operating activities decreased \$129 million from 2003, primarily as a result of the following:

- Lower finance receivable reductions of \$159 million reflecting the increase in equipment sale revenue in 2004.
- Higher cash usage related to inventory of \$100 million to support new products.
- Increased tax payments of \$46 million due to increased income.
- Lower cash generation from the early termination of interest rate swaps of \$62 million.
- Lower pension plan contributions of \$263 million, partially offsetting the above cash outflows.

We expect 2006 operating cash flows to be at the high end of the range of \$1.2 billion to \$1.5 billion, as compared to \$1.4 billion in 2005. This expectation reflects cash generation from a decrease in finance receivables that offsets cash usage from an increase in equipment on operating leases, resulting in a neutral impact on net operating cash flow. Since finance receivables and on-lease equipment are expected to be leveraged at a 7:1 debt-to-equity ratio, if these items collectively use or provide cash the overall impact on our total cash flows should be minimal, since our debt should also increase or decrease as appropriate to maintain our current leverage.

For the year ended December 31, 2005, **net cash from investing activities** decreased \$498 million from 2004 primarily as a result of the following:

- \$247 million from the net purchases of short-term investments which were intended to increase our return on available cash.
- Decrease of \$143 million due to a lower net reduction of escrow and other restricted investments due to the 2004 renegotiation of certain secured borrowing arrangements and scheduled releases from an escrow account of supporting interest payments on our prior liability to a trust issuing preferred securities.
- Decrease of \$86 million due to lower proceeds from divestitures and investments, net, reflecting:
 - 2005 proceeds of \$105 million primarily consisting of \$96 million from the sale of our equity interest in Integic Corporation.
 - 2004 proceeds of \$191 million primarily consisting of \$66 million from the ContentGuard sale, \$79 million from the ScanSoft sale and \$36 million from a preferred stock investment.

- Decrease of \$48 million due to lower proceeds from the sale of excess land and buildings.
- Partially offsetting these items was a \$15 million decrease in capital and internal use software expenditures.

We expect 2006 capital expenditures including internal use software to approximate \$250 million.

For the year ended December 31, 2004, net cash from investing activities increased \$154 million from 2003, primarily as a result of the following:

- An increase of \$156 million in proceeds from the sale of businesses and investments, consisting of the \$191 million referred to above, as offset by \$35 million of proceeds from the 2003 divestitures of investments in South Africa, France and Germany.
- An increase of \$43 million of proceeds from the sale of certain excess land and buildings.
- Partially offsetting these items was a \$12 million decrease due to the acquisition of an additional interest in Xerox India in 2004, and a \$31 million decrease due to a lower net reduction of escrow and other restricted investments. 2003 investing cash flows included \$235 million related to our former reinsurance obligations with our discontinued operations.

For the year ended December 31, 2005, **net cash used in financing activities** increased \$1.7 billion from 2004, primarily as a result of the following:

- A \$1.5 billion reduction in proceeds from new secured financings, reflecting a rebalancing of our secured and unsecured debt portfolio.
- \$433 million cash usage for the acquisition of common stock under the authorized October 2005 share repurchase program.
- A partially offsetting \$235 million decrease in net payments on term and other debt reflecting lower debt maturity obligations.

For the year ended December 31, 2004, net cash used in financing activities decreased \$1.2 billion from 2003, primarily as a result of the following:

- A \$2.6 billion decrease in net payments of term and other debt.
- \$889 million in proceeds received on the issuance of mandatory redeemable preferred stock in 2003.
- A partially offsetting decrease of \$404 million in proceeds from the issuance of common stock and a decrease of \$114 million in net proceeds from secured financing.

Customer Financing Activities and Debt: We provide equipment financing to the majority of our customers. Because the finance leases allow our customers to pay for equipment over time rather than at the date of installation, we maintain a certain level of debt to support our investment in these customer finance leases.

During the last four years we had established a series of financing arrangements with a number of major financial institutions to provide secured funding for our customer leasing activities in several of the major countries in which we operate, specifically in Canada, France, the Netherlands, the U.K. and U.S. While terms and conditions vary somewhat between countries, in general these arrangements call for the financial counterparty to provide loans secured by the sales-type lease originations in the country for which it has been contracted to be the funding source. Most arrangements are transacted through bankruptcy remote special purpose entities and the transfers of receivables and equipment to these entities are generally intended to be true sales at law. Under these arrangements, secured debt matches the terms of the underlying finance receivables it supports, which eliminates certain significant refinancing, pricing and duration risks associated with our financing.

At December 31, 2005 and 2004, all of the lease receivables and related secured debt are consolidated in our financial statements because we are determined to be the primary beneficiary of the arrangements and frequently the counterparties have various types of recourse to us. The lease receivables sold represent the collateral for the related secured debt and are not available for general corporate purposes until the related debt is paid off. Most of the secured financing arrangements include over-collateralization of approximately 10% of the lease amounts sold. All of these arrangements are subject to usual and customary conditions of default including cross-defaults. In the remote circumstance that an event of default occurs and remains uncured, in general, the counterparty can cease providing funding for new lease originations.

Information on restricted cash that is the result of these third-party secured funding arrangements is included in Note 1 – Restricted Cash and Investments to the Consolidated Financial Statements and disclosure of the amounts for new funding and debt repayments are included in the accompanying Consolidated Statement of Cash Flows.

We also have arrangements in certain countries – Germany, Italy, the Nordic Countries, Brazil and Mexico – in which third-party financial institutions originate lease contracts directly with our customers. In these arrangements, we sell and transfer title to the equipment to these financial institutions and generally have no continuing ownership rights in the equipment subsequent to its sale.

In addition to these third-party arrangements, we also support our customer finance leasing activities with cash generated from operations and through capital markets offerings.

Refer to Note 4 – Receivables, Net in the Consolidated Financial Statements for further information regarding our third-party secured funding arrangements as well as a comparison of finance receivables to our financing-related debt as of December 31, 2005 and 2004.

As of December 31, 2005 and 2004, debt secured by finance receivables was approximately 41% and 44% of total debt, respectively. Consistent with our objective to rebalance the ratio of secured and unsecured debt, we expect payments on secured loans will continue to exceed proceeds from new secured loans in 2006. The following represents our aggregate debt maturity schedule as of December 31, 2005:

<i>(in millions)</i>	Unsecured Debt	Debt Secured by Finance Receivables	Other Secured Debt	Total Debt
2006	\$ 66	\$1,058	\$ 15	\$1,139 ⁽¹⁾
2007	258	1,139	185	1,582
2008	28	643	307	978
2009	879	103	7	989
2010	688	36	3	727
Thereafter	1,826	3	34	1,863
Total	\$3,745	\$2,982	\$551	\$7,278

⁽¹⁾ Quarterly secured and unsecured total debt maturities (in millions) for 2006 are \$353, \$307, \$256 and \$223 for the first, second, third and fourth quarters, respectively.

The following table summarizes our secured and unsecured debt as of December 31, 2005 and 2004:

<i>(in millions)</i>	December 31, 2005	December 31, 2004
Term Loan	\$ 300	\$ 300
Debt secured by finance receivables	2,982	4,436
Capital leases	38	58
Debt secured by other assets	213	235
Total Secured Debt	3,533	5,029
Senior Notes	2,862	2,936
Subordinated debt	19	19
Other Debt	864	2,140
Total Unsecured Debt	3,745	5,095
Total Debt	\$7,278	\$10,124

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Liquidity: We manage our worldwide liquidity using internal cash management practices, which are subject to (1) the statutes, regulations and practices of each of the local jurisdictions in which we operate, (2) the legal requirements of the agreements to which we are a party and (3) the policies and cooperation of the financial institutions we utilize to maintain and provide cash management services.

With \$1.6 billion of cash, cash equivalents and short-term investments, as of December 31, 2005, borrowing capacity under our 2003 Credit Facility of approximately \$700 million and funding available through our secured funding programs, we believe our liquidity (including operating and other cash flows that we expect to generate) will be sufficient to meet operating cash flow requirements as they occur and to satisfy all scheduled debt maturities for at least the next twelve months. Our ability to maintain positive liquidity going forward depends on our ability to continue to generate cash from operations and access the financial markets, both of which are subject to general economic, financial, competitive, legislative, regulatory and other market factors that are beyond our control. As of December 31, 2005, we had an active shelf registration statement with \$1.75 billion of capacity that enables us to access the market on an opportunistic basis and offer both debt and equity securities.

Credit Facility: The 2003 Credit Facility consists of a \$300 million term loan and a \$700 million revolving credit facility, which includes a \$200 million sub-facility for letters of credit. Xerox Corporation is the only borrower of the term loan. The revolving credit facility is available, without sub-limit, to Xerox Corporation and certain of its foreign subsidiaries, including Xerox Canada Capital Limited, Xerox Capital (Europe) plc and other qualified foreign subsidiaries (excluding Xerox Corporation, the "Overseas Borrowers"). The 2003 Credit Facility matures on September 30, 2008. As of December 31, 2005, the \$300 million term loan and \$15 million of letters of credit were outstanding and there were no outstanding borrowings under the revolving credit facility. Since inception of the 2003 Credit Facility in June 2003, there have been no borrowings under the revolving credit facility.

The term loan and the revolving loans each bear interest at LIBOR plus a spread that varies between 1.75% and 3.00% or, at our election, at a base rate plus a spread that depends on the then-current leverage ratio, as defined, in the 2003 Credit Facility. This rate was 6.22% at December 31, 2005.

The 2003 Credit Facility contains affirmative and negative covenants as well as financial maintenance covenants. Subject to certain exceptions, we cannot pay cash dividends on our common stock during the facility term, although we can pay cash dividends on our preferred stock provided there is then no event of default. In addition to other defaults customary for facilities of this type, defaults on other debt, or bankruptcy, of Xerox, or certain of our subsidiaries, and a change in control of Xerox, would constitute events of default. At December 31, 2005, we were in compliance with the covenants of the 2003 Credit Facility and we expect to remain in compliance for at least the next twelve months.

Share Repurchase Program: In October 2005, the Board of Directors authorized the repurchase of up to \$500 million of the Company's common stock during a period of up to one year. In addition, during January 2006, the Board of Directors authorized an additional repurchase of \$500 million of the Company's common stock to also occur during a period of up to one year. Refer to Note 18 – Common Stock in the Consolidated Financial Statements for further information.

Other Financing Activity

Financing Business: We currently fund our customer financing activity through third-party funding arrangements, cash generated from operations, cash on hand, capital markets offerings and secured loans. In the United States, Canada, the Netherlands, the U.K. and France, we are currently funding a significant portion of our customer financing activity through secured borrowing arrangements with GE, De Lage Landen Bank ("DLL") and Merrill Lynch. At the end of the third quarter of 2005, we repaid \$120 million of secured debt through a transaction with our DLL Joint Venture to purchase DLL's parent's 51% ownership interest in the Belgium and Spain leasing operations, which were previously sold to the joint venture in the fourth quarter of 2003. In connection with the purchase, the secured borrowings to DLL's parent in these operations were repaid and the related finance receivables are no longer encumbered. Other than the repayment of the secured debt, the effects from this transaction were immaterial. In October 2005, we renegotiated our Loan Agreement with GE, resulting in a reduction in applicable interest rates and the elimination of the monthly borrowing requirement. The interest rate reduction is applicable to existing and new loans. Additionally, in October 2005, we finalized renegotiation of our Loan Agreements with Merrill Lynch in France, resulting in an increase in the size of the facility from €350 million to €420 million (\$414 million to \$497 million), lower applicable interest rates and an extension for an additional 2 years at our option from the current expiration date of July 2007. Refer to Note 4 to the Consolidated Financial Statements for a more detailed discussion of our customer financing arrangements.

Loan Covenants and Compliance: At December 31, 2005, we were in full compliance with the covenants and other provisions of the 2003 Credit Facility, the Senior Notes and the Loan Agreement and expect to remain in full compliance for at least the next twelve months. Any failure to be in compliance with any material provision or covenant of the 2003 Credit Facility or the Senior Notes could have a material adverse effect on our liquidity and operations. Failure to be in compliance with the covenants in the Loan Agreement, including the financial maintenance covenants incorporated from the 2003 Credit Facility, would result in an event of termination under the Loan Agreement and in such case GECC would not be required to make further loans to us. If GECC were to make no further loans to us and assuming a similar facility was not established and that we were unable to obtain replacement financing in the public debt markets, it could materially adversely affect our liquidity and our ability to fund our customers' purchases of our equipment and this could materially adversely affect our results of operations. We have the right at any time to prepay without penalty any loans outstanding under or terminate the 2003 Credit Facility.

Capital Markets Offerings and Other: In August 2004, we issued \$500 million aggregate principal amount of Senior Notes due 2011 at par value and, in September 2004, we issued an additional \$250 million aggregate principal amount Senior Notes due 2011 at 104.25% of par. These notes, which are discussed further in Note 11 – Debt in the Consolidated Financial Statements, form a single series of debt. Interest on the Senior Notes accrues at the annual rate of 6.875% and, as a result of the premium we received on the second issuance of Senior Notes, have a weighted average effective interest rate of 6.6%. The weighted average effective interest rate associated with the Senior Notes reflects our improved liquidity and ability to access the capital markets on more favorable terms.

In December 2004, we completed the redemption of our liability to the Xerox trust issuing trust preferred securities. In lieu of cash redemption, holders of substantially all of the securities converted \$1.0 billion aggregate principal amount of securities into 113 million shares of our common stock. As a result of this conversion and redemption, there is no remaining outstanding principal. This redemption, which had no impact on diluted earnings per share, is discussed further in Note 12 to the Consolidated Financial Statements.

Credit Ratings: Our credit ratings as of December 31, 2005 were as follows:

	Senior Unsecured Debt	Outlook	Comments
Moody's ^{(1), (2), (6)}	Ba2	Positive	The Moody's rating was upgraded from B1 in August 2004. The outlook was upgraded to positive in September 2005.
S&P ^{(3), (4)}	BB-	Positive	The S&P rating on Senior Secured Debt is BB-. The outlook was upgraded to positive in April 2005.
Fitch ⁽⁵⁾	BB+	Positive	The Fitch rating was upgraded from BB in August 2005.

⁽¹⁾In December 2003, Moody's assigned to Xerox a first-time SGL-1 rating. This rating was affirmed in August 2004.

⁽²⁾In August 2004, Moody's upgraded the long-term senior unsecured debt rating of Xerox from B1 to Ba2, a two-notch upgrade. The corporate rating was upgraded to Ba1.

⁽³⁾In April 2005, S&P launched a short-term speculative-grade rating scale and assigned to Xerox a first-time B-1 rating.

⁽⁴⁾In April 2005, S&P upgraded the long-term senior unsecured debt rating of Xerox from B+ to BB-, a one-notch upgrade. The corporate rating was affirmed as BB- and changed its Outlook from Stable to Positive.

⁽⁵⁾In August 2005, Fitch upgraded the senior unsecured debt of Xerox from BB to BB+, and also upgraded the Trust Preferred securities from B+ to BB-, both one-notch upgrades. The corporate rating Outlook was affirmed as Positive and affirmed the Secured Bank Facility at BBB-

⁽⁶⁾In September 2005, Moody's changed its Outlook from Stable to Positive.

Our credit ratings, which are periodically reviewed by major rating agencies, have substantially improved over the past two years. As described in the above table, Moody's and S&P have made positive rating upgrades during the 2005 annual period. In January 2006, S&P placed our rating on Credit-Watch Positive, indicating a review of the credit with positive implications within the coming 30 days. Even though as of February 2006, our current credit rating still remains below investment grade, we expect our management strategies will return the Company to investment grade in the future.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Contractual Cash Obligations and Other Commercial Commitments and Contingencies: At December 31, 2005, we had the following contractual cash obligations and other commercial commitments and contingencies (in millions):

	Year 1	Years 2-3		Years 4-5		Thereafter
	2006	2007	2008	2009	2010	
Long-term debt, including capital lease obligations ⁽¹⁾	\$ 1,139	\$ 1,582	\$ 978	\$ 989	\$ 727	\$ 1,863
Minimum operating lease commitments ⁽²⁾	197	165	124	102	90	197
Liabilities to subsidiary trusts issuing preferred securities ⁽³⁾	98	–	–	–	–	626
Purchase Commitments						
Flextronics ⁽⁴⁾	734	–	–	–	–	–
EDS Contracts ⁽⁵⁾	299	290	282	138	–	–
Other ⁽⁶⁾	39	34	31	1	–	–
Total Contractual cash obligations	\$ 2,506	\$ 2,071	\$ 1,415	\$ 1,230	\$ 817	\$ 2,686

⁽¹⁾ Refer to Note 11 to our Consolidated Financial Statements for interest payments by us as well as for additional information related to long-term debt (amounts above include principal portion only).

⁽²⁾ Refer to Note 6 to our Consolidated Financial Statements for additional information related to minimum operating lease commitments.

⁽³⁾ Refer to Note 12 to our Consolidated Financial Statements for interest payments by us as well as for additional information related to liabilities to subsidiary trusts issuing preferred securities (amounts above include principal portion only).

⁽⁴⁾ Flextronics: In 2001, we outsourced certain manufacturing activities to Flextronics under a five-year agreement expiring on November 30, 2006, which we expect to extend for at least an additional three-year period in accordance with existing contractual terms.

⁽⁵⁾ EDS Contracts: We have an information management contract with Electronic Data Systems Corp. ("EDS") to provide services to us for global mainframe system processing, application maintenance and support, desktop services and helpdesk support, voice and data network management, and server management through June 30, 2009. There are no minimum payments required under the contract. After July 1, 2006, we can terminate the current contract for convenience with six months' notice, as defined in the contract, with no termination fee and with payment to EDS for costs incurred as of the termination date. Should we terminate the contract for convenience, we have an option to purchase the assets placed in service under the EDS contract.

⁽⁶⁾ Other Purchase Commitments: We enter into other purchase commitments with vendors in the ordinary course of business. Our policy with respect to all purchase commitments is to record losses, if any, when they are probable and reasonably estimable. We currently do not have, nor do we anticipate, material loss contracts.

Other Commercial Commitments and Contingencies

Pension and Other Post-Retirement Benefit Plans: We sponsor pension and other post-retirement benefit plans that require periodic cash contributions. Our 2005 cash fundings for these plans were \$388 million for pensions and \$112 million for other post-retirement plans. Our anticipated cash fundings for 2006 are \$106 million for pensions and \$130 million for other post-retirement plans. Cash contribution requirements for our domestic tax-qualified pension plans are governed by the Employment Retirement Income Security Act ("ERISA") and the Internal Revenue Code. Cash contribution requirements for our international plans are subject to the applicable regulations in each country. The expected 2006 pension contributions do not include contributions to the domestic tax-qualified plans because these plans have already exceeded the ERISA minimum funding requirements for the plans' 2005 plan year. However, once the January 1, 2006 actuarial valuations and projected results as of the end of the 2006 measurement year are available, the desirability of additional contributions will be assessed. Based on these results, we may voluntarily decide to contribute to these plans, even though no contribution is required. In prior years, after making this assessment, we decided to contribute \$230 million and \$210 million in April 2005 and April 2004, respectively, to our domestic

tax-qualified plans in order to make them 100 percent funded on a current liability basis under the ERISA funding rules. Our other post-retirement benefit plans are non-funded and are almost entirely related to domestic operations. Cash contributions are made each year to cover medical claims costs incurred in that year.

Fuji Xerox: We had product purchases from Fuji Xerox totaling \$1.5 billion, \$1.1 billion and \$871 million in 2005, 2004 and 2003, respectively. Our purchase commitments with Fuji Xerox are in the normal course of business and typically have a lead time of three months. We anticipate that we will purchase approximately \$1.9 billion of products from Fuji Xerox in 2006. Related party transactions with Fuji Xerox are discussed in Note 7 to the Consolidated Financial Statements.

Brazil Tax and Labor Contingencies: At December 31, 2005, our Brazilian operations were involved in various litigation matters and have received or been levied with numerous governmental assessments related to indirect and other taxes as well as disputes associated with former employees and contract labor. The total amounts related to these unreserved contingencies, inclusive of any related interest, were approximately \$900 million. The tax matters, which comprise a significant portion of the total contingencies, principally relate to claims for taxes on the internal transfer

of inventory, municipal service taxes on rentals and gross revenue taxes. We are disputing these tax and labor matters and intend to vigorously defend our position. Based on the opinion of legal counsel, we do not believe that the ultimate resolution of these matters will materially impact our results of operations, financial position or cash flows. In connection with these proceedings, customary local regulations may require us to make escrow cash deposits or post other security of up to one-half of the total amount in dispute. As of December 31, 2005, we have made escrow cash deposits of \$117 million for matters we are disputing and there are liens on certain of our Brazilian assets. Generally, any escrowed amounts would be refundable and any liens would be removed to the extent the matter is resolved in our favor. We routinely assess these matters as to probability of ultimately incurring a liability against our Brazilian operations and record our best estimate of the ultimate loss in situations where we assess the likelihood of an ultimate loss as probable of occurring.

Off-Balance-Sheet Arrangements

Although we generally do not utilize off-balance-sheet arrangements in our operations, we enter into operating leases in the normal course of business. The nature of these lease arrangements is discussed in Note 6 to the Consolidated Financial Statements. Additionally, we utilize special-purpose entities ("SPEs") in conjunction with certain financing transactions. The SPEs utilized in conjunction with these transactions are consolidated in our financial statements in accordance with applicable accounting standards. These transactions, which are discussed further in Note 4 to the Consolidated Financial Statements, have been accounted for as secured borrowings with the debt and related assets remaining on our balance sheets. Although the obligations related to these transactions are included in our balance sheet, recourse is generally limited to the secured assets and no other assets of the Company.

Refer to Note 16 – Contingencies for further information regarding our guarantees, indemnifications and warranty liabilities.

Financial Risk Management

We are exposed to market risk from foreign currency exchange rates and interest rates, which could affect operating results, financial position and cash flows. We manage our exposure to these market risks through our regular operating and financing activities and, when appropriate, through the use of derivative financial instruments. These derivative financial instruments are utilized to hedge economic exposures as well as reduce earnings and cash flow volatility resulting from shifts in market rates. Refer to Note 13 – Financial Instruments to the Consolidated Financial Statements for further discussion on our financial risk management.

Assuming a 10% appreciation or depreciation in foreign currency exchange rates from the quoted foreign currency exchange rates at December 31, 2005, the potential change in the fair value of foreign currency-denominated assets and liabilities in each entity would not be significant because all material currency asset and liability exposures were economically hedged as of December 31, 2005. A 10% appreciation or depreciation of the U.S. Dollar against all currencies from the quoted foreign currency exchange rates at December 31, 2005 would have a \$582 million impact on our cumulative translation adjustment portion of equity. The amount permanently invested in foreign subsidiaries and affiliates, primarily Xerox Limited, Fuji Xerox, Xerox Canada Inc. and Xerox do Brasil, and translated into dollars using the year-end exchange rates, was \$5.8 billion at December 31, 2005, net of foreign currency-denominated liabilities designated as a hedge of our net investment.

Interest Rate Risk Management: The consolidated weighted-average interest rates related to our debt and liabilities to subsidiary trusts issuing preferred securities for 2005, 2004 and 2003 approximated 6.0%, 5.8% and 6.0%, respectively. Interest expense includes the impact of our interest rate derivatives.

Virtually all customer-financing assets earn fixed rates of interest. As discussed above, a significant portion of those assets has been pledged as collateral for secured financing arrangements and the interest rates on a significant portion of those loans are fixed.

As of December 31, 2005, approximately \$2.9 billion of our debt carried variable interest rates, including the effect of pay-variable interest rate swaps we are utilizing with the intent to reduce the effective interest rate on our debt.

The fair market values of our fixed-rate financial instruments are sensitive to changes in interest rates. At December 31, 2005, a 10% change in market interest rates would change the fair values of such financial instruments by approximately \$257 million.

Forward-Looking Statements

This Annual Report contains forward-looking statements and information relating to Xerox that are based on our beliefs, as well as assumptions made by and information currently available to us. The words "anticipate," "believe," "estimate," "expect," "intend," "will," "should" and similar expressions, as they relate to us, are intended to identify forward-looking statements. Actual results could differ materially from those projected in such forward-looking statements. Information concerning certain factors that could cause actual results to differ materially is included in our 2005 Annual Report on Form 10-K filed with the SEC. We do not intend to update these forward-looking statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

Note 1 – Summary of Significant Accounting Policies

References herein to “we,” “us,” “our,” the “Company” and Xerox refer to Xerox Corporation and its consolidated subsidiaries unless the context specifically requires otherwise.

Description of Business and Basis of Presentation: We are a technology and services enterprise and a leader in the global document market, developing, manufacturing, marketing, servicing and financing a complete range of document equipment, solutions and services.

Certain reclassifications of prior-year amounts have been made to conform to the current-year presentation. Effective July 1, 2005, we reclassified sustaining engineering costs from cost of sales and cost of service, outsourcing and rentals to a new line item in our Consolidated Statements of Income entitled Research, development and engineering expenses (“R,D&E”). This presentation aligns our external reporting presentation to our internal management of these costs. The components of R,D&E for all years presented are disclosed in Note 19 – Research, Development and Engineering.

Basis of Consolidation: The Consolidated Financial Statements include the accounts of Xerox Corporation and all of our controlled subsidiary companies. All significant intercompany accounts and transactions have been eliminated. Investments in business entities in which we do not have control, but we have the ability to exercise significant influence over operating and financial policies (generally 20% to 50% ownership), are accounted for using the equity method of accounting. Upon the sale of stock of a subsidiary, we recognize a gain or loss in our Consolidated Statements of Income equal to our proportionate share of the corresponding increase or decrease in that subsidiary’s equity. Operating results of acquired businesses are included in the Consolidated Statements of Income from the date of acquisition.

We consolidate variable interest entities if we are deemed to be the primary beneficiary of the entity. Operating results for variable interest entities in which we are determined to be the primary beneficiary are included in the Consolidated Statements of Income from the date such determination is made.

For convenience and ease of reference, we refer to the financial statement caption “Income from Continuing Operations before Income Taxes, Equity Income, Discontinued Operations and Cumulative Effect of Change in Accounting Principle” as “pre-tax income,” throughout the notes to the Consolidated Financial Statements.

Use of Estimates: The preparation of our Consolidated Financial Statements, in accordance with accounting principles generally accepted in the United States of America, requires that we make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates and assumptions are used for, but not limited to: (i) allocation of revenues and fair values in leases and other multiple-element arrangements; (ii) accounting for residual values; (iii) economic lives of leased assets; (iv) allowance for doubtful accounts; (v) inventory valuation; (vi) restructuring and related charges; (vii) asset impairments; (viii) depreciable lives of assets; (ix) useful lives of intangible assets; (x) pension and post-retirement benefit plans; (xi) income tax reserves and valuation allowances and (xii) contingency and litigation reserves. Future events and their effects cannot be predicted with certainty; accordingly, our accounting estimates require the exercise of judgment. The accounting estimates used in the preparation of our Consolidated Financial Statements will change as new events occur, as more experience is acquired, as additional information is obtained and as our operating environment changes. Actual results could differ from those estimates.

The following table summarizes certain significant charges that require management estimates:

(in millions)

Year Ended December 31,	2005	2004	2003
Restructuring provisions and asset impairments	\$366	\$ 86	\$ 176
Amortization of intangible assets	42	38	36
Provisions for receivables	51	86	224
Provisions for obsolete and excess inventory	56	73	78
Provisions for litigation and regulatory matters	115	9	242
Depreciation and obsolescence of equipment on operating leases	205	210	271
Depreciation of buildings and equipment	280	305	299
Amortization of capitalized software	114	134	143
Pension benefits – net periodic benefit cost	343	350	364
Other post-retirement benefits – net periodic benefit cost	117	111	108
Deferred tax asset valuation allowance provisions	(38)	12	(16)

Changes in Estimates: In the ordinary course of accounting for items discussed above, we make changes in estimates as appropriate, and as we become aware of circumstances surrounding those estimates. Such changes and refinements in estimation methodologies are reflected in reported results of operations in the period in which the changes are made and, if material, their effects are disclosed in the Notes to the Consolidated Financial Statements.

New Accounting Standards and Accounting Changes:

During the two years ended December 31, 2005, the Financial Accounting Standards Board (“FASB”) issued several pronouncements of significance to the Company which are discussed in detail below. In addition, the FASB issued several other pronouncements, including standards on inventory (SFAS No. 151 “Inventory Costs, an amendment of ARB 43, Chapter 4”), exchanges of nonmonetary assets (SFAS No. 153 “Exchanges of Nonmonetary Assets”) and accounting changes (SFAS No. 154 “Accounting Changes and Error Corrections”), which we either currently comply with or are not anticipating to have a significant impact on our future financial condition or results of operations.

In June 2005, the FASB issued Staff Position No. FAS 143-1, “Accounting for Electronic Equipment Waste Obligations” (“FSP 143-1”), which provided guidance on the accounting for obligations associated with the European Union (“EU”) Directive on Waste Electrical and Electronic Equipment (the “WEEE Directive”). FSP 143-1 provided guidance on how to account for the effects of the WEEE Directive with respect to historical waste and waste associated with products on the market on or before August 13, 2005. As of December 31, 2005, the WEEE Directive had been adopted into law by the EU member countries in which we have significant operations, with the exception of the United Kingdom. Accordingly, in 2005, we recorded an initial after-tax charge of \$18 (\$26 pre-tax) in Other expenses, net in the accompanying Consolidated Statement of Income representing the disposal obligation primarily related to our leased equipment population in service as of the date the EU member countries adopted the WEEE Directive. The adoption of the WEEE Directive by an EU member country created a legal disposal obligation and accordingly we are now required to accrue the cost of that obligation at the time the equipment is placed in service. We will be required to record a similar charge for the United Kingdom when it adopts the WEEE Directive, which is expected to be no more than \$10. The ongoing quarterly expense resulting from compliance with the WEEE Directive associated with our leased equipment will generally be charged to cost of sales when equipment is placed in service and is not expected to have a material effect on our financial condition or results of operations.

In March 2005, the FASB issued Interpretation No. 47, “Accounting for Conditional Asset Retirement Obligations – an interpretation of FASB Statement No. 143” (“FIN 47”). FIN 47 requires an entity to recognize a liability for the fair value of a conditional asset retirement obligation if the fair value can be reasonably estimated. A conditional asset retirement obligation is a legal obligation to perform an asset retirement activity in which the timing or method of settlement are conditional upon a future event that may or may not be within control of the entity. The adoption of FIN 47 in 2005 resulted in an after-tax charge of \$8 (\$12 pre-tax) and was recorded as a cumulative effect of change in accounting principle. This charge represents conditional asset retirement obligations associated with leased facilities where we are required to remove certain leasehold improvements and restore the facility to its original condition at lease termination. Previously, we recorded costs associated with this obligation upon lease termination when the costs were known. On a prospective basis, this accounting change requires recognition of these costs ratably over the lease term. We believe that the adoption of this interpretation will not have a material effect on our financial condition or results of operations. The pro forma effect of applying this guidance in all prior periods presented, as well as the effect on our Consolidated Balance Sheet, was not material.

Stock-Based Compensation: In December 2004, the FASB issued Statement of Financial Accounting Standards No. 123(R), “Share-Based Payment” (“FAS 123(R)”), an amendment of FAS No. 123, “Accounting for Stock-Based Compensation,” which requires companies to recognize compensation expense using a fair-value-based method for costs related to share-based payments, including stock options. As permitted by the SEC, the requirements of FAS 123(R) are effective for our fiscal year beginning January 1, 2006. Upon adoption, we will elect to apply the modified prospective transition method and therefore we will not restate the results of prior periods.

During May 2005, we approved the accelerated vesting of approximately 3.6 million unvested employee stock options granted in 2004, that would have been scheduled to vest January 1, 2007, to December 31, 2005. These accelerated options had a weighted average exercise price of \$13.71 as of the accelerated vesting date. The primary purpose of this accelerated vesting was to eliminate compensation expense we would recognize in our results of operations upon the adoption of FAS 123(R). The acceleration is expected to reduce our pre-tax stock option compensation expense in 2006 that otherwise would have been recognized by approximately \$31 or \$0.02 per diluted share and, accordingly, increase our 2005 pro forma expense disclosed below. After the effects of the accelerated vesting, the implementation of FAS 123(R) is expected to be immaterial. In addition, in 2005 in lieu of stock options, we began granting time- and performance-based restricted stock awards, which are already reflected as compensation expense in our results of operations. Therefore, the acceleration of vesting for substantially all previously awarded stock options effectively completes the transition to the new stock-based award program.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

FAS 123(R) also requires that the benefits of tax deductions in excess of recognized compensation cost be reported as a financing cash flow, rather than as an operating cash flow as required under current literature. This requirement will reduce net operating cash flows and increase net financing cash flows in periods after the effective date. While we can not estimate what those amounts will be in the future (because they depend on, among other things, when employees exercise stock options), the amount of operating cash flows recognized in 2005 for such excess tax deductions was \$12.

Pending the effective date of FAS 123(R), we do not recognize compensation expense relating to employee stock options because the exercise price is equal to the market price at the date of grant. If we had elected to recognize compensation expense using a fair-value approach, and therefore determined the compensation based on the value as determined by the modified Black-Scholes option pricing model, our pro forma income and income per share would have been as follows:

(in millions, except per-share data)	2005	2004	2003
Net income – as reported	\$ 978	\$ 859	\$ 360
Add: Stock-based employee compensation expense included in reported net income, net of tax	25	13	10
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of tax	(113)	(82)	(95)
Net income – pro forma	\$ 890	\$ 790	\$ 275
Basic EPS – as reported	\$0.96	\$0.94	\$0.38
Basic EPS – pro forma	0.87	0.86	0.27
Diluted EPS – as reported	\$0.94	\$0.86	\$0.36
Diluted EPS – pro forma	0.85	0.80	0.25

The pro forma periodic compensation expense amounts are not representative of future amounts, as we began granting employees restricted stock awards with time- and performance-based restrictions in 2005 in lieu of stock options. As reflected in the pro forma amounts in the previous table, the weighted-average fair value of options granted in 2004 and 2003 was \$8.38 and \$5.39, respectively. The fair values were estimated on the date of grant using the following weighted average assumptions:

	2004	2003
Risk-free interest rate	3.2%	3.3%
Expected life in years ⁽¹⁾	5.7	7.2
Expected price volatility	66.5%	66.2%
Expected dividend yield	–	–

⁽¹⁾ Options granted in 2004 expire eight years from date of grant, resulting in an expected life shorter than previous grants.

Refer to Note 18 – Common Stock for additional disclosures regarding our stock compensation programs.

Summary of Accounting Policies

Revenue Recognition: We generate revenue through the sale and rental of equipment, service and supplies and income associated with the financing of our equipment sales. Revenue is recognized when earned. More specifically, revenue related to sales of our products and services is recognized as follows:

Equipment: Revenues from the sale of equipment, including those from sales-type leases, are recognized at the time of sale or at the inception of the lease, as appropriate. For equipment sales that require us to install the product at the customer location, revenue is recognized when the equipment has been delivered to and installed at the customer location. Sales of customer-installable products are recognized upon shipment or receipt by the customer according to the customer's shipping terms. Revenues from equipment under other leases and similar arrangements are accounted for by the operating lease method and are recognized as earned over the lease term, which is generally on a straight-line basis.

Service: Service revenues are derived primarily from maintenance contracts on our equipment sold to customers and are recognized over the term of the contracts. A substantial portion of our products are sold with full-service maintenance agreements for which the customer typically pays a base service fee plus a variable amount based on usage. As a consequence, other than the product warranty obligations associated with certain of our low-end products in the Office segment, we do not have any significant product warranty obligations, including any obligations under customer satisfaction programs.

Revenues associated with outsourcing services as well as professional and value-added services are generally recognized as such services are performed. In those service arrangements where final acceptance of a system or solution by the customer is required, revenue is deferred until all acceptance criteria have been met. Costs associated with service arrangements are generally recognized as incurred. Initial direct costs of an arrangement are capitalized and amortized over the contractual service period. Long-lived assets used in the fulfillment of the arrangements are capitalized and depreciated over the shorter of their useful life or the term of the contract. Losses on service arrangements are recognized in the period that the contractual loss becomes probable and estimable.

Sales to Distributors and Resellers: We utilize distributors and resellers to sell certain of our products to end users. We refer to our distributor and reseller network as our two-tier distribution model. Sales to distributors and resellers are recognized as revenue when products are sold to such distributors and resellers, as long as all requirements for revenue recognition have been met. Distributors and resellers participate in various cooperative marketing and other programs, and we record provisions for these programs as a reduction to revenue when

the sales occur. We also similarly account for our estimates of sales returns and other allowances when the sales occur based on our historical experience.

Supplies: Supplies revenue generally is recognized upon shipment or utilization by customer in accordance with sales terms.

Revenue Recognition for Leases: Our accounting for leases involves specific determinations under SFAS No. 13, which often involve complex provisions and significant judgments. The two primary criteria of SFAS No. 13 which we use to classify transactions as sales-type or operating leases are (1) a review of the lease term to determine if it is equal to or greater than 75% of the economic life of the equipment and (2) a review of the present value of the minimum lease payments to determine if they are equal to or greater than 90% of the fair market value of the equipment at the inception of the lease. Our sales-type lease portfolios contain only normal credit and collection risks and have no important uncertainties with respect to future costs. Our leases in our Latin America operations have historically been recorded as operating leases, given the cancellability of the contract or because the recoverability of the lease investment is deemed not to be predictable at lease inception.

The critical elements that we consider with respect to our lease accounting are the determination of the economic life and the fair value of equipment, including the residual value. For purposes of determining the economic life, we consider the most objective measure to be the original contract term, since most equipment is returned by lessees at or near the end of the contracted term. The economic life of most of our products is five years, since this represents the most frequent contractual lease term for our principal products and only a small percentage of our leases have original terms longer than five years. There is no significant after-market for our used equipment. We believe that five years is representative of the period during which the equipment is expected to be economically usable, with normal service, for the purpose for which it is intended. We continually evaluate the economic life of both existing and newly introduced products for purposes of this determination. Residual values are established at lease inception using estimates of fair value at the end of the lease term. Our residual values are established with due consideration to forecasted supply and demand for our various products, product retirement and future product launch plans, end-of-lease customer behavior, remanufacturing strategies, competition and technological changes.

The vast majority of our leases that qualify as sales-type are non-cancelable and include cancellation penalties approximately equal to the full value of the lease receivables. A portion of our business involves sales to governmental units. Governmental units are those entities that have statutorily defined funding or annual budgets that are determined by their legislative bodies.

Certain of our governmental contracts may have cancellation provisions or renewal clauses that are required by law, such as 1) those dependant on fiscal funding outside of a governmental unit's control, 2) those that can be cancelled if deemed in the best interest of the governmental unit's taxpayers or 3) those that must be renewed each fiscal year, given limitations that may exist on entering into multi-year contracts that are imposed by statute. In these circumstances, we carefully evaluate these contracts to assess whether cancellation is remote because of the existence of substantive economic penalties upon cancellation or whether the renewal is reasonably assured due to the existence of a bargain renewal option. The evaluation of a lease agreement with a renewal option includes an assessment as to whether the renewal is reasonably assured based on the intent of such governmental unit and pricing terms as compared to those of short-term leases at lease inception. We further ensure that the contract provisions described above are offered only in instances where required by law. Where such contract terms are not legally required, we consider the arrangement to be cancelable and account for it as an operating lease.

Aside from the initial lease of equipment to our customers, we may enter subsequent transactions with the same customer whereby we extend the term. We evaluate the classification of lease extensions of sales-type leases using the originally determined economic life for each product. There may be instances where we enter into lease extensions for periods that are within the original economic life of the equipment. These are accounted for as sales-type leases only when the extensions occur in the last three months of the lease term and they otherwise meet the appropriate criteria of SFAS No. 13. All other lease extensions of this type are accounted for as direct financing leases or operating leases, as appropriate.

Revenue Recognition Under Bundled Arrangements: We sell most of our products and services under bundled lease arrangements, which typically include equipment, service, supplies and financing components for which the customer pays a single negotiated fixed minimum monthly payment for all elements over the contractual lease term. These arrangements typically also include an incremental, variable component for page volumes in excess of contractual page volume minimums, which are often expressed in terms of price per page. The fixed minimum monthly payments are multiplied by the number of months in the contract term to arrive at the total fixed minimum payments that the customer is obligated to make ("fixed payments") over the lease term. The payments associated with page volumes in excess of the minimums are contingent on whether or not such minimums are exceeded ("contingent payments"). The minimum contractual committed page volumes are typically negotiated to equal the customer's estimated page volume at lease inception. In applying our lease accounting methodology, we only consider the fixed payments for purposes of allocating to the relative fair-value elements of the contract. Contingent payments, if any, are inherently uncertain and therefore are recognized as revenue in the period when the customer exceeds the minimum copy volumes specified in the contract.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

Revenues under bundled arrangements are allocated considering the relative fair values of the lease and non-lease deliverables included in the bundled arrangement based upon the estimated relative fair values of each element. Lease deliverables include maintenance and executory costs, equipment and financing, while non-lease deliverables generally consist of the supplies and non-maintenance services. Our revenue allocation for the lease deliverables begins by allocating revenues to the maintenance and executory costs plus profit thereon. The remaining amounts are allocated to the equipment and financing elements. We perform extensive analyses of available verifiable objective evidence of equipment fair value based on cash selling prices during the applicable period. The cash selling prices are compared to the range of values included in our lease accounting systems. The range of cash selling prices must be reasonably consistent with the lease selling prices, taking into account residual values that accrue to our benefit, in order for us to determine that such lease prices are indicative of fair value. Our pricing interest rates, which are used to determine customer lease payments, are developed based upon a variety of factors including local prevailing rates in the marketplace and the customer's credit history, industry and credit class. Effective in 2004, our pricing rates are reassessed quarterly based on changes in local prevailing rates in the marketplace and are adjusted to the extent such rates vary by twenty-five basis points or more, cumulatively, from the last rate in effect. The pricing interest rates generally equal the implicit rates within the leases, as corroborated by our comparisons of cash to lease selling prices.

Cash and Cash Equivalents: Cash and cash equivalents consist of cash on hand, including money-market funds, and investments with original maturities of three months or less.

Restricted Cash and Investments: Several of our secured financing arrangements and derivative contracts, as well as other material contracts, require us to post cash collateral or maintain minimum cash balances in escrow. These cash amounts are reported in our Consolidated Balance Sheets, depending on when the cash will be contractually released. At December 31, 2005 and 2004, such restricted cash amounts were as follows (in millions):

December 31,	2005	2004
Escrow and cash collections related to secured borrowing arrangements	\$ 254	\$ 372
Collateral related to risk management arrangements	43	61
Other restricted cash	149	97
Total	\$ 446	\$ 530

Of these amounts, \$270 and \$370 were included in Other current assets and \$176 and \$160 were included in Other long-term assets, as of December 31, 2005 and 2004, respectively.

Provisions for Losses on Uncollectible Receivables: The provisions for losses on uncollectible trade and finance receivables are determined principally on the basis of past collection experience applied to ongoing evaluations of our receivables and evaluations of the default risks of repayment. Allowances for doubtful accounts on accounts receivable balances were \$136 and \$183, as of December 31, 2005 and 2004, respectively. Allowances for doubtful accounts on finance receivables were \$229 and \$276 at December 31, 2005 and 2004, respectively.

Inventories: Inventories are carried at the lower of average cost or market. Inventories also include equipment that is returned at the end of the lease term. Returned equipment is recorded at the lower of remaining net book value or salvage value. Salvage value consists of the estimated market value (generally determined based on replacement cost) of the salvageable component parts, which are expected to be used in the remanufacturing process. We regularly review inventory quantities and record a provision for excess and/or obsolete inventory based primarily on our estimated forecast of product demand, production requirements and servicing commitments. Several factors may influence the realizability of our inventories, including our decision to exit a product line, technological changes and new product development. The provision for excess and/or obsolete raw materials and equipment inventories is based primarily on near-term forecasts of product demand and include consideration of new product introductions as well as changes in remanufacturing strategies. The provision for excess and/or obsolete service parts inventory is based primarily on projected servicing requirements over the life of the related equipment populations.

Land, Buildings and Equipment and Equipment on Operating Leases: Land, buildings and equipment are recorded at cost. Buildings and equipment are depreciated over their estimated useful lives. Leasehold improvements are depreciated over the shorter of the lease term or the estimated useful life. Equipment on operating leases is depreciated to estimated residual value over the lease term. Depreciation is computed using the straight-line method. Significant improvements are capitalized and maintenance and repairs are expensed. Refer to Notes 5 and 6 for further discussion.

Goodwill and Other Intangible Assets: Goodwill is tested for impairment annually or more frequently if an event or circumstance indicates that an impairment loss may have been incurred. Application of the goodwill impairment test requires judgment, including the identification of reporting units, assignment of assets and liabilities to reporting units, assignment of goodwill to reporting units, and determination of the fair value of each reporting unit. We estimate the fair value of each reporting unit using a discounted cash flow methodology. This requires us to use significant judgment including estimation of future cash flows, which is dependent on internal forecasts, estimation of the long-term rate of growth for our business, the useful life over which cash flows will occur, determination of our weighted average cost of capital, and relevant market data.

Other intangible assets primarily consist of assets obtained in connection with business acquisitions, including installed customer base and distribution network relationships, patents on existing technology and trademarks. We apply an impairment evaluation whenever events or changes in business circumstances indicate that the carry value of our intangible assets may not be recoverable. Other intangible assets are amortized on a straight-line basis over their estimated economic lives. The straight-line method of amortization reflects an appropriate allocation of the cost of the intangible assets to earnings in proportion to the amount of economic benefits obtained annually by the Company.

Impairment of Long-Lived Assets: We review the recoverability of our long-lived assets, including buildings, equipment, internal-use software and other intangible assets, when events or changes in circumstances occur that indicate that the carrying value of the asset may not be recoverable. The assessment of possible impairment is based on our ability to recover the carrying value of the asset from the expected future pre-tax cash flows (undiscounted and without interest charges) of the related operations. If these cash flows are less than the carrying value of such asset, an impairment loss is recognized for the difference between estimated fair value and carrying value. Our primary measure of fair value is based on discounted cash flows. The measurement of impairment requires management to make estimates of these cash flows related to long-lived assets, as well as other fair value determinations.

Treasury Stock: We account for repurchased common stock under the cost method and include such Treasury stock as a component of our Common shareholders' equity. Retirement of Treasury stock is recorded as a reduction of Common stock and Additional paid-in-capital.

Research and Development Expenses: Research and development costs are expensed as incurred.

Restructuring Charges: Costs associated with exit or disposed activities, including lease termination costs and certain employee severance costs associated with restructuring, plant closing or other activity, are recognized when they are incurred. In those geographies where we have either a formal severance plan or a history of consistently providing severance benefits representing a substantive plan, we recognize severance costs when they are both probable and reasonably estimable.

Pension and Post-retirement Benefit Obligations: We sponsor pension plans in various forms in several countries covering substantially all employees who meet eligibility requirements. Post-retirement benefit plans cover primarily U.S. employees for retirement medical costs. As permitted by existing accounting rules, we employ a delayed recognition feature in measuring the costs and obligations of pension and post-retirement benefit plans. This requires changes in the benefit obligations and

changes in the value of assets set aside to meet those obligations to be recognized not as they occur, but systematically and gradually over subsequent periods. All changes are ultimately recognized, except to the extent they may be offset by subsequent changes. At any point, changes that have been identified and quantified await subsequent accounting recognition as net cost components and as liabilities or assets.

Several statistical and other factors that attempt to anticipate future events are used in calculating the expense, liability and asset values related to our pension and post-retirement benefit plans. These factors include assumptions we make about the discount rate, expected return on plan assets, rate of increase in healthcare costs, the rate of future compensation increases, and mortality, among others. Actual returns on plan assets are not immediately recognized in our income statement, due to the delayed recognition requirement. In calculating the expected return on the plan asset component of our net periodic pension cost, we apply our estimate of the long-term rate of return to the plan assets that support our pension obligations, after deducting assets that are specifically allocated to Transitional Retirement Accounts (which are accounted for based on specific plan terms).

For purposes of determining the expected return on plan assets, we utilize a calculated value approach in determining the value of the pension plan assets, as opposed to a fair market value approach. The primary difference between the two methods relates to systematic recognition of changes in fair value over time (generally two years) versus immediate recognition of changes in fair value. Our expected rate of return on plan assets is then applied to the calculated asset value to determine the amount of the expected return on plan assets to be used in the determination of the net periodic pension cost. The calculated value approach reduces the volatility in net periodic pension cost that results from using the fair market value approach.

The difference between the actual return on plan assets and the expected return on plan assets is added to, or subtracted from, any cumulative differences that arose in prior years. This amount is a component of the unrecognized net actuarial (gain) loss and is subject to amortization to net periodic pension cost over the remaining service lives of the employees participating in the pension plan.

The discount rate is used to present-value our future anticipated benefit obligations. In estimating our discount rate, we consider rates of return on high-quality fixed-income investments included in various published bond indexes, adjusted to eliminate the effects of call provisions and differences in the timing and amounts of cash outflows related to the bonds, as well as the expected timing of pension and other benefit payments. In the U.S. and the U.K., which comprise approximately 81% of our projected benefit obligation, we consider the Moody's Aa Corporate Bond Index and the International Index Company's iBoxx Sterling Corporates AA Cash Bond Index, respectively, in the determination of the appropriate discount rate assumptions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

Foreign Currency Translation: The functional currency for most foreign operations is the local currency. Net assets are translated at current rates of exchange, and income, expense and cash flow items are translated at average exchange rates for the applicable period. The translation adjustments are recorded in Accumulated other comprehensive loss. The U.S. dollar is used as the functional currency for certain subsidiaries that conduct their business in U.S. dollars or operate in hyperinflationary economies. A combination of current and historical exchange rates is used in remeasuring the local currency transactions of these subsidiaries and the resulting exchange adjustments are included in income. Aggregate foreign currency losses were \$5, \$73 and \$11 in 2005, 2004 and 2003, respectively, and are included in Other expenses, net in the accompanying Consolidated Statements of Income.

Note 2 – Segment Reporting

Our reportable segments are consistent with how we manage the business and view the markets we serve. Our reportable segments are Production, Office, Developing Markets Operations (“DMO”) and Other. The Production and Office segments are centered around strategic product groups which share common technology, manufacturing and product platforms, as well as classes of customers. During 2005, we implemented a new financial reporting system which has enabled greater efficiencies in financial reporting and provides enhanced analytical capabilities including activity-based cost analysis on shared services and internal cost allocations. We have used the new financial reporting system to make changes in the allocation of certain segment costs and expenses, including a reallocation of costs associated with corporate and certain shared service functions. These changes did not involve a change in the composition of our reportable segments and did not impact segment revenue. We have reclassified prior-period amounts to conform to the current period’s presentation. The following table illustrates the impact of these changes on annual segment operating profit for 2004 and 2003 (in millions):

Operating Profit

Years Ended	2004	2003
Production	\$123	\$ 65
Office	(19)	48
DMO	(8)	–
Other	(96)	(113)
Total	\$ –	\$ –

The Production segment includes black and white products which operate at speeds over 90 pages per minute (“ppm”) and color products which operate at speeds over 40 ppm, excluding 50 ppm products with an embedded controller. Products include the Xerox iGen3 digital color production press, Nuvera, DocuTech, DocuPrint, Xerox 2101 and DocuColor families, as well as older technology light-lens products. These products are sold predominantly through direct sales channels in North America and Europe to Fortune 1000, graphic arts, government, education and other public sector customers.

The Office segment includes black and white products which operate at speeds up to 90 ppm and color devices, up to 40 ppm, as well as 50 ppm color devices with an embedded controller. Products include the suite of CopyCentre, WorkCentre and WorkCentre Pro digital multifunction systems, DocuColor color multifunction products, color laser, solid ink color printers and multifunction devices, monochrome laser desktop printers, digital and light-lens copiers and facsimile products. These products are sold through direct and indirect sales channels in North America and Europe to global, national and mid-size commercial customers as well as government, education and other public sector customers.

The DMO segment includes our operations in Latin America, Central and Eastern Europe, the Middle East, India, Eurasia, Russia and Africa. This segment’s sales consist of office and production including a large proportion of office devices and printers which operate at speeds of 11-30 ppm. Management serves and evaluates these markets on an aggregate geographic basis, rather than on a product basis.

The segment classified as Other includes several units, none of which met the thresholds for separate segment reporting. This group primarily includes Xerox Supplies Business Group (predominantly paper), Small Office/Home Office (“SOHO”), Wide Format Systems, Xerox Technology Enterprises and value-added services, royalty and license revenues. Other segment profit (loss) includes the operating results from these entities, other less significant businesses, our equity income from Fuji Xerox, and certain costs which have not been allocated to the Production, Office and DMO segments, including non-financing interest as well as other items included in Other (income) expenses, net.

Selected financial information for our operating segments for each of the years ended December 31, 2005, 2004 and 2003, respectively, was as follows (in millions):

	Production	Office	DMO	Other	Total
2005 ⁽¹⁾					
Information about profit or loss:					
Revenues	\$ 4,198	\$ 7,106	\$ 1,803	\$ 1,719	\$ 14,826
Finance income	342	512	9	12	875
Total Segment revenues	\$ 4,540	\$ 7,618	\$ 1,812	\$ 1,731	\$ 15,701
Interest expense ⁽²⁾	\$ 121	\$ 179	\$ 8	\$ 249	\$ 557
Segment profit (loss) ⁽³⁾	427	819	64	151	1,461
Equity in net income of unconsolidated affiliates	–	–	4	94	98
2004 ⁽¹⁾					
Information about profit or loss:					
Revenues	\$ 4,238	\$ 7,075	\$ 1,697	\$ 1,778	\$ 14,788
Finance income	352	552	10	20	934
Total Segment revenues	\$ 4,590	\$ 7,627	\$ 1,707	\$ 1,798	\$ 15,722
Interest expense ⁽²⁾	\$ 114	\$ 176	\$ 12	\$ 406	\$ 708
Segment profit (loss) ⁽³⁾	511	779	35	(125)	1,200
Equity in net income of unconsolidated affiliates	–	–	3	148	151
2003 ⁽¹⁾					
Information about profit or loss:					
Revenues	\$ 4,131	\$ 7,048	\$ 1,751	\$ 1,774	\$ 14,704
Finance income	376	594	12	15	997
Total Segment revenues	\$ 4,507	\$ 7,642	\$ 1,763	\$ 1,789	\$ 15,701
Interest expense ⁽²⁾	\$ 120	\$ 197	\$ 34	\$ 533	\$ 884
Segment profit (loss) ⁽³⁾	466	790	172	(440)	988
Equity in net income of unconsolidated affiliates	–	1	6	51	58

⁽¹⁾ Asset information on a segment basis is not disclosed, as this information is not separately identified and internally reported to our chief executive officer.

⁽²⁾ Interest expense includes equipment financing interest as well as non-financing interest, which is a component of Other expenses, net.

⁽³⁾ Depreciation and amortization expense is recorded in cost of sales, research, development and engineering expenses and selling, administrative and general expenses and is included in the segment profit (loss) above. This information is neither identified nor internally reported to our chief executive officer. The separate identification of this information for purposes of segment disclosure is impracticable, as it is not readily available and the cost to develop it would be excessive.

The following is a reconciliation of segment profit to pre-tax income (in millions):

Years Ended December 31,	2005	2004	2003
Total Segment profit	\$ 1,461	\$ 1,200	\$ 988
Unallocated items:			
Restructuring and asset impairment charges	(366)	(86)	(176)
Provisions for certain litigation matters ⁽¹⁾	(114)	–	(239)
Initial provision for WEEE Directive (“FSP 143-1”) ⁽²⁾	(26)	–	–
Losses from Hurricane Katrina	(15)	–	–
2002 credit facility fee write-off	–	–	(73)
Other expenses, net	(12)	2	(6)
Allocated item:			
Equity in net income of unconsolidated affiliates	(98)	(151)	(58)
Pre-tax income	\$ 830	\$ 965	\$ 436

⁽¹⁾ 2005 provision for litigation includes \$102 related to MPI arbitration panel ruling, including \$13 for interest expense, and \$12 related to other legal matters.

Refer to Note 16 – Contingencies for further discussion. The 2003 provision for litigation includes the \$239 charge related to the court, approved settlement of the Berger v. RIGP litigation discussed in Note 14 – Employee Benefit Plans.

⁽²⁾ See Note 1 – “New Accounting Standards and Accounting Changes” for discussion of this charge.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

Geographic area data was as follows:

(in millions)	Revenues			Long-Lived Assets ⁽¹⁾		
	2005	2004	2003	2005	2004	2003
United States	\$ 8,388	\$ 8,346	\$ 8,547	\$ 1,386	\$ 1,427	\$ 1,477
Europe	5,226	5,281	4,863	500	585	616
Other Areas	2,087	2,095	2,291	386	434	460
Total	\$ 15,701	\$ 15,722	\$ 15,701	\$ 2,272	\$ 2,446	\$ 2,553

⁽¹⁾ Long-lived assets are comprised of (i) land, buildings and equipment, net, (ii) equipment on operating leases, net, (iii) internal use software, net and (iv) capitalized software costs, net.

Note 3 – Short-Term Investments

As of December 31, 2005, we held \$244 in marketable securities that are classified within Short-term investments in our Consolidated Balance Sheets. These securities are considered available-for-sale and are carried at fair value based on quoted market prices. Unrealized gains and losses, net of taxes, are recorded within Accumulated other comprehensive loss, a

component of Common shareholders' equity. The purchases of Short-term investments for the year-ending December 31, 2005 were \$386, including \$2 of premiums which are amortized as an offset to Interest income over the remaining term of the investments. The cost of securities sold is based on the specific identification method. Proceeds from sales of Short-term investments for the year ended December 31, 2005 were \$139. No gains or losses were realized on these sales.

The following table summarizes the fair market values and unrealized losses of our Short-term investments as of December 31, 2005 (in millions):

Description of Securities	Maturities Less Than 12 Months		Maturities 12 Months or Greater		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Corporate bonds	\$ 93	\$ –	\$ 51	\$ 1	\$144	\$ 1
Auction rate municipal bonds	–	–	45	–	45	–
U.S. government agency securities	13	–	19	–	32	–
Total Debt Securities	\$106	\$ –	\$115	\$ 1	\$221	\$ 1
Auction rate preferred securities					23	–
Total Short-term investments					\$244	\$ 1

The contractual maturities of the available-for-sale debt securities at December 31, 2005 are shown to the right. Expected maturities will differ from contractual maturities because borrowers may have the right to prepay and creditors may have the right to call obligations. These securities are classified within current assets because they are highly liquid, traded in active markets and are available for use, if needed, for current operations.

(in millions)	Fair Value
Debt Securities:	
Due in 1 year or less	\$106
Due after 1 year through 5 years	70
Due after 5 years through 10 years	–
Due after 10 years	45
Total Debt Securities	\$221
Auction rate preferred securities	23
Total Short-term investments	\$244

On an ongoing basis, we evaluate our investments to determine if a decline in fair value is other-than-temporary. In this determination, we consider the duration that, and extent to which, market value is below original cost, our intent and ability to hold to recovery and the financial health of the issuer.

Note 4 – Receivables, Net

Finance Receivables: Finance receivables result from installment arrangements and sales-type leases arising from the marketing of our equipment. These receivables are typically collateralized by a security interest in the underlying assets. Finance receivables, net at December 31, 2005 and 2004 were as follows (in millions):

	2005	2004
Gross receivables	\$ 9,449	\$10,267
Unearned income	(1,458)	(1,619)
Unguaranteed residual values	87	125
Allowance for doubtful accounts	(229)	(276)
Finance receivables, net	7,849	8,497
Less: Billed portion of finance receivables, net	(296)	(377)
Current portion of finance receivables not billed, net	(2,604)	(2,932)
Amounts due after one year, net	\$ 4,949	\$ 5,188

Contractual maturities of our gross finance receivables subsequent to December 31, 2005 were as follows (including those already billed of \$296) (in millions):

2006	2007	2008	2009	2010	There- after	Total
\$3,633	\$2,590	\$1,812	\$1,004	\$371	\$39	\$9,449

Secured Funding Arrangements

GE Secured Borrowings: We have an agreement in the U.S. (the “Loan Agreement”) under which GE Vendor Financial Services, a subsidiary of GE, is our primary third-party equipment financing provider, through the funding of loans secured by new lease originations. The maximum potential level of borrowing under the Loan Agreement is a function of the size of the portfolio of finance receivables generated by us that meet GE’s funding requirements and cannot exceed \$5 billion in any event. In October 2005, we renegotiated the Loan Agreement, resulting in a reduction in applicable interest rates and the elimination of the monthly borrowing requirement. The interest rate reduction is applicable to existing and new loans.

Under this agreement, GE funds a significant portion of new U.S. lease originations at over-collateralization rates, which vary over time, but are expected to approximate 10% at the inception of each funding. The secured loans are subject to interest rates calculated at each loan funding at yield rates consistent with average rates for similar market-based transactions as well as our current debt ratings. Refer to Note 11 for further information on interest rates. New lease originations, including the bundled service and supply elements, are transferred to a wholly owned consolidated subsidiary which receives funding from GE.

The funds received under this agreement are recorded as secured borrowings and together with the associated lease receivables are included in our Consolidated Balance Sheet. We and GE intend the transfers of the lease contracts to be “true sales at law” and that the wholly owned consolidated subsidiary be bankruptcy remote and have received opinions to that effect from outside legal counsel. As a result, the transferred receivables are not available to satisfy any of our other obligations. GE’s funding commitment is not subject to our credit ratings. There are no credit rating defaults that could impair future funding under this agreement. This agreement contains cross-default provisions related to certain financial covenants contained in the 2003 Credit Facility and other significant debt facilities. Any cross-default would impair our ability to receive subsequent funding until the default was cured or waived but does not accelerate previous borrowings except in the case of bankruptcy. However, in the event of a default, we could be replaced as the maintenance service provider for the associated equipment under lease.

We have similar long-term lease funding arrangements with GE in both the U.K. and Canada. These agreements contain similar terms and conditions as those contained in the U.S. Loan Agreement with respect to funding conditions and covenants. The final funding date for all facilities is currently December 2010.

France Secured Borrowings: In July 2003, we securitized \$443 of receivables in France using a three-year public secured financing arrangement. The funds received in connection with this agreement were recorded as secured borrowings. In September 2005, we repaid the remaining balance associated with this arrangement of \$47. We also have an ongoing warehouse financing facility in France with Merrill Lynch to fund new lease originations. In October 2005, we amended this agreement resulting in an increase in the size of the facility from €350 million to €420 million (\$414 to \$497 as of December 31, 2005), lower applicable interest rates and an extension for an additional two years at our option from the current expiration date of July 2007.

The DLL Secured Borrowings: In 2002, we formed a joint venture with De Lage Landen Bank (“the DLL Joint Venture”) which became our primary equipment financing provider for new lease originations in the Netherlands through fundings from De Lage Landen Bank. In 2003, the DLL Joint Venture was expanded to include the leasing operations in Belgium and Spain. Our DLL Joint Venture is consolidated, as we are deemed to be the primary beneficiary of the Joint Venture’s financial results (Refer to Note 1 – “Basis of Consolidation”). In September 2005, we completed a transaction with our DLL Joint Venture to purchase De Lage Landen Bank’s 51% ownership interest in the Belgium and Spain leasing operations. In connection with the purchase, the secured borrowings from De Lage Landen Bank to these operations of \$120 were repaid and the related finance receivables are no longer encumbered. Other than the repayment of the secured debt, the effects from this transaction were immaterial.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

The following table shows finance receivables and related secured debt as of December 31, 2005 and 2004:

(in millions, unless otherwise indicated)	Facility Amount	Maximum Facility Amount ⁽¹⁾	December 31, 2005		December 31, 2004	
			Finance Receivables	Secured Debt	Finance Receivables	Secured Debt
Finance Receivables Encumbered by Loans:						
GE secured loans:						
GE Loans – U.S.	\$5 billion	\$8 billion	\$ 1,888	\$ 1,701	\$ 2,711	\$ 2,486
GE Loans – U.K.	£400 million (U.S. \$690)	£600 million (U.S. \$1.0 billion)	637	581	771	685
GE Loans – Canada	Cdn. \$850 million (U.S. \$730)	Cdn. \$2 billion (U.S. \$1.7 billion)	258	174	486	426
Total GE Encumbered finance receivables, net			2,783	2,456	3,968	3,597
Merrill Lynch Loan – France	€420 million (U.S. \$497)	€420 million (U.S. \$497)	430	342	368	287
Asset-backed notes – France	N/A	N/A	–	–	225	148
DLL – Netherlands	N/A	N/A	216	184	436	404
Total Encumbered finance receivables, net			3,429	\$ 2,982	4,997	\$ 4,436
Unencumbered finance receivables, net			4,420		3,500	
Total Finance receivables, net ⁽²⁾			\$ 7,849		\$ 8,497	

⁽¹⁾ Subject to mutual agreement by the parties.

⁽²⁾ Includes (i) billed portion of finance receivables, net (ii) finance receivables, net and (iii) finance receivables due after one year, net as included in the Consolidated Balance Sheets as of December 31, 2005 and 2004.

As of December 31, 2005, \$3,429 of Finance receivables, net are held as collateral in various entities, as security for the borrowings noted above. Total outstanding debt secured by these receivables at December 31, 2005 was \$2,982. The entities are consolidated in our financial statements. Although the transferred assets are included in our total assets, the assets of the entities are not available to satisfy any of our other obligations. We also have arrangements in Germany, Italy, the Nordic countries, Brazil and Mexico in which third-party financial institutions originate lease contracts directly with our customers. In these transactions, we sell and transfer title of the equipment to these financial institutions and have no continuing ownership rights in the leased equipment subsequent to its sale.

Accounts Receivable Funding Arrangement: In 2004, we completed a transaction with GE for a three-year \$400 revolving credit facility secured by our U.S. accounts receivable. This arrangement is being accounted for as a secured borrowing within our Consolidated Balance Sheets. Secured accounts receivables and related debt associated with this arrangement as of December 31, 2005 and 2004 were as follows (in millions):

	2005	2004
Secured accounts receivable, net	\$313	\$354
Secured debt	\$178	\$200

Note 5 – Inventories and Equipment on Operating Leases, Net

Inventories at December 31, 2005 and 2004 were as follows (in millions):

	2005	2004
Finished goods	\$ 956	\$ 895
Work-in-process	99	65
Raw materials	146	183
Total Inventories	\$1,201	\$1,143

Equipment on operating leases and similar arrangements consists of our equipment rented to customers and depreciated to estimated salvage value at the end of the lease term. The transfer of equipment from our inventories to equipment subject to an operating lease is presented in our Consolidated Statements of Cash Flows in the operating activities section as a non-cash adjustment. We recorded \$56, \$73 and \$78 in inventory write-down charges for the years ended December 31, 2005, 2004 and 2003, respectively. Equipment on operating leases and the related accumulated depreciation at December 31, 2005 and 2004 were as follows (in millions):

	2005	2004
Equipment on operating leases	\$1,262	\$1,649
Less: Accumulated depreciation	(831)	(1,251)
Equipment on operating leases, net	\$ 431	\$ 398

Depreciable lives generally vary from three to four years consistent with our planned and historical usage of the equipment subject to operating leases. Depreciation and obsolescence expense was \$205, \$210 and \$271 for the years ended December 31, 2005, 2004 and 2003, respectively. Our equipment operating lease terms vary, generally from 12 to 36 months. Scheduled minimum future rental revenues on operating leases with original terms of one year or longer are (in millions):

2006	2007	2008	2009	2010	Thereafter
\$386	\$212	\$130	\$60	\$27	\$4

Total contingent rentals on operating leases, consisting principally of usage charges in excess of minimum contracted amounts, for the years ended December 31, 2005, 2004 and 2003 amounted to \$136, \$137 and \$235, respectively.

Note 6 – Land, Buildings and Equipment, Net

Land, buildings and equipment, net at December 31, 2005 and 2004 were as follows (in millions):

	Estimated Useful Lives (Years)	2005	2004
Land		\$ 51	\$ 53
Buildings and building equipment	25 to 50	1,163	1,167
Leasehold improvements	Varies	326	313
Plant machinery	5 to 12	1,637	1,667
Office furniture and equipment	3 to 15	967	1,072
Other	4 to 20	76	74
Construction in progress		83	96
Subtotal		4,303	4,442
Less: Accumulated depreciation		(2,676)	(2,683)
Land, buildings and equipment, net		\$ 1,627	\$ 1,759

Depreciation expense was \$280, \$305 and \$299 for the years ended December 31, 2005, 2004 and 2003, respectively. We lease certain land, buildings and equipment, substantially all of which are accounted for as operating leases. Total rent expense under operating leases for the years ended December 31, 2005, 2004 and 2003 amounted to \$267, \$316, and \$287, respectively. Future minimum operating lease commitments that have remaining non-cancelable lease terms in excess of one year at December 31, 2005 were as follows (in millions):

2006	2007	2008	2009	2010	Thereafter
\$197	\$165	\$124	\$102	\$90	\$197

In certain circumstances, we sublease space not currently required in operations. Future minimum sublease income under leases with non-cancelable terms in excess of one year amounted to \$14 at December 31, 2005.

We have an information technology contract with Electronic Data Systems Corp. (“EDS”) through June 30, 2009. Services to be provided under this contract include support of global mainframe system processing, application maintenance, desktop and helpdesk support, voice and data network management and server management. There are no minimum payments due EDS under the contract. Payments to EDS, which are primarily recorded in selling, administrative and general expenses, were \$305, \$328 and \$340 for the years ended December 31, 2005, 2004 and 2003, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

In December 2003, STHQ Realty LLC was formed to finance the acquisition of the Company's headquarters in Stamford, Connecticut. While the assets and liabilities of this special-purpose entity are included in the Company's Consolidated Financial Statements, STHQ Realty LLC is a bankruptcy remote separate legal entity. As a result, its assets of \$42 at December 31, 2005, are not available to satisfy the debts and other obligations of the Company.

Note 7 – Investments in Affiliates, at Equity

Investments in corporate joint ventures and other companies in which we generally have a 20% to 50% ownership interest at December 31, 2005 and 2004 were as follows (in millions):

	2005	2004
Fuji Xerox ⁽¹⁾	\$725	\$772
Investment in subsidiary trusts issuing preferred securities	42	39
Other investments	15	34
Investments in affiliates, at equity	\$782	\$845

⁽¹⁾ Fuji Xerox is headquartered in Tokyo and operates in Japan, China, Australia, New Zealand and other areas of the Pacific Rim. Our investment in Fuji Xerox of \$725 at December 31, 2005, differs from our implied 25% interest in the underlying net assets, or \$811, due primarily to our deferral of gains resulting from sales of assets by us to Fuji Xerox, partially offset by goodwill related to the Fuji Xerox investment established at the time we acquired our remaining 20% of Xerox Limited from The Rank Group plc. Such gains would only be recognized if Fuji Xerox sold a portion of the assets we previously sold to it or if we were to sell a portion of our current ownership interest in Fuji Xerox.

Our equity in net income of our unconsolidated affiliates for the three years ended December 31, 2005 was as follows (in millions):

	2005	2004	2003
Fuji Xerox	\$90	\$134	\$41
Other investments	8	17	17
Total	\$98	\$151	\$58

Equity in net income of Fuji Xerox is affected by certain adjustments to reflect the deferral of profit associated with intercompany sales. These adjustments may result in recorded equity income that is different from that implied by our 25% ownership interest.

Equity income for 2004 included \$38 related to our share of a pension settlement gain recorded by Fuji Xerox subsequent to a transfer of a portion of their pension obligation to the Japanese government, in accordance with the Japan Welfare Pension Insurance Law.

Condensed financial data of Fuji Xerox for the three calendar years ended December 31, 2005 was as follows (in millions):

	2005	2004	2003
Summary of Operations:			
Revenues	\$10,009	\$9,450	\$8,430
Costs and expenses	9,406	8,595	8,011
Income before income taxes	603	855	419
Income taxes	215	331	194
Minorities' interests	8	18	34
Net income	\$ 380	\$ 506	\$ 191
Balance Sheet Data:			
Assets:			
Current assets	\$ 3,454	\$ 3,613	\$ 3,273
Long-term assets	4,168	4,606	4,766
Total Assets	\$ 7,622	\$ 8,219	\$ 8,039
Liabilities and Shareholders' Equity:			
Current liabilities	\$ 2,991	\$ 2,757	\$ 2,594
Long-term debt	434	616	443
Other long-term liabilities	936	1,383	2,391
Minorities' interests in equity of subsidiaries	17	104	118
Shareholders' equity	3,244	3,359	2,493
Total Liabilities and Shareholders' Equity	\$ 7,622	\$ 8,219	\$ 8,039

In 2005, 2004 and 2003, we received dividends of \$38, \$50 and \$20, respectively, which were reflected as a reduction in our investment. Additionally, we have a technology agreement with Fuji Xerox whereby we receive royalty payments for their use of our Xerox brand trademark, as well as rights to access their patent portfolio in exchange for access to our patent portfolio. In 2005, 2004 and 2003, we earned royalty revenues under this agreement of \$123, \$119 and \$110, respectively, which are included in Service, outsourcing and rental revenues in the Consolidated Statements of Income. We also have arrangements with Fuji Xerox whereby we purchase inventory from and sell inventory to Fuji Xerox. Pricing of the transactions under these arrangements is based upon negotiations conducted at arm's length. Certain of these inventory purchases and sales are the result of mutual research and development arrangements.

Our purchase commitments with Fuji Xerox are in the normal course of business and typically have a lead time of three months. Purchases from and sales to Fuji Xerox for the three years ended December 31, 2005 were as follows (in millions):

	2005	2004	2003
Sales	\$ 163	\$ 166	\$149
Purchases	\$1,517	\$1,135	\$871

In addition to the payments described above, in 2005, 2004 and 2003, we paid Fuji Xerox \$28, \$27 and \$33, respectively, and Fuji Xerox paid us \$9 in each of the three years ended 2005, respectively, for unique research and development. As of December 31, 2005 and 2004, amounts due to Fuji Xerox were \$157 and \$155, respectively.

Note 8 – Goodwill and Intangible Assets, Net

Goodwill:

The carrying amount of goodwill was \$1,671, \$1,848 and \$1,722, for the three years ended December 31, 2005. The only changes in goodwill for each of the three years ended December 31, 2005 related to foreign currency translation adjustments of \$(177), \$132 and \$158, respectively, as well as a \$6 other charge that was incurred in the Other segment in 2004. The following table presents the carrying amount of goodwill, by operating segment, as of December 31, 2005 and 2004, respectively (in millions):

	Production	Office	DMO	Other	Total
Balance as of December 31, 2005	\$745	\$807	\$ –	\$119	\$1,671
Balance as of December 31, 2004	848	881	–	119	1,848

Intangible Assets, Net:

Intangible assets primarily relate to the Office operating segment. Intangible assets were comprised of the following as of December 31, 2005 and 2004 (in millions):

	Weighted Average Amortization Period	As of December 31, 2005			As of December 31, 2004		
		Gross Carrying Amount	Accumulated Amortization	Net Amount	Gross Carrying Amount	Accumulated Amortization	Net Amount
Installed customer base	17 years	\$226	\$ 72	\$154	\$218	\$ 58	\$160
Distribution network	25 years	123	30	93	123	25	98
Existing technology	7 years	105	89	16	105	74	31
Licensed technology	7 years	28	5	23	28	1	27
Trademarks	7 years	23	20	3	23	15	8
		\$505	\$216	\$289	\$497	\$173	\$324

Amortization expense related to intangible assets was \$42, \$38, and \$36 for the years ended December 31, 2005, 2004 and 2003, respectively, and is expected to approximate \$40 in 2006 and approximate \$22 annually from 2007 through 2010. Amortization expense is primarily recorded in Other expenses, net, with the exception of amortization expense associated with licensed technology, which is recorded in Cost of sales and Cost of service, outsourcing and rentals, as appropriate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

Note 9 – Restructuring Programs

We have engaged in a series of restructuring programs related to downsizing our employee base, exiting certain activities, outsourcing certain internal functions and engaging in other actions designed to reduce our cost structure and improve productivity. Management continues to evaluate our business

and, therefore, there may be supplemental provisions for new plan initiatives as well as changes in estimates to amounts previously recorded, as payments are made or actions are completed. Asset impairment charges were also incurred in connection with these restructuring actions for those assets made obsolete as a result of these programs.

The restructuring and asset impairment charges in the Consolidated Statements of Income totaled \$366, \$86 and \$176 in 2005, 2004 and 2003, respectively. Detailed information related to restructuring program activity during the three years ended December 31, 2005 is outlined below (in millions):

Restructuring Activity	Ongoing Programs			Total	Legacy Programs ⁽²⁾	Total
	Severance and Related Costs	Lease Cancellation and Other Costs	Asset Impairments ⁽¹⁾			
Ending Balance December 31, 2002	\$ 241	\$ 45	\$ –	\$ 286	\$ 137	\$ 423
Restructuring Provision	186	7	–	193	12	205
Reversals of prior accruals	(15)	(1)	–	(16)	(13)	(29)
Net current-year charges ⁽³⁾	171	6	–	177	(1)	176
Charges against reserve and currency	(269)	(15)	–	(284)	(94)	(378)
Ending Balance December 31, 2003	\$ 143	\$ 36	\$ –	\$ 179	\$ 42	\$ 221
Restructuring Provision	95	8	1	104	2	106
Reversals of prior accruals	(11)	–	–	(11)	(9)	(20)
Net current-year charges ⁽³⁾	84	8	1	93	(7)	86
Charges against reserve and currency	(157)	(21)	(1)	(179)	(11)	(190)
Ending Balance December 31, 2004	\$ 70	\$ 23	\$ –	\$ 93	\$ 24	\$ 117
Restructuring Provision	371	12	15	398	1	399
Reversals of prior accruals	(21)	(6)	–	(27)	(6)	(33)
Net current-year charges ⁽³⁾	350	6	15	371	(5)	366
Charges against reserve and currency ⁽⁴⁾	(203)	(10)	(15)	(228)	(19)	(247)
Ending Balance December 31, 2005	\$ 217	\$ 19	\$ –	\$ 236	\$ –	\$ 236

⁽¹⁾ Charges associated with asset impairments represent the write-down of the related assets to their new cost basis and are recorded concurrently with the recognition of the provision. Accordingly, no reserve is ever maintained for asset impairments.

⁽²⁾ Legacy Programs includes the runoff activity of several predecessor restructuring programs which were initiated between 2000 and 2001.

⁽³⁾ Represents amount recognized within the Consolidated Statements of Income for the years shown.

⁽⁴⁾ Charges in 2005 associated with Legacy Programs include the reclassification of \$9 to Other current and non-current liabilities reflecting the close-out of these programs due to the immateriality of the remaining liability. The remaining liability primarily relates to our exit from facilities in Europe and the U.S., which are currently leased through 2009.

Additional details about our restructuring programs are as follows (in millions):

Reconciliation to Statements of Cash Flows

Years Ended December 31,	2005	2004	2003
Charges to reserve, all programs	\$(247)	\$(190)	\$(378)
Pension curtailment, special termination benefits and settlements	–	8	33
Asset Impairments	15	1	1
Effects of foreign currency and other non-cash	18	(6)	(1)
Cash payments for restructurings	\$(214)	\$(187)	\$(345)

Restructuring – Ongoing Programs: Beginning in the fourth quarter of 2002, we initiated a series of ongoing restructuring initiatives designed to leverage cost savings resulting from realized productivity improvements, realign and lower our overall cost structure and outsource certain internal functions. These initiatives primarily include severance actions and impact all major geographies and segments. During 2003, we provided \$177 for ongoing restructuring programs, net of reversals of \$16 related

to changes in estimates for severance costs from previously recorded actions. The provision consisted of net charges of \$138 primarily related to the elimination of approximately 2,000 positions worldwide, \$33 for pension settlements and post-retirement medical benefit curtailments and \$6 for lease terminations. During 2004, we provided an additional \$93 for ongoing restructuring programs, net of reversals of \$11 related to changes in estimates for severance costs from previously recorded actions. The additional provision consisted of a net charge of \$76 related to the elimination of approximately 1,900 positions primarily in North America and Latin America, \$8 for pension settlements, \$8 for lease terminations and \$1 for asset impairments. During 2005, we provided an additional \$371 for ongoing restructuring programs, net of reversals of \$27 primarily related to changes in estimates in severance costs from previously recorded actions. The additional provision in 2005 consisted of a net charge of \$350 for severance costs, primarily related to the elimination of approximately 3,900 positions worldwide, a net charge of \$6 for lease terminations and \$15 for asset impairments. The initiatives in 2005 are focused on cost reductions in service, manufacturing and back-office support operations primarily within the Office and Production segments. We expect to spend the majority of the restructuring balance as of December 31, 2005 in 2006.

The following tables summarize the total amount of costs expected to be incurred in connection with these restructuring programs and the cumulative amount incurred as of December 31, 2005:

Segment Reporting

(in millions)	Cumulative amount incurred as of December 31, 2004	Amount incurred for the year ended December 31, 2005	Cumulative amount incurred as of December 31, 2005	Total expected to be incurred*
Production	\$ 255	\$ 150	\$ 405	\$ 407
Office	198	175	373	374
DMO	97	22	119	123
Other	122	24	146	150
Total Provisions	\$ 672	\$ 371	\$ 1,043	\$ 1,054

* The total amount of \$1,054 represents the cumulative amount incurred through December 31, 2005 plus additional expected restructuring charges of approximately \$11 related to initiatives identified to date that have not yet been recognized in the Consolidated Financial Statements as well as expected interest accretion on the reserve.

Major Cost Reporting

(in millions)	Cumulative amount incurred as of December 31, 2004	Amount incurred for the year ended December 31, 2005	Cumulative amount incurred as of December 31, 2005	Total expected to be incurred*

Other	625	618
Total Other current liabilities	\$1,352	\$1,309

The components of other long-term assets and other long-term liabilities at December 31, 2005 and 2004 were as follows (in millions):

	2005	2004
Other long-term assets		
Prepaid pension costs	\$ 829	\$ 891
Net investment in discontinued operations	420	440
Internal use software, net	198	255
Restricted cash	176	160
Financial derivative instruments	–	19
Debt issuance costs, net	52	64
Other	246	244
Total Other long-term assets	\$1,921	\$2,073
Other long-term liabilities		
Deferred and other tax liabilities	\$ 771	\$ 862
Minorities' interests in equity of subsidiaries	90	80
Financial derivative instruments	45	43
Product warranties	1	1
Other	388	329
Total Other long-term liabilities	\$1,295	\$1,315

Net Investment in Discontinued Operations: Our net investment in discontinued operations is primarily related to the disengagement from our former insurance holding company, Talegen Holdings, Inc. (“Talegen”), and consists of our net investment in Ridge Reinsurance Limited (“Ridge Re”) and a performance-based instrument relating to the 1997 sale of The Resolution Group (“TRG”).

Ridge Re: We provide aggregate excess of loss reinsurance coverage (the Reinsurance Agreement) to one of the former Talegen units, TRG, through Ridge Re, a wholly owned subsidiary. The coverage limit for this remaining Reinsurance Agreement is \$578. We have guaranteed that Ridge Re will meet all of its financial obligations under the remaining Reinsurance Agreement. Ridge Re maintains an investment portfolio in a trust that is required to provide security with respect to aggregate excess of loss reinsurance obligations under the remaining Reinsurance Agreement. At December 31, 2005 and 2004, the balance of the investments in the trust, consisting of U.S. government, government agency and high-quality corporate bonds, was \$504 and \$544, respectively. Our remaining net investment in Ridge Re was \$83 and \$82 at December 31, 2005 and 2004, respectively. Based on Ridge Re's current projections of investment returns and reinsurance payment obligations, we expect to fully recover our remaining investment. The projected reinsurance payments are based on actuarial estimates. We continue to evaluate potential strategies to transfer our obligations under the remaining Reinsurance Agreement, as well as the investments in the trust, to another insurance company in an effort to completely exit from this business.

Performance-Based Instrument: In connection with the 1997 sale of TRG, we received a \$462 performance-based instrument as partial consideration. Cash distributions are paid on the instrument, based on 72.5% of TRG's available cash flow as defined in the sale agreement. For the years ended December 31, 2005 and 2004, we received cash distributions of \$20 and \$22, respectively. The recovery of this instrument is dependent upon the sufficiency of TRG's available cash flows. Such cash flows are supported by TRG's ultimate parent via a subscription agreement whereby the parent has agreed to purchase from TRG an established number of shares of this instrument each year through 2017. Based on current cash flow projections, we expect to fully recover the \$345 remaining balance of this instrument.

Liability to Xerox Capital LLC: Refer to Note 12 for further information.

Internal Use Software: Capitalized direct costs associated with developing, purchasing or otherwise acquiring software for internal use are amortized on a straight-line basis over the expected useful life of the software, beginning when the software is implemented. Useful lives of the software generally vary from 3 to 5 years. Amortization expense, including applicable impairment charges, was \$92, \$107 and \$116 for the years ended December 31, 2005, 2004 and 2003, respectively.

Note 11 – Debt

Short-term borrowings at December 31, 2005 and 2004 were as follows (in millions):

	2005	2004
Current maturities of long-term debt	\$ 1,099	\$ 3,038
Notes payable	40	36
Total	\$ 1,139	\$ 3,074

We classify our debt based on the contractual maturity dates of the underlying debt instruments or as of the earliest put date available to the debt holders. We defer costs associated with debt issuance over the applicable term or to the first put date, in the case of convertible debt or debt with a put feature. These costs are amortized as interest expense in our Consolidated Statement of Income.

Long-term debt, including debt secured by finance receivables at December 31, 2005 and 2004 was as follows (in millions):

U.S. Operations	Weighted Average Interest Rates at December 31, 2005	2005	2004

⁽²⁾ As of December 31, 2005, these senior notes were guaranteed by our wholly owned subsidiary Xerox International Joint Marketing, Inc.

⁽³⁾ Refer to Note 4 – Receivables, Net, for further discussion of borrowings secured by finance receivables, net.

Scheduled payments due on long-term debt for the next five years and thereafter are as follows (in millions):

2006	2007	2008	2009	2010	There-after	Total
\$1,099	\$1,582	\$978	\$989	\$727	\$1,863	\$7,238

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

Credit Facility: In June 2003, we entered into the 2003 Credit Facility. The 2003 Credit Facility consists of a fully drawn \$300 term loan and a \$700 revolving credit facility that includes a \$200 letter of credit sub-facility. This facility expires on September 30, 2008. As of December 31, 2005, the \$300 term loan and \$15 of letters of credit were outstanding and there were no outstanding borrowings under the revolving credit facility. Since inception of the 2003 Credit Facility in June 2003, there have been no borrowings under the revolving credit facility. Xerox is the only borrower of the term loan.

Subject to certain limits described in the following paragraph, the obligations under the 2003 Credit Facility are secured by liens on substantially all the assets of Xerox and each of our U.S. subsidiaries that have a consolidated net worth from time to time of \$100 or more (the "Material Subsidiaries"), excluding Xerox Credit Corporation ("XCC") and certain other finance subsidiaries, and are guaranteed by certain Material Subsidiaries. At December 31, 2005, Xerox is the only borrower under the 2003 Credit Facility.

Under the terms of certain of our outstanding public bond indentures, the amount of obligations under the 2003 Credit Facility that can be (1) secured by assets (the "Restricted Assets") of (a) Xerox and (b) our non-financing subsidiaries that have a consolidated net worth of at least \$100, without (2) triggering a requirement to also secure those indentures, is limited to the excess of (x) 20% of our consolidated net worth (as defined in the public bond indentures) over (y) the outstanding amount of certain other debt that is secured by the Restricted Assets. Accordingly, the amount of 2003 Credit Facility debt secured by the Restricted Assets will vary from time to time with changes in our consolidated net worth. The amount of security provided under this formula accrues ratably to the benefit of both the term loan and revolving loans under the 2003 Credit Facility.

The term loan and the revolving loans bear interest at LIBOR plus a spread that varies between 1.75% and 3.00% or, at our election, at a base rate plus a spread that depends on the then-current Leverage Ratio, as defined, in the 2003 Credit Facility. The interest rate on the debt as of December 31, 2005 was 6.22%.

The 2003 Credit Facility contains affirmative and negative covenants as well as financial maintenance covenants. Subject to certain exceptions, we cannot pay cash dividends on our common stock during the facility term, although we can pay cash dividends on our preferred stock, provided there is then no event of default. Among defaults customary for facilities of this type, defaults on our other debt, bankruptcy of certain of our legal entities, or a change in control of Xerox Corporation, would all constitute events of default. At December 31, 2005, we were in compliance with the covenants of the 2003 Credit Facility and we expect to remain in compliance for at least the next twelve months.

The Senior Notes also contain negative covenants (but no financial maintenance covenants) similar to those contained in the 2003 Credit Facility. However, they generally provide us with more flexibility than the 2003 Credit Facility covenants, except that payment of cash dividends on the Series C Mandatory Convertible Preferred Stock is subject to the conditions that there is then no default under the Senior Notes, that the fixed-charge coverage ratio (as defined) is greater than 2.25 to 1.00, and that the amount of the cash dividend does not exceed the then amount available under the restricted payments basket (as defined). The Senior Notes are guaranteed by our wholly owned subsidiary Xerox International Joint Marketing, Inc.

Debt Repayments and Maturities: During 2005, we repaid \$140 of public unsecured debt prior to its scheduled maturity in addition to \$1,020 in scheduled public debt maturities.

Guarantees: At December 31, 2005, we have guaranteed \$17 of indebtedness of our foreign subsidiaries. This debt is included in our Consolidated Balance Sheet as of such date. In addition, as of December 31, 2005, \$32 of letters of credit have been issued in connection with insurance guarantees.

Interest: Interest paid on our short-term debt, long-term debt and liabilities to subsidiary trusts issuing preferred securities amounted to \$555, \$710 and \$867 for the years ended December 31, 2005, 2004 and 2003, respectively.

Interest expense and interest income for the three years ended December 31, 2005 was as follows (in millions):

Years Ended December 31,	2005	2004	2003
Interest expense ⁽¹⁾	\$ 557	\$ 708	\$ 884
Interest income ⁽²⁾	(1,013)	(1,009)	(1,062)

⁽¹⁾ Includes Equipment financing interest expense, as well as non-financing interest expense included in Other expenses, net in the Consolidated Statements of Income.

⁽²⁾ Includes Finance income, as well as other interest income that is included in Other expenses, net in the Consolidated Statements of Income.

Equipment financing interest is determined based on an estimated cost of funds applied against an estimated level of debt required to support our financed receivables. The estimated cost of funds is primarily based on our secured borrowing rates. The estimated level of debt is based on an assumed 7 to 1 leverage ratio of debt/equity as compared to our average finance receivables. This methodology has been consistently applied for all periods presented.

A summary of the Net cash payments on other debt as shown on the Consolidated Statements of Cash Flows for the three years ended December 31, 2005 follows (in millions):

	2005	2004	2003
Cash proceeds (payments) on notes payable, net	\$ 4	\$ (6)	\$ 22
Net cash proceeds from issuance of long-term debt ⁽¹⁾	50	974	1,580
Cash payments on long-term debt	(1,241)	(2,390)	(5,646)
Total Net cash payments on other debt	\$(1,187)	\$(1,422)	\$(4,044)

⁽¹⁾Includes payment of debt issuance costs.

Note 12 – Liability to Subsidiary Trusts Issuing Preferred Securities

The Liability to Subsidiary Trusts Issuing Preferred Securities included in our Consolidated Balance Sheets reflects the obligations to our subsidiaries that have issued preferred securities. These subsidiaries are not consolidated in our financial statements because we are not the primary beneficiary of the trusts. As of December 31, 2005 and 2004, the components of our liabilities to the trusts were as follows (in millions):

	2005	2004
Trust I	\$626	\$629
Xerox Capital LLC ⁽¹⁾	98	88
Total	\$724	\$717

⁽¹⁾Classified in Other current liabilities in the December 31, 2005 Consolidated Balance Sheet.

Trust I: In 1997, Xerox Capital Trust I (“Trust I”) issued 650 thousand of 8.0% preferred securities (the “Preferred Securities”) to investors for \$644 (\$650 liquidation value) and 20,103 shares of common securities to us for \$20. With the proceeds from these securities, Trust I purchased \$670 principal amount of 8.0% Junior Subordinated Debentures due 2027 of the Company (“the Debentures”). The Debentures represent all of the assets of Trust I. On a consolidated basis, we received net proceeds of \$637 which was net of fees and discounts of \$13. Interest expense, together with the amortization of debt issuance costs and discounts, amounted to \$54, \$54 and \$52 in 2005, 2004 and 2003, respectively. We have guaranteed (the “Guarantee”), on a subordinated basis, distributions and other payments due on the Preferred Securities. The Guarantee and our obligations under the Debentures and in the indenture pursuant to which the Debentures were issued and our obligations under the Amended

and Restated Declaration of Trust governing the trust, taken together, provide a full and unconditional guarantee of amounts due on the Preferred Securities. The Preferred Securities accrue and pay cash distributions semiannually at a rate of 8% per year of the stated liquidation amount of one thousand dollars per Preferred Security. The Preferred Securities are mandatorily redeemable upon the maturity of the Debentures on February 1, 2027, or earlier to the extent of any redemption by us of any Debentures. The redemption price in either such case will be one thousand dollars per share plus accrued and unpaid distributions to the date fixed for redemption.

Xerox Capital LLC: In 1996, Xerox Capital LLC issued 2 million deferred preferred shares for Canadian (Cdn.) \$50 (\$42) to investors and all of its common shares to us. The total proceeds of Cdn. \$63 (\$52) were loaned to us. The deferred preferred shares are mandatorily redeemable on February 28, 2006 for Cdn. \$90 (equivalent to \$77 at December 31, 2005). Our liability to the subsidiary trust at December 31, 2005 of \$98 includes the redeemable amount of deferred preferred shares of \$77 as well as our liability to the deconsolidated trust of \$21. This liability has been reclassified on the December 31, 2005 Consolidated Balance Sheet from a long-term liability to current liabilities due to the redemption date of February 28, 2006.

Note 13 – Financial Instruments

We are exposed to market risk from changes in foreign currency exchange rates and interest rates, which could affect operating results, financial position and cash flows. We manage our exposure to these market risks through our regular operating and financing activities and, when appropriate, through the use of derivative financial instruments. These derivative financial instruments are utilized to hedge economic exposures as well as reduce earnings and cash flow volatility resulting from shifts in market rates. As permitted, certain of these derivative contracts have been designated for hedge accounting treatment under SFAS No. 133. However, for certain of these instruments we do not apply hedge accounting treatment and, accordingly, our results of operations are exposed to some level of volatility. The level of volatility will vary with the type and amount of derivative hedges outstanding, as well as fluctuations in the currency and interest rate market during the period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

We enter into limited types of derivative contracts, including interest rate and cross-currency interest rate swap agreements, foreign currency spot, forward and swap contracts and purchased foreign currency options to manage interest rate and foreign currency exposures. Our primary foreign currency market exposures include the Japanese yen, Euro, British pound sterling, Canadian dollar and Brazilian real. The fair market values of all our derivative contracts change with fluctuations in interest rates and/or currency rates and are designed so that any changes in their values are offset by changes in the values of the underlying exposures. Derivative financial instruments are held solely as risk management tools and not for trading or speculative purposes.

By their nature, all derivative instruments involve, to varying degrees, elements of market and credit risk not recognized in our financial statements. The market risk associated with these instruments resulting from currency exchange and interest rate movements is expected to offset the market risk of the underlying transactions, assets and liabilities being hedged. We do not believe there is significant risk of loss in the event of non-performance by the counterparties associated with these instruments because these transactions are executed with a diversified group of major financial institutions. Further, our policy is to deal with counterparties having a minimum investment-grade-or-better credit rating. Credit risk is managed through the continuous monitoring of exposures to such counterparties.

Some of our derivative and other material contracts at December 31, 2005 require us to post cash collateral or maintain minimum cash balances in escrow. These cash amounts are reported in our Consolidated Balance Sheets within Other current assets or Other long-term assets, depending on when the cash will be contractually released, as presented in Note 1 to the Consolidated Financial Statements.

Interest Rate Risk Management: We use interest rate swap agreements to manage our interest rate exposure and to achieve a desired proportion of variable and fixed-rate debt. These derivatives may be designated as fair-value hedges or cash flow hedges, depending on the nature of the risk being hedged. Virtually all customer-financing assets earn fixed rates of interest and a significant portion of those assets have been matched to secured borrowings through third-party funding arrangements which generally bear fixed rates of interest. These borrowings are secured by customer-financing assets and are designed to mature as we collect principal payments on the financing assets which secure them. The interest rates on a significant portion of those loans are fixed. As a result, these funding arrangements create natural match funding of the financing assets to the related debt.

At December 31, 2005 and 2004, we had outstanding single currency interest rate swap agreements with aggregate notional amounts of \$2.1 billion and \$2.8 billion, respectively. The net liability fair values at December 31, 2005 and 2004 were \$40 and \$37, respectively.

Fair Value Hedges: As of December 31, 2005 and 2004, pay variable/receive fixed-interest rate swaps with notional amounts of \$1.8 billion and \$2.4 billion, respectively, were designated and accounted for as fair-value hedges. The swaps were structured to hedge the fair value of related debt by converting them from fixed-rate instruments to variable-rate instruments. No ineffective portion was recorded to earnings during 2005 or 2004. The following is a summary of our fair value hedges at December 31, 2005 (in millions):

Debt Instrument	Year First Designated	Notional Amount	Net Liability Fair Value	Weighted-Average Interest Rate Paid	Interest Rate Received	Basis	Maturity
Senior Notes due 2010	2003/2005	\$ 550	\$ (9)	7.39%	7.13%	LIBOR	2010
Senior Notes due 2013	2003	250	(3)	7.40%	7.63%	LIBOR	2013
Notes due 2016	2004	250	(3)	7.17%	7.20%	LIBOR	2016
Senior Notes due 2011	2004	250	(6)	7.26%	6.88%	LIBOR	2011
Liability to Capital Trust I	2005	450	(18)	6.34%	8.00%	LIBOR	2027
Total		\$1,750	\$ (39)				

Cash Flow Hedges: During 2005, pay fixed/receive variable-interest rate swaps with notional amounts of £200 million (\$345) and a net liability fair value of \$(1), associated with the Xerox Finance Limited GE Capital borrowing, were designated and accounted for as cash flow hedges. The swaps were structured to hedge the LIBOR interest rate of the debt by converting it from a variable-rate instrument to a fixed-rate instrument. No ineffective portion was recorded to earnings during 2005.

Terminated Swaps: During 2005, we terminated interest rate swaps with a notional value of \$1.3 billion and a net fair liability value of \$29 which had previously been designated as fair-value hedges of certain indebtedness. The fair-value adjustment to these debt instruments will be amortized to interest expense over the remaining term of the notes. During 2004, we terminated interest rate swaps with a notional value of \$1.1 billion and a net fair asset value of \$68. Interest rate swaps with a notional value of \$600 and a net fair asset value of \$55 had previously been designated as fair-value hedges against the Senior Notes due 2009. In 2005 and 2004, the amortization of these fair-value adjustments reduced interest expense by \$11 and \$9, respectively. The remaining derivatives terminated in 2005 and 2004 had not been previously designated as hedges and accordingly those terminations had no impact on earnings as they were being marked to market through earnings each period.

Foreign Exchange Risk Management: We may use certain derivative instruments to manage the exposures associated with the foreign currency exchange risks discussed below.

Issuance of Foreign Currency Denominated Debt

- We enter into cross-currency interest rate swap agreements to swap the proceeds and related interest payments with a counterparty. In return, we receive and effectively denominate the debt in local functional currencies.
- We utilize forward exchange contracts to hedge the currency exposure for interest payments on foreign currency denominated debt.
- These derivatives may be designated as fair-value hedges or cash flow hedges depending on the nature of the risk being hedged.

Foreign Currency Denominated Assets and Liabilities

- We generally utilize forward foreign exchange contracts and purchased option contracts to hedge these exposures.
- Changes in the value of these currency derivatives are recorded in earnings together with the offsetting foreign exchange gains and losses on the underlying assets and liabilities.

Purchases of Foreign-Sourced Inventory

- We generally utilize forward foreign exchange contracts and purchased option contracts to hedge these anticipated transactions. These contracts generally mature in six months or less.
- Although these contracts are intended to economically hedge foreign currency risks to the extent possible, the differences between the contract terms of our derivatives and the underlying forecasted exposures reduce our ability to obtain hedge accounting. Accordingly, changes in value for these derivatives are recorded directly through earnings.

During 2005, 2004 and 2003, we recorded net currency losses of \$5, \$73 and \$11, respectively. Net currency losses primarily result from the mark-to-market of foreign exchange contracts utilized to hedge foreign currency denominated assets and liabilities, the re-measurement of foreign currency-denominated assets and liabilities and the mark-to-market impact of economic hedges of anticipated transactions for which we do not apply cash flow hedge accounting treatment.

At December 31, 2005, we had outstanding forward exchange and purchased option contracts with gross notional values of \$2,927. The following is a summary of the primary hedging positions and corresponding fair values held as of December 31, 2005:

(in millions)

Currency Hedged (Buy/Sell)	Gross Notional Value	Fair Value Asset (Liability)
U.S. Dollar/Euro	\$ 634	\$10
Japanese Yen/U.S. Dollar	467	2
Euro/U.S. Dollar	225	(2)
Canadian Dollar/Euro	205	(1)
Euro/U.K. Pound Sterling	199	2
Canadian Dollar/U.S. Dollar	166	–
Swedish Kronor/Euro	147	1
U.S. Dollar/U.K. Pound Sterling	129	3
U.S. Dollar/Canadian Dollar	118	–
Euro/Canadian Dollar	98	1
U.K. Pound Sterling/Euro	93	(1)
Swiss Franc/Euro	93	(1)
All Other	353	2
Total	\$2,927	\$16

At December 31, 2005 and 2004, we had outstanding cross-currency interest-rate swap agreements with aggregate notional amounts of \$127 and \$597, respectively. The net (liability) asset fair values at December 31, 2005 and 2004 were \$(5) and \$44, respectively. There was only one contract outstanding at December 31, 2005 and Japanese Yen was the currency hedged.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

Cash Flow Hedges: As of December 31, 2005, cross-currency swaps with a notional amount of \$127 were used to hedge the currency exposure for interest payments and principal on half of our Japanese Yen denominated debt of ¥30 billion (\$255). In addition, forward currency contracts were used to hedge the currency exposure for interest payments on the remaining debt. These combined strategies converted the hedged cash flows to U.S. dollar denominated payments and qualified for cash flow hedge accounting.

During 2004, certain forward contracts were used to hedge the interest payments on Euro denominated debt of \$377. The derivatives were designated and accounted for as cash flow hedges.

No amount of ineffectiveness was recorded in the Consolidated Statements of Income during 2005 or 2004 for our designated

cash flow hedges and all components of each derivative's gain or loss was included in the assessment of hedge effectiveness.

Accumulated Other Comprehensive Loss ("AOCL"): During 2005, a \$32 after-tax decrease in the fair value of cash flow hedges was recorded in AOCL while an after-tax amount of \$30 was transferred to earnings as a result of scheduled payments and receipts on our cash flow hedges. This resulted in an ending gain position relating to the cash flow hedges in AOCL of \$1 as of December 31, 2005.

During 2004, a \$16 after-tax increase in the fair value of cash flow hedges was recorded in AOCL while an after-tax amount of \$(14) was transferred to earnings as a result of scheduled payments and receipts on our cash flow hedges. This resulted in an ending gain position relating to the cash flow hedges in AOCL of \$3 as of December 31, 2004.

Fair Value of Financial Instruments: The estimated fair values of our financial instruments at December 31, 2005 and 2004 were as follows:

(in millions)	2005		2004	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$1,322	\$1,322	\$3,218	\$3,218
Short-term investments	244	244	–	–
Accounts receivable, net	2,037	2,037	2,076	2,076
Short-term debt	1,139	1,134	3,074	3,093
Long-term debt	6,139	6,312	7,050	7,442
Short-term liabilities to trusts issuing preferred securities ⁽¹⁾	98	96	–	–
Long-term liabilities to trusts issuing preferred securities	626	642	717	738

⁽¹⁾ Recognized as a component of Other current liabilities within the Consolidated Balance Sheets.

The fair value amounts for Cash and cash equivalents and Accounts receivable, net approximate carrying amounts due to the short maturities of these instruments. The fair value of Short- and Long-term debt, as well as Liabilities to subsidiary trusts issuing preferred securities, was estimated based on

quoted market prices for publicly traded securities or on the current rates offered to us for debt of similar maturities. The difference between the fair value and the carrying value represents the theoretical net premium or discount we would pay or receive to retire all debt at such date.

Note 14 – Employee Benefit Plans

We sponsor numerous pension and other post-retirement benefit plans, primarily retiree health, in our U.S. and international operations. September 30 is the measurement date for most of our European plans and December 31 is the measurement date for all of our other post-retirement benefit plans, including all of our domestic plans. Information regarding our benefit plans is presented below (in millions):

	Pension Benefits		Other Benefits	
	2005	2004	2005	2004

	Pension Benefits		Other Benefits	
	2005	2004	2005	2004
Aggregate projected benefit obligation	\$ 10,240	\$ 9,959	\$ 1,653	\$ 1,662
Aggregate fair value of plan assets	8,364	8,019	–	–

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

The accumulated benefit obligation for all defined benefit pension plans was \$9,248 and \$8,966 at December 31, 2005 and 2004, respectively.

Information for pension plans with an accumulated benefit obligation in excess of plan assets is presented below (in millions):

	2005	2004
Aggregate projected benefit obligation	\$ 6,601	\$ 6,464
Aggregate accumulated benefit obligation	5,826	5,727
Aggregate fair value of plan assets	4,845	4,668

Our domestic retirement defined benefit plans provide employees a benefit, depending on eligibility, at the greater of (i) the benefit calculated under a highest average pay and years of service formula, (ii) the benefit calculated under a formula that provides for the accumulation of salary and interest credits during an employee's work life, or (iii) the individual account balance from the Company's prior defined contribution plan (Transitional Retirement Account or TRA).

(in millions)	Pension Benefits			Other Benefits

Special termination benefits	–	2	–	–	–	–
Defined contribution plans	71	69	62	–	–	–
Total	\$ 414	\$ 421	\$ 426	\$117	\$111	\$108

⁽¹⁾Interest cost includes interest expense on non-TRA obligations of \$328, \$312 and \$273 and interest expense directly allocated to TRA participant accounts of \$253, \$348 and \$661 for the years ended December 31, 2005, 2004 and 2003, respectively.

⁽²⁾Expected return on plan assets includes expected investment income on non-TRA assets of \$369, \$330 and \$279 and actual investment income on TRA assets of \$253, \$348 and \$661 for the years ended December 31, 2005, 2004 and 2003, respectively.

Settlement/curtailment losses and special termination benefits were incurred as a result of our restructuring programs in all periods presented. Refer to Note 9 for that portion included in restructuring charges for each of the three years ended December 31, 2005.

Pension plan assets consist of both defined benefit plan assets and assets legally restricted to the TRA accounts. The combined investment results for these plans, along with the results for our other defined benefit plans, are shown above in the actual return on plan assets caption. To the extent that investment results relate to TRA, such results are charged directly to these accounts as a component of interest cost.

Plan Assets

Current Allocation and Investment Targets: As of the 2005 and 2004 measurement dates, the global pension plan assets were \$8.4 billion and \$8.1 billion, respectively. These assets were invested among several asset classes. The amount and percentage of assets invested in each asset class as of each of these dates is shown below:

(in millions)	Asset Value		Percentage of Total Assets	
	2005	2004	2005	2004
Equity securities ⁽¹⁾	\$ 4,830	\$ 4,753	57%	58%
Debt securities ⁽¹⁾	2,723	2,592	32	32
Real estate	504	464	6	6
Other	387	301	5	4
Total	\$8,444	\$8,110	100%	100%

⁽¹⁾None of the investments includes debt or equity securities of Xerox Corporation.

Investment Strategy: The target asset allocations for our worldwide plans for 2005 were 54% invested in equities, 39% invested in fixed income, 6% invested in real estate and 1% invested in Other. The target asset allocations for our worldwide plans for 2004 were 59% invested in equities, 34% invested in fixed income, 6% invested in real estate and 1% invested in Other. The pension assets outside of the U.S. as of the 2005 and 2004 measurement dates were \$4.3 billion and \$4.1 billion, respectively.

The target asset allocations for the U.S. pension plan include 64% invested in equities, 30% in fixed income, 5% in real estate and 1% in other investments. Cash investments are sufficient to handle expected cash requirements for benefit payments and will vary throughout the year. The expected long-term rate of return on the U.S. pension assets is 8.75%.

We employ a total return investment approach whereby a mix of equities and fixed-income investments are used to maximize the long-term return of plan assets for a prudent level of risk. The intent of this strategy is to minimize plan expenses by exceeding the interest growth in long-term plan liabilities. Risk tolerance is established through careful consideration of plan liabilities, plan funded status, and corporate financial condition. This consideration involves the use of long-term measures that address both return and risk. The investment portfolio contains a diversified blend of equity and fixed-income investments. Furthermore, equity investments are diversified across U.S. and non-U.S. stocks as well as growth, value, and small and large capitalizations. Other assets such as real estate, private equity and hedge funds are used to improve portfolio diversification. Derivatives may be used to hedge market exposure in an efficient and timely manner; however, derivatives may not be used to leverage the portfolio beyond the market value of the underlying investments. Investment risks and returns are measured and monitored on an ongoing basis through annual liability measurements and quarterly investment portfolio reviews.

Expected Long-Term Rate of Return: We employ a “building block” approach in determining the long-term rate of return for plan assets. Historical markets are studied and long-term relationships between equities and fixed income are assessed. Current market factors such as inflation and interest rates are evaluated before long-term capital market assumptions are determined. The long-term portfolio return is established giving consideration to investment diversification and rebalancing. Peer data and historical returns are reviewed periodically to assess reasonableness and appropriateness.

Contributions: We expect to contribute \$106 to our worldwide pension plans and \$130 to our other post-retirement benefit plans in 2006. The 2006 expected pension plan contributions do not include any planned contribution for the domestic tax-qualified plans because there are no required contributions to these plans for the 2006 fiscal year. However, once the January 1, 2006 actuarial valuations and projected results as of the end of the 2006 measurement year are available, the desirability of additional contributions will be assessed. Based on these results, we may voluntarily decide to contribute to these plans, even though no contribution is required. In prior years, after making this assessment, we decided to contribute \$230 and \$210 in April 2005 and April 2004, respectively, to our domestic tax-qualified plans in order to make them 100% funded on a current liability basis under the ERISA funding rules.

Estimated Future Benefit Payments: The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid (in millions):

	Pension Benefits	Other Benefits
2006	\$ 731	\$ 130
2007	580	133
2008	531	135
2009	591	134
2010	667	129
Years 2011-2015	3,437	640

Healthcare cost trend rate assumed for next year	10.9%	11.9%
Rate to which the cost trend rate is assumed to decline (the ultimate trend rate)	5.2%	5.2%
Year that the rate reaches the ultimate trend rate	2011	2011

Assumed healthcare cost trend rates have a significant effect on the amounts reported for the healthcare plans. A one-percentage point change in assumed healthcare cost trend rates would have the following effects (in millions):

	One-percentage point increase	One-percentage point decrease
Effect on total service and interest cost components	\$ 5	\$ (4)
Effect on post-retirement benefit obligation	73	(64)

Berger Litigation: Our Retirement Income Guarantee Plan ("RIGP") represents the primary U.S. pension plan for salaried employees. In 2003, we recorded a \$239 provision for litigation relating to the court-approved settlement of the Berger v. RIGP litigation. The settlement is being paid from RIGP assets and has been reflected in our 2005 and 2004 actuarial valuations. The obligation related to this settlement has been included in plan amendments in the change in the benefit obligation noted above.

Employee Stock Ownership Plan ("ESOP") Benefits: In 1989, we established an ESOP and sold to it 10 million shares of our Series B Convertible Preferred Stock (the "Convertible Preferred") for a purchase price of \$785. Each Convertible Preferred share was convertible into 6 shares of our common stock. The Convertible Preferred had a \$1 par value and a guaranteed minimum value of \$78.25 per share and accrued annual dividends of \$6.25 per share, which were cumulative if earned. In May 2004, all 6.2 million of our Convertible Preferred shares were redeemed for 37 million common shares in accordance with the original conversion provisions of the Convertible Preferred shares. The redemption was accounted for through a transfer of \$483 from preferred stock to common stock and additional paid-in-capital. Dividends were paid through the redemption date. The redemption had no impact on net income or diluted earnings per share ("EPS"), as such shares were previously included in our EPS computation in accordance with the "if converted" methodology.

Information relating to the ESOP trust for each of the two years ended December 31, 2004 was as follows (in millions):

	2004	2003
Dividends declared on Convertible Preferred Stock	\$15	\$ 41
Cash contribution to the ESOP	—	14
Compensation expense	—	8

Note 15 – Income and Other Taxes

Income (loss) before income taxes for the three years ended December 31, 2005 were as follows (in millions):

	2005	2004	2003
Domestic income (loss)	\$386	\$426	\$(299)
Foreign income	444	539	735
Income before income taxes	\$830	\$965	\$ 436

Provisions (benefits) for income taxes for the three years ended December 31, 2005 were as follows (in millions):

	2005	2004	2003
Federal income taxes			
Current	\$(94)	\$ 26	\$ 77
Deferred	(59)	114	(132)
Foreign income taxes			
Current	95	178	144
Deferred	37	21	72
State income taxes			
Current	9	(19)	(17)
Deferred	7	20	(10)
Total	\$ (5)	\$ 340	\$ 134

A reconciliation of the U.S. federal statutory income tax rate to the consolidated effective income tax rate for the three years ended December 31, 2005 was as follows:

	2005	2004	2003
U.S. federal statutory income tax rate	35.0%	35.0%	35.0%
Nondeductible expenses	3.4	3.4	5.0
Effect of tax law changes	0.3	(1.5)	1.0
Change in valuation allowance for deferred tax assets	(4.6)	1.3	(3.8)
State taxes, net of federal benefit	1.6	1.3	(2.7)
Audit and other tax return adjustments	(25.5)	0.7	7.6
Tax-exempt income	(0.7)	(0.7)	(1.0)
Dividends on Series B convertible preferred stock	–	(0.6)	(3.1)
Other foreign, including earnings taxed at different rates	(10.3)	(2.4)	(7.0)
Other	0.2	(1.3)	(0.3)
Effective income tax rate	(0.6)%	35.2%	30.7%

On a consolidated basis, we paid a total of \$186, \$253 and \$207 in income taxes to federal, foreign and state jurisdictions in 2005, 2004 and 2003, respectively.

Total income tax expense (benefit) for the three years ended December 31, 2005 was allocated as follows (in millions):

	2005	2004	2003
Income taxes on income	\$ (5)	\$340	\$134
Common shareholders' equity ⁽¹⁾	(43)	(20)	123
Total	\$ (48)	\$320	\$257

⁽¹⁾For tax effects of items in accumulated other comprehensive loss and tax benefits related to stock option and incentive plans.

IRS Audit Resolution: In June 2005, the 1996-1998 IRS audit was finalized. As a result, we recorded an aggregate second-quarter 2005 net income benefit of \$343. \$260 of this benefit, which includes an after-tax benefit of \$33 for interest (\$54 pre-tax benefit), is the result of a change in tax law that allowed us to recognize a benefit for \$1.2 billion of capital losses associated with the disposition of our insurance group operations in those years. The claim of additional losses and related tax benefits required review by the U.S. Joint Committee on Taxation, which was completed in June 2005. The benefit did not result in a significant cash refund, but increased tax credit carryforwards and reduced taxes otherwise due. While these benefits originated from our discontinued operations, tax accounting rules require the classification of benefits resulting from a change in tax law to be classified within the continuing operations tax provision.

The \$343 benefit also includes after-tax benefits of \$83 related to the favorable resolution of certain other tax matters. Of this amount, \$53 is related to our discontinued operations and is reported within Income from discontinued operations in the Consolidated Statements of Income.

The following is a summary of the aggregate (benefit) recorded and where classified in the Consolidated Statements of Income for the year ended December 31, 2005 (in millions):

	Tax Law Change	Resolution of Tax Matters	Aggregate Benefits
Other expenses, net	\$ (54)	\$ (3)	\$ (57)
Income tax (benefits) expenses	(206)	(27)	(233)
Income from discontinued operations, net of tax	–	(53)	(53)
Net income	\$ (260)	\$ (83)	\$ (343)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

Deferred Income Taxes

In substantially all instances, deferred income taxes have not been provided on the undistributed earnings of foreign subsidiaries and other foreign investments carried at equity. The amount of such earnings included in consolidated retained earnings at December 31, 2005 was approximately \$6.5 billion. These earnings have been indefinitely reinvested and we currently do not plan to initiate any action that would precipitate the payment of income taxes thereon. It is not practicable to estimate the amount of additional tax that might be payable on the foreign earnings. Our March 31, 2001 sale of half of our ownership interest in Fuji Xerox resulted in our investment no longer qualifying as a foreign corporate joint venture. Accordingly, deferred taxes are required to be provided on the undistributed earnings of Fuji Xerox, arising subsequent to such date, as we no longer have the ability to ensure indefinite reinvestment.

The tax effects of temporary differences that give rise to significant portions of the deferred taxes at December 31, 2005 and 2004 were as follows (in millions):

	2005	2004
Tax effect of future tax deductions		
Research and development	\$ 1,173	\$ 1,281
Post-retirement medical benefits	478	499
Depreciation	271	247
Net operating losses	480	450
Other operating reserves	307	333
Tax credit carryforwards	346	289
Deferred compensation	185	198
Allowance for doubtful accounts	118	149
Restructuring reserves	69	43
Other	166	40
	3,593	3,529
Valuation allowance	(590)	(567)
Total Deferred tax assets	\$ 3,003	\$ 2,962
Tax effect of future taxable income		
Unearned income and installment sales	\$ (1,303)	\$(1,293)
Other	(42)	(79)
Total Deferred tax liabilities	(1,345)	(1,372)
Total Deferred taxes, net	\$ 1,658	\$ 1,590

The above amounts are classified as current or long-term in the Consolidated Balance Sheets in accordance with the asset or liability to which they relate or, when applicable, based on the expected timing of the reversal. Current deferred tax assets at December 31, 2005 and 2004 amounted to \$290 and \$289, respectively.

The deferred tax assets for the respective periods were assessed for recoverability and, where applicable, a valuation allowance was recorded to reduce the total deferred tax asset to an amount that will, more likely than not, be realized in the future. The valuation allowance for deferred tax assets as of January 1, 2004 was \$577. The net change in the total valuation allowance for the years ended December 31, 2005 and 2004 was an increase of \$23 and a decrease of \$10, respectively. The valuation allowance relates primarily to certain net operating loss carryforwards, tax credit carryforwards and deductible temporary differences for which we have concluded it is more likely than not that these items will not be realized in the ordinary course of operations.

Although realization is not assured, we have concluded that it is more likely than not that the deferred tax assets for which a valuation allowance was determined to be unnecessary will be realized in the ordinary course of operations based on the available positive and negative evidence, including scheduling of deferred tax liabilities and projected income from operating activities. The amount of the net deferred tax assets considered realizable, however, could be reduced in the near term if actual future income or income tax rates are lower than estimated, or if there are differences in the timing or amount of future reversals of existing taxable or deductible temporary differences.

At December 31, 2005, we had tax credit carryforwards of \$346 available to offset future income taxes, of which \$247 are available to carryforward indefinitely while the remaining \$99 will begin to expire, if not utilized, in 2006. We also had net operating loss carryforwards for income tax purposes of \$225 that will expire in 2006 through 2024, if not utilized, and \$2.2 billion available to offset future taxable income indefinitely.

Note 16 – Contingencies

Guarantees, Indemnifications and Warranty Liabilities: Guarantees and claims arise during the ordinary course of business from relationships with suppliers, customers and nonconsolidated affiliates when the Company undertakes an obligation to guarantee the performance of others if specified triggering events occur. Nonperformance under a contract could trigger an obligation of the Company. These potential claims include actions based upon alleged exposures to products, real estate, intellectual property such as patents, environmental matters and other indemnifications. The ultimate effect on future financial results is not subject to reasonable estimation because considerable uncertainty exists as to the final outcome of these claims. However, while the ultimate liabilities resulting from such claims may be significant to results of operations in the period recognized, management does not anticipate they will have a material adverse effect on the Company's consolidated financial position or liquidity. As of December 31, 2005, we have accrued our estimate of liability incurred under our indemnification arrangements and guarantees.

Indemnifications Provided as Part of Contracts and Agreements:

We are a party to the following types of agreements pursuant to which we may be obligated to indemnify the other party with respect to certain matters:

- Contracts that we entered into for the sale or purchase of businesses or real estate assets, under which we customarily agree to hold the other party harmless against losses arising from a breach of representations and covenants, including obligations to pay rent. Typically, these relate to such matters as adequate title to assets sold, intellectual property rights, specified environmental matters and certain income taxes arising prior to the date of acquisition.
- Guarantees on behalf of our subsidiaries with respect to real estate leases. These lease guarantees may remain in effect subsequent to the sale of the subsidiary.
- Agreements to indemnify various service providers, trustees and bank agents from any third-party claims related to their performance on our behalf, with the exception of claims that result from third party's own willful misconduct or gross negligence.
- Guarantees of our performance in certain sales contracts to our customers and indirectly the performance of third parties with whom we have subcontracted for their services. This includes indemnifications to customers for losses that may be sustained as a result of the use of our equipment at a customer's location.

In each of these circumstances, our payment is conditioned on the other party making a claim pursuant to the procedures specified in the particular contract, which procedures typically allow us to challenge the other party's claims. In the case of lease guarantees, we may contest the liabilities asserted under the lease. Further, our obligations under these agreements and guarantees may be limited in terms of time and/or amount, and in some instances, we may have recourse against third parties for certain payments we made.

Patent Indemnifications: In most sales transactions to resellers of our products, we indemnify against possible claims of patent infringement caused by our products or solutions. These indemnifications usually do not include limits on the claims, provided the claim is made pursuant to the procedures required in the sales contract.

Indemnification of Officers and Directors: Our corporate by-laws require that, except to the extent expressly prohibited by law, we must indemnify Xerox Corporation's officers and directors against judgments, fines, penalties and amounts paid in settlement, including legal fees and all appeals, incurred in connection with civil or criminal action or proceedings, as it relates to their services to Xerox Corporation and our subsidiaries. Although the by-laws provide no limit on the amount of indemnification, we may have recourse against our insurance carriers for certain payments made by us. However, certain indemnification payments may not be covered under our directors' and officers' insurance coverage. In addition, we indemnify certain fiduciaries of our employee benefit plans for liabilities incurred in their service as fiduciary whether or not they are officers of the Company.

Product Warranty Liabilities: In connection with our normal sales of equipment, including those under sales-type leases, we generally do not issue product warranties. Our arrangements typically involve a separate full-service maintenance agreement with the customer. The agreements generally extend over a period equivalent to the lease term or the expected useful life under a cash sale. The service agreements involve the payment of fees in return for our performance of repairs and maintenance. As a consequence, we do not have any significant product warranty obligations including any obligations under customer satisfaction programs. In a few circumstances, particularly in certain cash sales, we may issue a limited product warranty if negotiated by the customer. We also issue warranties for certain of our lower-end products in the Office segment, where full-service maintenance agreements are not available. In these instances, we record warranty obligations at the time of the sale. Aggregate product warranty liability expenses for the three years ended as of December 31, 2005 were \$45, \$45 and \$47, respectively. Total product warranty liabilities as of December 31, 2005 and 2004 were \$21 and \$23, respectively.

Tax Related Contingencies

Brazil Tax and Labor Contingencies: At December 31, 2005, our Brazilian operations were involved in various litigation matters and have received or been levied with numerous governmental assessments related to indirect and other taxes as well as disputes associated with former employees and contract labor. The total amounts related to these unreserved contingencies, inclusive of any related interest, were approximately \$900. The tax matters, which comprise a significant portion of the total contingencies, principally relate to claims for taxes on the internal transfer of inventory, municipal service taxes on rentals and gross revenue taxes. We are disputing these tax and labor matters and intend to vigorously defend our position. Based on the opinion of legal counsel, we do not believe that the ultimate resolution of these matters will materially impact our results of operations, financial position or cash flows. In connection with these

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

proceedings, customary local regulations may require us to make escrow cash deposits or post other security of up to half of the total amount in dispute. As of December 31, 2005 we have made escrow cash deposits of \$117 for matters we are disputing and there are liens on certain of our Brazilian assets. Generally, any escrowed amounts would be refundable and any liens would be removed to the extent the matter is resolved in our favor. We routinely assess these matters as to probability of ultimately incurring a liability against our Brazilian operations and record our best estimate of the ultimate loss in situations where we assess the likelihood of an ultimate loss as probable of occurring.

General Tax Contingencies: We are subject to ongoing tax examinations and assessments in various jurisdictions. Accordingly, we may record incremental tax expense based upon the probable outcomes of such matters. In addition, when applicable, we adjust the previously recorded tax expense to reflect examination results. Our ongoing assessments of the probable outcomes of the examinations and related tax positions require judgment and can materially increase or decrease our effective tax rate, as well as impact our operating results.

Legal Matters

As more fully discussed below, we are involved in a variety of claims, lawsuits, investigations and proceedings concerning securities law, intellectual property law, environmental law, employment law and the Employee Retirement Income Security Act ("ERISA"). We determine whether an estimated loss from a contingency should be accrued by assessing whether a loss is deemed probable and can be reasonably estimated. We assess our potential liability by analyzing our litigation and regulatory matters using available information. We develop our views on estimated losses in consultation with outside counsel handling our defense in these matters, which involves an analysis of potential results, assuming a combination of litigation and settlement strategies. Should developments in any of these matters cause a change in our determination as to an unfavorable outcome and result in the need to recognize a material accrual, or should any of these matters result in a final adverse judgment or be settled for significant amounts, they could have a material adverse effect on our results of operations, cash flows and financial position in the period or periods in which such change in determination, judgment or settlement occurs.

Litigation Against the Company

In re Xerox Corporation Securities Litigation: A consolidated securities law action (consisting of 17 cases) is pending in the United States District Court for the District of Connecticut. Defendants are the Company, Barry Romeril, Paul Allaire and G. Richard Thoman. The consolidated action purports to be a class action on behalf of the named plaintiffs and all other purchasers of common stock of the Company during the period between October 22, 1998 through October 7, 1999 ("Class Period"). The amended consolidated complaint in the action alleges that in violation of Section 10(b) and/or 20(a) of the Securities Exchange Act of 1934, as amended ("1934 Act"), and SEC Rule 10b-5 thereunder, each of the defendants is liable as a participant in a fraudulent scheme and course of business that operated as a fraud or deceit on purchasers of the Company's common stock during the Class Period by disseminating materially false and misleading statements and/or concealing material facts relating to the defendants' alleged failure to disclose the material negative impact that the April 1998 restructuring had on the Company's operations and revenues. The amended complaint further alleges that the alleged scheme: (i) deceived the investing public regarding the economic capabilities, sales proficiencies, growth, operations and the intrinsic value of the Company's common stock; (ii) allowed several corporate insiders, such as the named individual defendants, to sell shares of privately held common stock of the Company while in possession of materially adverse, non-public information; and (iii) caused the individual plaintiffs and the other members of the purported class to purchase common stock of the Company at inflated prices. The amended consolidated complaint seeks unspecified compensatory damages in favor of the plaintiffs and the other members of the purported class against all defendants, jointly and severally, for all damages sustained as a result of defendants' alleged wrongdoing, including interest thereon, together with reasonable costs and expenses incurred in the action, including counsel fees and expert fees. On September 28, 2001, the court denied the defendants' motion for dismissal of the complaint. On November 5, 2001, the defendants answered the complaint. On or about January 7, 2003, the plaintiffs filed a motion for class certification. Xerox and the individual defendants filed their opposition to that motion on June 28, 2005. The motion has been fully briefed, but has not been argued before the court. The court has not issued a ruling. On or about November 8, 2004, the International Brotherhood of Electrical Workers Welfare Fund of Local Union No. 164 ("IBEW") filed a motion to intervene as a named plaintiff and class representative. That motion has been fully briefed, but has not been argued before the court. The court has not issued a ruling.

Separately, on June 8, 2005, IBEW and Robert W. Roten moved to substitute as lead plaintiffs and proposed class representatives. That motion has been fully briefed, but has not been argued before the court. The court has not issued a ruling. The parties are currently engaged in discovery. The individual defendants and we deny any wrongdoing and are vigorously defending the action. Based on the stage of the litigation, it is not possible to estimate the amount of loss or range of possible loss that might result from an adverse judgment or a settlement of this matter.

Carlson v. Xerox Corporation, et al.: A consolidated securities law action (consisting of 21 cases) is pending in the United States District Court for the District of Connecticut against the Company, KPMG and Paul A. Allaire, G. Richard Thoman, Anne M. Mulcahy, Barry D. Romeril, Gregory Tayler and Philip Fishbach. On September 11, 2002, the court entered an endorsement order granting plaintiffs' motion to file a third consolidated amended complaint. The defendants' motion to dismiss the second consolidated amended complaint was denied, as moot. According to the third consolidated amended complaint, plaintiffs purport to bring this case as a class action on behalf of an expanded class consisting of all persons and/or entities who purchased Xerox common stock and/or bonds during the period between February 17, 1998 through June 28, 2002 and who were purportedly damaged thereby ("Class"). The third consolidated amended complaint sets forth two claims: one alleging that each of the Company, KPMG, and the individual defendants violated Section 10(b) of the 1934 Act and SEC Rule 10b-5 thereunder; the other alleging that the individual defendants are also allegedly liable as "controlling persons" of the Company pursuant to Section 20(a) of the 1934 Act. Plaintiffs claim that the defendants participated in a fraudulent scheme that operated as a fraud and deceit on purchasers of the Company's common stock and bonds by disseminating materially false and misleading statements and/or concealing material adverse facts relating to various of the Company's accounting and reporting practices and financial condition. The plaintiffs further allege that this scheme deceived the investing public regarding the true state of the Company's financial condition and caused the plaintiffs and other members of the alleged Class to purchase the Company's common stock and bonds at artificially inflated prices, and prompted a SEC investigation that led to the April 11, 2002 settlement which, among other things,

required the Company to pay a \$10 penalty and restate its financials for the years 1997-2000 (including restatement of financials previously corrected in an earlier restatement which plaintiffs contend was improper). The third consolidated amended complaint seeks unspecified compensatory damages in favor of the plaintiffs and the other Class members against all defendants, jointly and severally, including interest thereon, together with reasonable costs and expenses, including counsel fees and expert fees. On December 2, 2002, the Company and the individual defendants filed a motion to dismiss the complaint. On July 13, 2005, the court denied the motion. On October 31, 2005, the defendants answered the complaint. On January 19, 2006, plaintiffs filed a motion for class certification. That motion has not been fully briefed or argued before the court. The parties are engaged in discovery. The individual defendants and we deny any wrongdoing and are vigorously defending the action. Based on the stage of the litigation, it is not possible to estimate the amount of loss or range of possible loss that might result from an adverse judgment or a settlement of this matter.

Florida State Board of Administration, et al. v. Xerox Corporation, et al.: A securities law action brought by four institutional investors, namely the Florida State Board of Administration, the Teachers' Retirement System of Louisiana, Franklin Mutual Advisers and PPM America, Inc., is pending in the United States District Court for the District of Connecticut against the Company, Paul Allaire, G. Richard Thoman, Barry Romeril, Anne Mulcahy, Philip Fishbach, Gregory Tayler and KPMG. The plaintiffs bring this action individually on their own behalves. In an amended complaint filed on October 3, 2002, one or more of the plaintiffs allege that each of the Company, the individual defendants and KPMG violated Sections 10(b) and 18 of the 1934 Act, SEC Rule 10b-5 thereunder, the Florida Securities Investors Protection Act, Fl. Stat. ss. 517.301, and the Louisiana Securities Act, R.S. 51:712(A). The plaintiffs further claim that the individual defendants are each liable as "controlling persons" of the Company pursuant to Section 20 of the 1934 Act and that each of the defendants is liable for common law fraud and negligent misrepresentation. The complaint generally alleges that the defendants participated in a scheme and course of conduct that deceived the investing public by disseminating materially false and misleading statements and/or concealing material adverse facts relating to the Company's financial condition and accounting and reporting practices. The plaintiffs contend that in relying on false and misleading statements allegedly made by the defendants, at various times from 1997 through 2000 they bought shares of the Company's common stock at artificially inflated prices. As a result, they allegedly suffered aggregated cash losses in excess of \$200.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

The plaintiffs further contend that the alleged fraudulent scheme prompted an SEC investigation that led to the April 11, 2002 settlement which, among other things, required the Company to pay a \$10 penalty and restate its financials for the years 1997-2000 including restatement of financials previously corrected in an earlier restatement which plaintiffs contend was false and misleading. The plaintiffs seek, among other things, unspecified compensatory damages against the Company, the individual defendants and KPMG, jointly and severally, including prejudgment interest thereon, together with the costs and disbursements of the action, including their actual attorneys' and experts' fees. On December 2, 2002, the Company and the individual defendants filed a motion to dismiss all claims in the complaint that are in common with the claims in the Carlson action. On July 13, 2005, the court denied the motion. On December 9, 2005, the defendants moved to dismiss claims based on issues uniquely related to plaintiffs. Plaintiffs filed their opposition to that motion on January 31, 2006. That motion has not been fully briefed or argued before the court. The parties are engaged in discovery. The individual defendants and we deny any wrongdoing and are vigorously defending the action. Based on the stage of the litigation, it is not possible to estimate the amount of loss or range of possible loss that might result from an adverse judgment or a settlement of this matter.

In Re Xerox Corp. ERISA Litigation: On July 1, 2002, a class action complaint captioned Patti v. Xerox Corp. et al. was filed in the United States District Court for the District of Connecticut (Hartford) alleging violations of the ERISA. Three additional class actions (Hopkins, Uebele and Saba) were subsequently filed in the same court making substantially similar claims. On October 16, 2002, the four actions were consolidated as In Re Xerox Corporation ERISA Litigation. On November 15, 2002, a consolidated amended complaint was filed. A fifth class action (Wright) was filed in the District of Columbia. It has been transferred to Connecticut and consolidated with the other actions. The purported class includes all persons who invested or maintained investments in the Xerox Stock Fund in the Xerox 401(k) Plans (either salaried or union) during the proposed class period, May 12, 1997 through November 15, 2002, and allegedly exceeds 50,000 persons. The defendants include Xerox Corporation and the following individuals or groups of individuals during the proposed class period: the Plan Administrator, the Board of Directors, the Fiduciary Investment Review Committee, the Joint Administrative Board, the Finance Committee of the Board of Directors, and the Treasurer. The complaint claims that all the foregoing defendants were fiduciaries of the Plan under ERISA and, as such, were obligated to protect the Plan's assets and act in the interest of Plan participants.

The complaint alleges that the defendants failed to do so and thereby breached their fiduciary duties. Specifically, plaintiffs claim that the defendants failed to provide accurate and complete material information to participants concerning Xerox stock, including accounting practices which allegedly artificially inflated the value of the stock, and misled participants regarding the soundness of the stock and the prudence of investing their retirement assets in Xerox stock. Plaintiffs also claim that defendants failed to invest Plan assets prudently, to monitor the other fiduciaries and to disregard Plan directives they knew or should have known were imprudent, and failed to avoid conflicts of interest. The complaint does not specify the amount of damages sought. However, it asks that the losses to the Plan be restored, which it describes as "millions of dollars." It also seeks other legal and equitable relief, as appropriate, to remedy the alleged breaches of fiduciary duty, as well as interest, costs and attorneys' fees. We filed a motion to dismiss the complaint. The plaintiffs subsequently filed a motion for class certification and a motion to commence discovery. Defendants have opposed both motions, contending that both are premature before there is a decision on their motion to dismiss. In the fall of 2004, the Court requested an updated briefing on our motion to dismiss and update briefs were filed in December of that year. We and the other defendants deny any wrongdoing and are vigorously defending the action. Based on the stage of the litigation, it is not possible to estimate the amount of loss or range of possible loss that might result from an adverse judgment or a settlement of this matter.

Digwamaje et al. v. IBM et al: A purported class action was filed in the United States District Court for the Southern District of New York on September 27, 2002. Service of the First Amended Complaint on the Company was deemed effective as of December 6, 2002. On March 19, 2003, Plaintiffs filed a Second Amended Complaint that eliminated a number of corporate defendants but was otherwise identical in all material respects to the First Amended Complaint. The defendants include Xerox and a number of other corporate defendants who are accused of providing material assistance to the apartheid government in South Africa from 1948 to 1994, by engaging in commerce in South Africa and with the South African government and by employing forced labor, thereby violating both international and common law. Specifically, plaintiffs claim violations of the Alien Tort Claims Act, the Torture Victims Protection Act and RICO. They also assert human rights violations and crimes against humanity. Plaintiffs seek compensatory damages in excess of \$200 billion and punitive damages in excess of \$200 billion. The foregoing damages are being sought from all defendants, jointly and severally. Xerox filed a motion to dismiss the Second Amended Complaint. Oral argument of the motion was heard on November 6, 2003. By Memorandum Opinion and Order filed November 29, 2004, the court granted the motion to dismiss. A clerk's judgment of dismissal was filed on November 30, 2004. On December 27, 2004, the Company received a notice of appeal dated December 24, 2004. On February 16, 2005,

the parties filed a stipulation withdrawing the December 24, 2004 appeal on the ground that the November 30, 2004 judgment of dismissal was not appealable. On March 28, 2005, Plaintiffs submitted a letter requesting permission to file a motion for leave to file an amended and consolidated complaint. By Summary Order filed April 6, 2005, the Court denied the request. In a second Summary Order filed the same day, the Court amended its November 29, 2004, Opinion and Order, which dismissed the action, so as to render the Opinion and Order appealable and plaintiffs filed a new appeal on May 3, 2005. On August 19, 2005, plaintiffs-appellants filed their brief in the Second Circuit Court of Appeals. On October 4, 2005, defendants-appellees filed their brief in the Second Circuit Court of Appeals. Oral argument in the Second Circuit Court of Appeals was held on January 24, 2006. Xerox denies any wrongdoing and is vigorously defending the action. Based upon the stage of the litigation, it is not possible to estimate the amount of loss or range of possible loss that might result from an adverse judgment or a settlement of this matter.

Arbitration between MPI Technologies, Inc. and Xerox Canada Ltd. and Xerox Corporation: In an arbitration proceeding the hearing of which commenced on January 18, 2005, MPI Technologies, Inc. ("MPI") sought damages from Xerox Corporation and Xerox Canada Ltd. ("XCL") for royalties owed under a license agreement made as of March 15, 1994 between MPI and XCL (the "Agreement") and breach of fiduciary duty, breach of confidence, equitable royalties and punitive damages and disgorgement of profits and injunctive relief with respect to a claim of copyright infringement. On September 9, 2005, the arbitration panel rendered its decision, holding in part that the Agreement had been assigned to Xerox and that no punitive damages should be granted, and awarded MPI approximately \$89, plus interest thereon. On December 12, 2005, the arbitration panel rendered its decision on the applicable rate of pre-judgment interest. We have accrued the amount of the \$89 award, as well as \$13 for pre- and post-judgment interest thereon. On December 7, 2005, Xerox filed an application for judicial review of the award with the Ontario Superior Court seeking that the award be set aside in its entirety. The hearing is scheduled for late June 2006. On December 29, 2005, MPI filed an application for judicial recognition and enforcement of the award. On agreement of the parties, that application has been adjourned to be heard after the Xerox application to set aside the award on a date to be set by the Ontario Superior Court. Pending the determination of the application to set aside the award, Xerox has deposited into escrow funds ordered owing in the award as of the date the deposit was made.

National Union Fire Insurance Company v. Xerox Corporation, et al.:

On October 24, 2003, a declaratory judgment action was filed in the Supreme Court of the State of New York, County of New York against the Company and several current and former officers and/or members of the Board of Directors. Plaintiff claims that it issued an Excess Directors & Officers Liability and Corporate Reimbursement Policy to the Company in reliance on information from the Company that allegedly misrepresented the Company's financial condition and outlook. The policy at issue provides for \$25 of coverage as a component of the Company reimbursement portion of an insurance program that provides for up to \$135 coverage (after deductibles and coinsurance and subject to other policy limitations and requirements) over a three-year period. However, \$10 of the entire amount may be unavailable due to the liquidation of one of the other insurers. Plaintiff seeks judgment (i) that it is entitled to rescind the policy as void from the outset; (ii) in the alternative, limiting coverage under the policy and awarding plaintiff damages in an unspecified amount representing that portion of any required payment under the policy that is attributable to the Company's and the individual defendants' own misconduct; and (iii) for the costs and disbursement of the action and such other relief as the court deems just and proper. On December 19, 2003, the Company and individual defendants moved to dismiss the complaint. On November 10, 2004, the Court issued an opinion partially granting and partially denying the motions. Among other things, the Court granted the motions to dismiss all of the claims for rescission and denied plaintiff's request to replead. The Court denied the Company's and some of the individual defendants' motions to dismiss certain claims that seek to limit coverage based on particular provisions in the policy and that at least in part related to settlement with the SEC. Plaintiff filed notices of appeal on January 10, 2005 and February 11, 2005. By order entered on January 3, 2006, the Appellate Division affirmed the portions of the Court's November 10, 2004 decision which dismissed several of plaintiff's claims and denied leave to replead. On February 2, 2006, plaintiff moved for reargument or for leave to appeal to the Court of Appeals. That motion has not been fully briefed. The Appellate Division has not issued a ruling. Separately, on February 22, 2005, the defendants filed a motion seeking dismissal of any remaining claims in light of Xerox's representation that it will not seek coverage from plaintiff for settlement payments to the SEC. By order dated July 12, 2005, the Court denied the motion. On August 23, 2005, defendants moved for leave to reargue the February 22 motion and separately moved for leave to renew the December 19, 2003 motions. Those motions have been fully briefed. The court has not issued a ruling. The Company and the individual defendants deny any wrongdoing and are vigorously defending the action.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

Warren, et al. v. Xerox Corporation: On March 11, 2004, the United States District Court for the Eastern District of New York entered an order certifying a nationwide class of all black salespersons employed by Xerox from February 1, 1997 to the present under Title VII of the Civil Rights Act of 1964, as amended, and the Civil Rights Act of 1871. The suit was commenced on May 9, 2001 by six black sales representatives. The plaintiffs allege that Xerox has engaged in a pattern or practice of race discrimination against them and other black sales representatives by assigning them to less desirable sales territories, denying them promotional opportunities, and paying them less than their white counterparts. Although the complaint does not specify the amount of damages sought, plaintiffs do seek, on behalf of themselves and the classes they seek to represent, front and back pay, compensatory and punitive damages, and attorneys' fees. We deny any wrongdoing and are vigorously defending the action. Based on the stage of the litigation, it is not possible to estimate the amount of loss or range of possible loss that might result from an adverse judgment or a settlement of this matter.

Compression Labs, Inc. v. Agfa et al. (including Xerox Corporation): In April 2004, Compression Labs, Incorporated (CLI) commenced an action in the United States District Court for the Eastern District of Texas, Marshall Division against Xerox, along with 27 other companies, seeking unspecified damages for patent infringement, injunction and other ancillary relief. According to CLI, the patent covers an aspect of a standard for compressing full-color or gray-scale still images (JPEG). In July 2004, along with several of the other defendants in the above named action, we filed a complaint against CLI in Federal Court in Delaware, requesting a declaratory judgment of non-infringement and invalidity; a finding of an implied license to use the patent; a finding that CLI is estopped from enforcing the patent; damages and relief under state law for deceptive trade practices, unfair competition, fraud, negligent misrepresentation, equitable estoppel and patent misuse; and relief under federal anti-trust laws for CLI's violation of Section 2 of the Sherman Act. On February 16, 2005, the U.S. Multi-District Litigation Panel ordered the subject lawsuit (along with all related lawsuits) be transferred from the District Court of the Eastern District of Texas to the District Court for the Northern District of California. All pre-trial proceedings will occur in the Northern District of California and the lawsuit will, if necessary, be transferred back to the Eastern District of Texas for trial. Discovery for all related cases will continue in the Northern District of California. On May 19, 2005 the judge recused herself from the litigation and a new judge was assigned in August 2005. We deny any wrongdoing and are vigorously defending this action. Based on the stage of the litigation, it is not possible to estimate the amount of loss or range of possible loss that might result from an adverse judgment or a settlement of this matter.

Tesseron, Ltd. v. Xerox Corporation: On October 28, 2004, an action was commenced by Tesseron, Ltd., in the United States District Court for the Northern District of Ohio against Xerox seeking unspecified damages for alleged infringement of seven U.S. patents. Tesseron asserts that its patents cover Xerox's variable imaging software sold with Xerox's production printing systems. Xerox filed an answer on January 28, 2005. The parties are currently engaged in discovery. We deny any wrongdoing and intend to vigorously defend the action. Based upon the stage of the litigation, it is not possible to estimate the amount of loss or range of possible loss that might result from an adverse judgment or a settlement of this matter.

Derivative Litigation Brought on Behalf of the Company:

Miller, et al. v. Allaire, et al.: Following the voluntary dismissal without prejudice of In Re Xerox Derivative Actions in the Supreme Court of the State of New York, County of New York, the plaintiffs purportedly brought a substantially similar putative shareholder derivative action in Connecticut Superior Court, Judicial District of Stamford-Norwalk at Stamford in the name of and for the benefit of the Company, which is named as a nominal defendant, and its public shareholders against several current and former members of the Board of Directors including William F. Buehler, B.R. Inman, Antonia Ax:son Johnson, Vernon E. Jordan, Jr., Yotaro Kobayashi, Hilmar Kopper, Ralph Larsen, George J. Mitchell, N.J. Nicholas, Jr., John E. Pepper, Patricia Russo, Martha Seger, Thomas C. Theobald, Paul Allaire, G. Richard Thoman, Anne Mulcahy and Barry Romeril, and KPMG LLP. This action is based on substantially the same allegations and seeks substantially the same relief as the discontinued action. The complaint alleges that each of the director defendants breached their fiduciary duties to the Company and its shareholders by, among other things, ignoring indications of a lack of oversight at the Company and the existence of flawed business and accounting practices within the Company's Mexican and other operations; failing to have in place sufficient controls and procedures to monitor the Company's accounting practices; knowingly and recklessly disseminating and permitting to be disseminated, misleading information to shareholders and the investing public; and permitting the Company to engage in improper accounting practices. The plaintiffs further allege that each of the director defendants breached his/her duties of due care and diligence in the management and administration of the Company's affairs and grossly mismanaged or aided and abetted the gross mismanagement of the Company and its assets. The complaint also asserts claims of negligence, negligent misrepresentation, breach of contract and breach of fiduciary duty against KPMG. Additionally, plaintiffs claim that KPMG is liable to Xerox for contribution, based on KPMG's share of the responsibility for any injuries or damages for which Xerox is held liable to plaintiffs in related pending securities class action litigation. On behalf of the Company, the plaintiffs seek a judgment declaring that the director defendants violated and/or aided and abetted the breach of their fiduciary duties to the Company and its shareholders;

awarding the Company unspecified compensatory damages against the director defendants, individually and severally, together with pre-judgment and post-judgment interest at the maximum rate allowable by law; awarding the Company punitive damages against the director defendants; awarding the Company compensatory damages against KPMG; and awarding plaintiffs the costs and disbursements of this action, including reasonable attorneys' and experts' fees. Plaintiffs also demand injunctive relief from the indemnification of six former officers for disgorgements imposed pursuant to their respective settlements with the SEC and related legal fees. On November 23, 2005, defendants filed a motion to dismiss and a separate motion for partial summary judgment. Those motions have not yet been fully briefed or argued before the court. The individual defendants deny any wrongdoing.

Pall v. KPMG, et al.: On May 13, 2003, a shareholder commenced a derivative action in the United States District Court for the District of Connecticut against KPMG and four of its current or former partners. The Company was named as a nominal defendant. The plaintiff had filed an earlier derivative action against certain current and former members of the Xerox Board of Directors and KPMG. That action, captioned *Pall v. Buehler, et al.*, was dismissed for lack of jurisdiction. Plaintiff purports to bring this current action derivatively on behalf and for the benefit of the Company seeking damages allegedly caused to the Company by KPMG and the named individual defendants. The plaintiff asserts claims for contribution under the securities laws, negligence, negligent misrepresentation, breach of contract, breach of fiduciary duty and indemnification. The plaintiff seeks unspecified compensatory damages (together with pre-judgment and post-judgment interest), a declaratory judgment that defendants violated and/or aided and abetted the breach of fiduciary and professional duties to the Company, an award of punitive damages for the Company against the defendants, plus the costs and disbursements of the action. On November 7, 2003, the Company filed a limited motion to dismiss the complaint on jurisdictional grounds and reserved its right to seek dismissal on other grounds, if the court denies the initial motion. KPMG and the individual defendants also filed limited motions to dismiss on the same grounds. The motions have not been fully briefed or argued before the court.

Other Litigation:

Xerox Corporation v. 3Com Corporation, et al.: On April 28, 1997, we commenced an action in U.S. District Court for the Western District of New York against Palm, formerly owned by 3Com Corporation, for infringement of the Xerox "Unistrokes" handwriting recognition patent by the Palm Pilot using "Graffiti." Upon reexamination, the U.S. Patent and Trademark Office confirmed the validity of all 16 claims of the original Unistrokes patent. On June 6, 2000, the District Court found the Palm Pilot with Graffiti did not infringe the Unistrokes patent claims, and on October 5, 2000 the Court of Appeals for the Federal Circuit reversed the finding of no infringement and sent the case back to the lower court to continue toward trial on the infringement claims. On December 20, 2001, the District Court granted our motions on infringement and for a finding of validity, thus establishing liability. In January 2003, Palm announced that it would stop including Graffiti in its future operating systems. On February 20, 2003, the Court of Appeals for the Federal Circuit affirmed the infringement of the Unistrokes patent by Palm's handheld devices and remanded the validity issues to the District Court for further analysis. On December 5, 2003 Palm moved for sanctions, alleging that Xerox withheld production of material information. Xerox has since responded to the motion denying the basis of claims. On December 10, 2003 the District Court heard oral arguments on summary judgment motions from both parties directed solely to the issue of validity. A decision denying Xerox's motions and granting Palm's motion of summary judgment for invalidity ("SJ") was granted on May 21, 2004. In June 2004, Palm filed a motion requesting clarification of the grant of SJ, Xerox has responded to that motion, and also filed a motion to reconsider the SJ. On February 16, 2005, the District Court denied Xerox's motion to reconsider and granted Palm's motion to clarify. Pursuant to granting Palm's motion, the District Court supplemented its decision of May 21, 2004. On June 10, 2005, Xerox filed an appeal brief with the Court of Appeals for the Federal Circuit, seeking reversal of the District Court's holding of invalidity. Xerox filed a reply brief to the Palm brief on the issue of invalidity on November 7, 2005. An oral hearing is expected to occur in March 2006.

Other Matters:

It is our policy to promptly and carefully investigate, often with the assistance of outside advisers, allegations of impropriety that may come to our attention. If the allegations are substantiated, appropriate prompt remedial action is taken. When and where appropriate, we report such matters to the U.S. Department of Justice and to the SEC, and/or make public disclosure.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

India: In recent years we have become aware of a number of matters at our Indian subsidiary, Xerox Modicorp Ltd., that occurred over a period of several years, much of which occurred before we obtained majority ownership of these operations in mid-1999. These matters include misappropriations of funds and payments to other companies that may have been inaccurately recorded on the subsidiary's books and certain improper payments in connection with sales to government customers. These transactions were not material to the Company's financial statements. We have reported these transactions to the Indian authorities, the U.S. Department of Justice and to the SEC. The private Indian investigator engaged by the Indian Ministry of Company Affairs has completed an investigation of these matters. In February 2005, the Indian Ministry of Company Affairs provided our Indian subsidiary with the investigator's report which addresses the previously disclosed misappropriation of funds and improper payments and requested comments. The report included allegations that Xerox Modicorp Ltd.'s senior officials and the Company were aware of such activities. The report also asserted the need for further investigation into potential criminal acts related to the improper activities addressed by the report. The matter is now pending in the Indian Ministry of Company Affairs. The Company reported these developments and made a copy of the report received by Xerox Modicorp Ltd. available to the U.S. Department of Justice and the SEC.

On November 17, 2005, Xerox filed its 40-page Reply (plus attachments) with the DCA. Xerox has sent copies of the Xerox Reply to the SEC and DOJ in the United States. In our Reply, we argue that the alleged violations of Indian Company Law by means of alleged improper payments and alleged defaults/failures of the Xerox Modicorp Ltd. Board of Directors were generally unsubstantiated and without any basis in law. Further, we stated that the Report's findings of other alleged violations were unsubstantiated and unproven. The DCA (now called the "Ministry of Company Affairs" or "MCA") will consider our Reply and will let us know their conclusions in the coming months. There is the possibility of fines or criminal penalties if conclusive proof of wrongdoing is found. We have told the DCA that Xerox's conduct in voluntarily disclosing the initial information and readily and willingly submitting to investigation, coupled with the non-availability of earlier records, warrants complete closure and early settlement. In January 2006, we learned that the DCA has issued a "Show Cause Notice" to certain former executives of Xerox Modicorp Ltd. seeking a response to allegations of potential violations of the Indian Companies Act.

In March 2005, following the completion of a share buy-back program that increased our controlling ownership interest in our Indian subsidiary to approximately 89 percent from approximately 86 percent at year-end 2004, we changed the name of our Indian subsidiary to Xerox India Ltd.

Note 17 – Preferred Stock

As of December 31, 2005, we had one class of preferred stock outstanding as well as one class of preferred stock purchase rights. In total, we are authorized to issue approximately 22 million shares of cumulative preferred stock, \$1.00 par value.

Series C Mandatory Convertible Preferred Stock: In 2003, we issued 9.2 million shares of 6.25% Series C Mandatory Convertible Preferred Stock with a stated liquidation value of \$100 per share for net proceeds of \$889. The proceeds from these securities were used to repay a portion of our indebtedness. Annual dividends of \$6.25 per share are cumulative and payable quarterly in cash, shares of our common stock or a combination thereof.

On July 1, 2006, each share of Series C Mandatory Convertible Preferred Stock will automatically convert into between 8.1301 and 9.7561 shares of our common stock, depending on the then 20-day average market price of our common stock. At any time prior to July 1, 2006, holders may elect to convert each share of Series C Mandatory Convertible Preferred Stock into 8.1301 shares of our common stock. If at any time prior to July 1, 2006, the closing price per share of our common stock exceeds \$18.45 for at least 20 trading days within a period of 30 consecutive trading days, we may elect, subject to certain limitations, to cause the conversion of all, but not less than all, the shares of Series C Mandatory Convertible Preferred Stock then outstanding for shares of our common stock at a conversion rate of 8.1301 shares of our common stock for each share of Series C Mandatory Convertible Preferred Stock.

Preferred Stock Purchase Rights: We have a shareholder rights plan designed to deter coercive or unfair takeover tactics and to prevent a person or persons from gaining control of us without offering a fair price to all shareholders. Under the terms of this plan, one-half of one preferred stock purchase right ("Right") accompanies each share of outstanding common stock. Each full Right entitles the holder to purchase from us one three-hundredth of a new series of preferred stock at an exercise price of \$250. Within the time limits and under the circumstances specified in the plan, the Rights entitle the holder to acquire either our common stock, the stock of the surviving Company in a business combination, or the stock of the purchaser of our assets, having a value of two times the exercise price. The Rights, which expire in April 2007, may be redeemed prior to becoming exercisable by action of the Board of Directors at a redemption price of \$.01 per Right. The Rights are non-voting and, until they become exercisable, have no dilutive effect on the earnings per share or book value per share of our common stock.

Note 18 – Common Stock

We have 1.75 billion authorized shares of common stock, \$1 par value. At December 31, 2005, 125 million shares were reserved for issuance under our incentive compensation plans, 90 million shares were reserved for the conversion of the Series C Mandatory Convertible Preferred Stock, 48 million shares were reserved for debt to equity exchanges, and 2 million shares were reserved for the conversion of convertible debt.

Stock-Based Compensation: We have a long-term incentive plan whereby eligible employees may be granted restricted stock units (“RSUs”), performance shares (“PSs”) and non-qualified stock options.

In January 2005, we implemented changes in our stock-based compensation programs designed to help us continue to attract and retain employees and to better align employee interests with those of our shareholders. With these changes, in lieu of stock options we began granting PSs and expanded the use of RSUs. Each of these awards is subject to settlement with newly issued shares of our common stock. At December 31, 2005 and 2004, 38.9 million and 33.9 million shares, respectively, were available for grant of options or awards.

Total compensation related to these programs was \$40, \$22 and \$15 for the years ended December 31, 2005, 2004 and 2003, respectively. The related income tax benefit recognized was \$16, \$8 and \$7 for 2005, 2004 and 2003, respectively. A description of each of our stock-based compensation programs follows:

Restricted Stock Units: Prior to 2005, the RSUs were generally subject to a three-year ratable vesting period from the date of grant and entitled the holder to one share of common stock. In 2005, the terms of newly-issued RSUs were changed such that the entire award vests three years from the date of grant. Compensation expense is based upon the grant date market price and is recorded over the vesting period. A summary of the activity for RSUs as of December 31, 2005, 2004 and 2003, and changes during the years then ended, is presented below (RSUs in thousands):

	2005		2004		2003	
	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value
Nonvested Restricted Stock Units						
Outstanding at January 1	2,804	\$13.86	2,180	\$10.46	2,352	\$14.08
Granted	3,750	16.89	2,539	13.70	1,657	7.90
Vested	(977)	15.01	(1,905)	9.72	(1,809)	12.60
Cancelled	(86)	16.21	(10)	19.14	(20)	30.36
Outstanding at December 31	5,491	15.69	2,804	13.86	2,180	10.46

At December 31, 2005, the aggregate intrinsic value of RSUs outstanding was \$79. The total intrinsic value of RSUs vested during 2005, 2004 and 2003 was \$13, \$26 and \$15, respectively. The actual tax benefit realized for the tax deductions for vested RSUs totaled \$4, \$9 and \$5 for the years ended December 31, 2005, 2004 and 2003, respectively.

At December 31, 2005, there was \$39 of total unrecognized compensation cost related to nonvested RSUs, which is expected to be recognized ratably over a remaining weighted-average contractual term of two years.

Performance Shares: We grant officers and selected executives PSs whose vesting is contingent upon meeting pre-determined Diluted Earnings per Share (EPS) and Cash Flow from Operations targets. These shares entitle the holder to one share of common stock, payable after a three-year period and the attainment of the stated goals. If the cumulative three-year actual results for EPS and Cash Flow from Operations exceed the stated targets, then the plan participants have the potential to earn additional shares of common stock. This overachievement can not exceed 50% for officers and 25% for non-officers of the original grant.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

A summary of the activity for PSs as of December 31, 2005, and changes during the year then ended, is presented below (shares in thousands):

Nonvested Performance Shares	Shares	Weighted Average Grant Date Fair Value	Weighted Average Remaining Contractual Term
Outstanding at January 1	–		
Granted	2,070	\$14.87	
Vested	–	–	
Cancelled	(18)	14.87	
Outstanding at December 31	2,052	14.87	2.0

At December 31, 2005, the aggregate intrinsic value of PSs outstanding was \$30.

For 2005, the PSs were accounted for as variable awards requiring that the shares be adjusted to market value at each reporting period. Commencing January 1, 2006, upon the adoption of FAS 123(R), PSs will be recorded prospectively using fair value determined as of the grant date. If the stated targets are not met, any recognized compensation cost would be reversed. As of December 31, 2005, there was \$24 of total unrecognized compensation cost related to nonvested PSs; this cost is expected to be recognized ratably over the next two years.

Stock Options: Stock options generally vest over a period of three years and expire between eight and ten years from the date of grant. We have not recognized compensation expense relating to employee stock options because the exercise price of the options was equal to the market value of our common stock on the grant date. The following table provides information relating to the status of, and changes in, stock options granted for each of the three years ended December 31, 2005 (stock options in thousands):

	2005		2004		2003	
	Stock Options	Average Option Price	Stock Options	Average Option Price	Stock Options	Average Option Price
Employee Stock Options						
Outstanding at January 1	91,833	\$20.98	97,839	\$21.46	76,849	\$25.58
Granted	–	–	11,216	13.71	31,106	9.50
Cancelled	(10,291)	39.41	(8,071)	32.24	(6,840)	20.58
Exercised	(5,235)	7.74	(9,151)	7.28	(3,276)	6.36
Outstanding at December 31	76,307	19.40	91,833	20.98	97,839	21.46
Exercisable at December 31	66,928 ⁽¹⁾		65,199		58,652	

⁽¹⁾On January 1, 2006, an additional 8.1 million stock options became exercisable.

Options outstanding and exercisable at December 31, 2005 were as follows (stock options in thousands):

Range of Exercise Prices	Options Outstanding			Options Exercisable		
	Number Outstanding	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Number Exercisable	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price
\$4.75 to \$6.98	6,487	4.96	\$ 4.87	5,939	4.90	\$ 4.85
7.13 to 10.69	31,078	6.35	9.12	25,789	6.27	9.29
10.70 to 15.27	11,119	5.97	13.66	7,577	5.96	13.65
16.91 to 22.88	12,188	4.00	21.77	12,188	4.00	21.77
25.38 to 32.16	3,826	3.89	26.37	3,826	3.89	26.37
42.83 to 60.95	11,609	2.38	55.79	11,609	2.38	55.79
	76,307	5.08	19.40	66,928	4.89	20.70

At December 31, 2005, the aggregate intrinsic value of stock options outstanding and stock options exercisable was \$247 and \$204, respectively.

The following table provides information relating to stock option exercises for the three years ended December 31, 2005:

(in millions)	2005	2004	2003
Total Intrinsic Value	\$36	\$67	\$14
Cash Received	41	67	21
Tax Benefit Realized for Tax Deductions	12	23	5

Treasury Stock: In October 2005, the Board of Directors authorized the Company to repurchase up to \$500 of common stock. The stock is expected to be repurchased through the period ending October 31, 2006, primarily through open-market purchases. Repurchases are made in compliance with the Securities and Exchange Commission's Rule 10b-18, and are subject to market conditions as well as applicable legal and other considerations. During the fourth quarter of 2005, we repurchased 30,502,200 shares at an aggregate cost of \$433, including associated fees of \$1. These treasury stock shares may be cancelled upon the Board of Directors' approval. In 2005, 16,585,300 repurchased shares were cancelled and were recorded as a reduction to both common stock of \$17 and additional paid-in-capital of \$213.

Note 19 – Research, Development and Engineering (“R,D&E”)

R,D&E was \$943, \$914 and \$962 for the three years ended December 31, 2005, respectively. Research and development (“R&D”) costs were \$755 in 2005, \$760 in 2004 and \$868 in 2003. Sustaining engineering costs are incurred with respect to ongoing product improvements or environmental compliance after initial product launch. Our sustaining engineering costs were \$188, \$154 and \$94 for the three years ended December 31, 2005, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share data and unless otherwise indicated)

Note 20 – Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share of common stock (in millions, except shares in thousands):

	2005	2004	2003
Basic Earnings per Share:			
Income from continuing operations before discontinued operations and cumulative effect of change in accounting principle	\$ 933	\$ 776	\$ 360
Accrued dividends on:			
Series B Convertible Preferred Stock, net	–	(16)	(41)
Series C Mandatory Convertible Preferred Stock	(58)	(57)	(30)
Adjusted income from continuing operations before discontinued operations and cumulative effect of change in accounting principle	875	703	289
Income from discontinued operations, net	53	83	–
Cumulative effect of change in accounting principle, net	(8)	–	–
Adjusted net income available to common shareholders	\$ 920	\$ 786	\$ 289
Weighted Average Common Shares Outstanding	957,149	834,321	769,032
Basic Earnings per Share:

Income from discontinued operations	0.06	0.10	–
Loss from cumulative effect of change in accounting principle	(0.01)	–	–
Basic Earnings per Share	\$ 0.96	\$ 0.94	\$ 0.38
Diluted Earnings per Share:			
Income from continuing operations before discontinued operations and cumulative effect of change in accounting principle	\$ 933	\$ 776	\$ 360
ESOP expense adjustment, net	–	(6)	(35)
Accrued dividends on Series C Mandatory Convertible Preferred Stock	–	–	(30)
Interest on Convertible securities, net	1	51	–
Adjusted income from continuing operations before discontinued operations and cumulative effect of change in accounting principle	934	821	295
Income from discontinued operations, net	53	83	–
Cumulative effect of change in accounting principle, net	(8)	–	–
Adjusted net income available to common shareholders	\$ 979	\$ 904	\$ 295
Weighted Average Common Shares Outstanding	957,149	834,321	769,032
Common shares issuable with respect to:			
Stock options and restricted stock	11,415	14,198	8,273
Series B Convertible Preferred Stock	–	17,359	51,082
Series C Mandatory Convertible Preferred Stock	74,797	74,797	–
Convertible securities	1,992	106,272	–
Adjusted Weighted Average Shares Outstanding	1,045,353	1,046,947	828,387
Diluted Earnings per Share:			
Income from continuing operations	\$ 0.90	\$ 0.78	\$ 0.36
Income from discontinued operations	0.05	0.08	–
Loss from cumulative effect of change in accounting principle	(0.01)	–	–
Diluted Earnings per Share	\$ 0.94	\$ 0.86	\$ 0.36

The 2005, 2004 and 2003 computation of diluted earnings per share did not include the effects of 36 million, 38 million and 63 million stock options, respectively, because their respective exercise prices were greater than the corresponding market value per share of our common stock.

In 2003, the following potentially dilutive securities were not included in the computation of diluted EPS because to do so would have been anti-dilutive (in thousands of shares on weighted-average basis):

	2003
Series C Mandatory Convertible Preferred Stock	43,656
Liability to subsidiary trust issuing preferred securities – Trust II	113,426
Convertible subordinated debentures	1,992
Total	159,074

All such securities were dilutive or converted to common stock in 2005 and 2004.

Note 21 – Divestitures and Other Sales

During the three years ended December 31, 2005, the following significant divestitures occurred:

Integic: In March 2005, we completed the sale of our entire equity interest in Integic Corporation (“Integic”) for \$96 in cash, net of transaction costs. The sale resulted in a pre-tax gain of \$93 (\$58 after-tax). Prior to this transaction, our investment in Integic was accounted for using the equity method and was included in Investments in affiliates, at equity within our Consolidated Balance Sheets. The pre-tax gain is classified within Other (income) expenses, net in the accompanying Consolidated Statements of Income.

ScanSoft: In April 2004, we completed the sale of our ownership interest in ScanSoft, Inc. (“ScanSoft”) to affiliates of Warburg Pincus for approximately \$79 in cash, net of transaction costs. Prior to the sale, we beneficially owned approximately 15% of ScanSoft’s outstanding equity interests. The sale resulted in a pre-tax gain of \$38. Prior to this transaction, our investment in ScanSoft was accounted for as an “available for sale” investment. The gain is classified within Other (income) expenses, net in the accompanying Consolidated Statements of Income.

ContentGuard: In March 2004, we sold all but 2% of our 75% ownership interest in ContentGuard Inc. (“ContentGuard”) to Microsoft Corporation and Time Warner Inc. for \$66 in cash. The sale resulted in a pre-tax gain of \$109 as our investment reflected the recognition of cumulative operating losses. The gain on sale has been presented within the accompanying consolidated statements of income considering the reporting requirements related to discontinued operations of SFAS No. 144, “Accounting for the Impairment or Disposal of Long-Lived Assets.” The revenues, operating results and net assets of ContentGuard were immaterial for all periods presented. ContentGuard, which was originally created out of research developed at the Xerox Palo Alto Research Center (“PARC”), licenses intellectual property and technologies related to digital rights management. During 2005, we sold our remaining interest in ContentGuard.

Xerox Engineering Systems: In the second quarter of 2003, we sold our Xerox Engineering Systems (“XES”) subsidiaries in France and Germany for a nominal amount and recognized a loss of \$12.

Note 22 – Financial Statements of Subsidiary Guarantors

The Senior Notes due 2009, 2010, 2011 and 2013 are guaranteed by Xerox International Joint Marketing, Inc. (“XIJM”) (the “Guarantor Subsidiary”), which is wholly owned by Xerox Corporation (the “Parent Company”). Effective December 31, 2005, one of the prior guarantors, Intelligent Electronics, Inc., was merged into the Parent Company based on an internal reorganization. This resulted in a retroactive restatement of the condensed consolidating financial information to reflect XIJM as the sole guarantor subsidiary as of December 31, 2005. The following supplemental financial information sets forth, on a condensed consolidating basis, statements of income, the balance sheets and statements of cash flows for the Parent Company, the Guarantor Subsidiary, the non-guarantor subsidiaries and total consolidated Xerox Corporation and subsidiaries for the years ended December 31, 2005, 2004 and 2003 and as of December 31, 2005 and December 31, 2004.

Note 23 – Subsequent Events

In January 2006, the Board of Directors authorized an additional repurchase of up to \$500 of the Company's common stock. The Company expects the stock to be repurchased over the next 6-12 months, primarily through open-market purchases. Open-market repurchases will be made in compliance with the Securities and Exchange Commission's Rule 10b-18, and are subject to market conditions as well as applicable legal and other considerations.

Through February 16, 2006, we repurchased the following through our authorized repurchase programs:

	Common Stock Shares	Aggregate Costs
October 2005 Repurchase Program	35,213,032	\$501 *
January 2006 Repurchase Program	3,556,168	52 **
Total	38,769,200	\$553

*This amount included \$1 of associated fees.

**This amount included an insignificant amount of associated fees.

REPORTS OF MANAGEMENT

Management's Responsibility for Financial Statements

Our management is responsible for the integrity and objectivity of all information presented in this annual report. The consolidated financial statements were prepared in conformity with accounting principles generally accepted in the United States of America and include amounts based on management's best estimates and judgments. Management believes the consolidated financial statements fairly reflect the form and substance of transactions and that the financial statements fairly represent the Company's financial position and results of operations.

The Audit Committee of the Board of Directors, which is composed solely of independent directors, meets regularly with the independent auditors, PricewaterhouseCoopers LLP, the internal auditors and representatives of management to review accounting, financial reporting, internal control and audit matters, as well as the nature and extent of the audit effort. The Audit Committee is responsible for the engagement of the independent auditors. The independent auditors and internal auditors have free access to the Audit Committee.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in the rules promulgated under the Securities Exchange Act of 1934. Under the supervision and with the participation of our management, including our principal executive, financial and accounting officers, we have conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in "Internal Control – Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Based on the above evaluation, management has concluded that our internal control over financial reporting was effective as of December 31, 2005. Our management's assessment of the effectiveness of our internal control over financial reporting as of December 31, 2005 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which is included herein.

Anne M. Mulcahy
Chief Executive Officer

Lawrence A. Zimmerman

Gary R. Kabureck
Chief Accounting Officer

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Xerox Corporation:

We have completed integrated audits of Xerox Corporation's 2005 and 2004 consolidated financial statements and of its internal control over financial reporting as of December 31, 2005 and an audit of its 2003 consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Our opinions, based on our audits, are presented below.

Consolidated financial statements

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, cash flows and common shareholders' equity present fairly, in all material respects, the financial position of Xerox Corporation and its subsidiaries at December 31, 2005 and 2004, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Internal control over financial reporting

Also, in our opinion, management's assessment, included in the accompanying Management's Report on Internal Control Over Financial Reporting, that the Company maintained effective internal control over financial reporting as of December 31, 2005, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), is fairly

stated, in all material respects, based on those criteria. Furthermore, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2005, based on criteria established in *Internal Control – Integrated Framework* issued by the COSO. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express opinions on management's assessment and on the effectiveness of the Company's internal control over financial reporting based on our audit. We conducted our audit of internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. An audit of internal control over financial reporting includes obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

QUARTERLY RESULTS OF OPERATIONS (UNAUDITED)

Xerox Corporation

<i>(in millions, except per-share data)</i>	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Full Year
2005					
Revenues	\$ 3,771	\$ 3,921	\$ 3,759	\$ 4,250	\$ 15,701
Costs and Expenses ⁽¹⁾	3,482	3,804	3,682	3,903	14,871
Income from Continuing Operations before Income Taxes, Equity Income, Discontinued Operations and Cumulative Effect of Change in Accounting Principle	289	117	77	347	830
Income tax expenses (benefits) ⁽²⁾	116	(233)	29	83	(5)
Equity in net income of unconsolidated affiliates	37	20	23	18	98
Income from discontinued operations, net	–	53	–	–	53
Cumulative effect of change in accounting principle, net	–	–	(8)	–	(8)
Net Income	\$ 210	\$ 423	\$ 63	\$ 282	\$ 978
Basic Earnings per Share ⁽³⁾	\$ 0.20	\$ 0.43	\$ 0.05	\$ 0.28	\$ 0.96
Diluted Earnings per Share ⁽³⁾	\$ 0.20	\$ 0.40	\$ 0.05	\$ 0.27	\$ 0.94
2004					
Revenues	\$ 3,827	\$ 3,853	\$ 3,716	\$ 4,326	\$ 15,722
Costs and Expenses ⁽¹⁾	3,625	3,581	3,553	3,998	14,757
Income from Continuing Operations before Income Taxes, Equity Income, Discontinued Operations and Cumulative Effect of Change in Accounting Principle	202	272	163	328	965
Income tax expenses	67	91	62	120	340
Equity in net income of unconsolidated affiliates ⁽⁴⁾	30	27	62	32	151
Income from discontinued operations, net	83	–	–	–	83
Cumulative effect of change in accounting principle, net	–	–	–	–	–
Net Income	\$ 248	\$ 208	\$ 163	\$ 240	\$ 859
Basic Earnings per Share ⁽³⁾	\$ 0.28	\$ 0.23	\$ 0.18	\$ 0.26	\$ 0.94
Diluted Earnings per Share ⁽³⁾	\$ 0.25	\$ 0.21	\$ 0.17	\$ 0.24	\$ 0.86

⁽¹⁾ Costs and expenses include restructuring and asset impairment charges of \$85, \$194, \$17 and \$70 for the first, second, third and fourth quarters of 2005, respectively, and \$6, \$33, \$23 and \$24 for the first, second, third and fourth quarters of 2004, respectively. Also included are \$93 from the 2005 first-quarter sale of our entire equity interest in Integic (see Note 21) and \$115 from the MPI arbitration panel ruling and probable losses for other legal matters incurred in the third quarter of 2005 (see Note 16). In addition, a gain of \$38 from the sale of our investment in ScanSoft was included in the second quarter of 2004.

⁽²⁾ The 2005 second quarter included \$343 of net income tax benefits related to the finalization of the 1996-1998 IRS audit, of which \$233 was included in income taxes, \$57 was included in other expenses, net and \$53 was included in discontinued operations (see Note 15).

⁽³⁾ The sum of quarterly earnings per share may differ from the full-year amounts due to rounding, or in the case of diluted earnings per share, because securities that are anti-dilutive in certain quarters may not be anti-dilutive on a full-year basis.

⁽⁴⁾ Equity in net income of unconsolidated affiliates for the third quarter of 2004 includes an after-tax \$38 pension settlement benefit from Fuji Xerox.

FIVE YEARS IN REVIEW

Depreciation on buildings and equipment	\$ 280	\$ 305	\$ 299	\$ 341	\$ 402

⁽¹⁾ Net income (loss), as well as Basic and Diluted Earnings per Share for the years ended December 31, 2005, 2004, 2003 and 2002 exclude the effect of amortization of goodwill in accordance with the adoption of Statement of Financial Accounting Standards No. 142 "Goodwill and Other Intangible Assets." Amortization expense, net, related to Goodwill was \$59 in 2001.

⁽²⁾ In March 2001, we sold half of our ownership interest in Fuji Xerox to Fuji Photo Film Co. Ltd. for \$1.3 billion in cash. In connection with the sale, we recorded a pre-tax gain of \$773. As a result, our ownership percentage decreased from 50% to 25%.

⁽³⁾ Effective July 1, 2005, we reclassified sustaining engineering costs from cost of sales and cost of service, outsourcing and rentals to a new line item in our Consolidated Statements of Income entitled Research, Development and Engineering. This presentation aligns our external reporting presentation to our internal management of these costs.
